Cherry Street:

Cherry St is lined with retail with the exception of an entrance to access upper level parking and 2 lobby entrances to access upper level commercial and residential uses. There are currently 4 retail spaces on the First Floor all accessed from Cherry. The proposed retail space is shaded on the screenshot below:

Bank Street:

Bank St is lined with retail with the exception of an entrance to access upper level parking, a service entrance, and two lobbies to access upper level commercial and residential uses. There are currently 3 retail spaces on the Ground Floor accessed from Bank – two of which are two-story. The proposed retail space is shaded on the screenshot below:

St. Paul Street:

The new block of St Paul St is almost completely lined with retail space with the exception of 2 lobby entrances to access upper level commercial and residential uses. There is currently one 2-story retail space on the Ground Floor accessed from Bank, one retail space on the First level accessed from St. Paul, and one retail space on the First level accessed from Cherry. The proposed retail space is shaded on the screenshot below:

Pine Street:

The new block of Pine St is lined with retail with the exception of an entrance to access underground parking and a lobby to access upper level commercial and residential uses. There are currently two separate retail spaces - one on the Ground Floor accessed from Pine and the other on the First level accessed primarily from Cherry. The proposed retail space is shaded on the screenshot below:
