Hi everyone,

Unfortunately, the combined demands of a new baby at home and new job responsibilities in Montpelier have made it very challenging for me to fully engage with the DRB (as you might have noticed from my recent attendance record). I need to step down in the next few months - in a brief discussion with a couple city councilors it seemed to make sense for me to resign at the time new members are selected. I will remain on the board until a replacement is identified and available to start, which appears to be slated for about mid-June.

It's disappointing to have to step down. I've learned a tremendous amount and thoroughly enjoyed being involved. I hope to re-engage at some point in the future.

Best-  
Kevin
