Subj: Re: 1 Mill Street: On Top School Program.

Dear School Commissioners:
Why is the School Board allowing the rental of a building at 1 Mill Street for 27 students when it is located less than 25 feet from a river? A child was recently drowned at a day care that was located on a river.
Additionally, there are no sidewalks, bike paths or pedestrian paths to the building, nor is there a safe drop off or pick for the students.
It appears this location will not be approved by the DRB and there is no back up plan for an alternative site. Where is the leadership in the Burlington School Department? These students are educated with state and federal money. If the program is closed the Burlington tax payer will have to assume the cost. Has this expense been factored into your budget?

Martha Lang.
