13 Resolved by the City Council of the City of Burlington, as follows:
14

15
16 That WHEREAS, the Vermont Italian Club, as part of its mission to promote the awareness of Italian-
17 American involvement in shaping the past, present and future of the region and specifically the area of
18 Burlington transformed through the South Champlain Street Urban Renewal Project, has contracted with
19 a graphic designer to design wayside exhibit interpretive panels to educate residents and visitors about the
20 neighborhood, its people, religious life, and their businesses; and

21 WHEREAS, through written text and historical photographs and direct quotations, the signs will
22 evoke a sense of what it was like to live in this urban community from the end of the 19th Century into the
23 1960's; and

24 WHEREAS, the Lake Champlain Basin Program and City of Burlington (“City”) have a
25 successful ongoing partnership to design wayside exhibit interpretive panels to educate residents and
26 visitors about the intrinsic resources (archeological, cultural, environmental, historic, recreational and
27 scenic) of the Lake Champlain region; and

28 WHEREAS, the Vermont Italian Club worked with the Lake Champlain Basin Program and the
29 City to design three wayside exhibit interpretive panels to educate residents and visitors about the historic
30 and cultural aspects related to Burlington’s Italian-American community; and

31 WHEREAS, the Vermont Italian Club and Lake Champlain Basin Program have also
32 worked with the City to select appropriate locations for the installation of this panel and will work with
33 the City to obtain necessary local permits as needed; and

34 WHEREAS, this project is funded by Vermont Italian Club, Lake Champlain Basin Program and
35 City, through its Community and Economic Development Office; and

Resolution Relating to VERMONT ITALIAN CLUB – AUTHORIZATION TO ACCEPT GIFT – “LITTLE ITALY” WAYSIDE EXHIBIT INTERPRETIVE PANELS

WHEREAS, the Vermont Italian Club has raised the resources to have the interpretive exhibit panels and their supports manufactured and installed; and

WHEREAS, the Vermont Italian Club wishes to present these three panels to the City as a gift from Burlington’s Italian-American community; and

WHEREAS, the wayside exhibit interpretive panels titles and locations are listed below;

1. “Neighbors Helping Neighbors” north side of the St. Paul and Pearl Street intersection
2. “Neighborhood Groceries” northeast corner of Battery and Cherry Streets
3. “Family and Religious Life” east side of Cherry and St. Paul Streets; and

WHEREAS, the City, through its Departments of Public Works and Parks has reviewed and approved these locations and agrees that these locations will not interfere with the maintenance of the rights-of-way; and

WHEREAS, the City acknowledges the sadness that many residents from multiple backgrounds experienced with the South Champlain Urban Renewal project, a sadness that was particularly hard felt by Burlington’s Italian-American community; and

WHEREAS, the City believes that this project will honor the history of Burlington’s Italian-American community and hopes that it will also help to heal the wounds of the South Champlain Urban Renewal project; and

WHEREAS, the City of Burlington recognizes the contributions of Burlington’s Italian-American community past and present to the success and vibrancy of our community; and

NOW, THEREFORE, BE IT RESOLVED that the City Council accepts the Vermont Italian Club’s gift of the three “Little Italy” wayside exhibit interpretive panels; and

BE IT FURTHER RESOLVED that the Department of Public Works is authorized to execute the Memorandum of Agreement (attached) regarding these three wayside exhibit interpretive panels.

MEMORANDUM OF AGREEMENT
between the
Vermont Italian Club
and the
City of Burlington
concerning installation, ownership and maintenance of
3 Interpretive Panels for “Little Italy, Piccola Italia”,
to be installed at the following location:

1. north side of the St. Paul and Pearl Street intersection – “Neighbors Helping Neighbors”
2. northeast corner of Battery and Cherry Streets – “Neighborhood Groceries”
3. east side of Cherry and St. Paul Streets – “Family and Religious Life”

WHEREAS, the Lake Champlain Basin Program (LCBP) and City of Burlington have a successful ongoing partnership to design wayside exhibit interpretive panels to educate residents and visitors about the intrinsic resources (archeological, cultural, environmental, historic, recreational and scenic) of the Lake Champlain; and

WHEREAS the Vermont Italian Club (VIC) as part of its mission to promote the awareness of Italian-American involvement in shaping the past, present and future of the region and specifically the area of Burlington transformed through the South Champlain Street Urban Renewal Project, has contracted with a graphic designer to design wayside exhibit interpretive panels to educate residents and visitors about the neighborhood, its people, religious life, and their businesses. Through written text and historical photographs and direct quotations, the signs will evoke a sense of what it was like to live in this urban community from the end of the 19th Century into the 1960’s; and

WHEREAS, the VIC worked with the LCBP and City to design these wayside exhibit interpretive panels to educate residents and visitors about the historic and cultural aspects related to Burlington’s Italian-American community; and

WHEREAS the VIC and LCBP have also worked with the City to select appropriate locations for the installation of these panels and will work with the City to obtain necessary local permits as needed; and

WHEREAS, the City, through its Department of Public Works, has reviewed and approved these locations and agrees that these location will not interfere with the maintenance of the right-of-way; and

WHEREAS this project is funded by VIC, LCBP and City of Burlington through the Community and Economic Development Office (CEDO); and

WHEREAS the Vermont Italian Club has raised the resources to have the signs and their supports manufactured and installed and has requested that the City be responsible for the installation and maintenance of these three interpretive panels over their anticipated life-span.

Therefore, it is Mutually Agreed and Understood by and Between the Vermont Italian Club and the City that:

- I. the VIC shall make necessary payment and arrangements for the manufacture and delivery of the panel and any necessary, associated mounting systems such as base plates, pedestals, posts, backing plates, rail mounts and fasteners; and
- II. LCBP shall be responsible for the payment and contracting for the design services to create the interpretive panels; and
- III. The City, through DPW and/or its designee, shall prepare each site for the installation of the panel, such preparation being, for example, the marking of the exact location and preparing the site for installation of the panel and associated mounting systems; and
- IV. DPW and/or its designee will install at the VIC's expense the single panels at the agreed upon proposed locations: (1) north side of the St. Paul and Pearl Street intersection; (2) northeast corner of Battery and Cherry Streets; and (3) east side of Cherry and St. Paul Streets
- V. Upon installation of the panel, ownership of that panel shall immediately be vested in the City; and
- VI. After ownership of the panels is vested in the City of Burlington:
 - a. The City shall assume full liability for all injuries or damages to persons or property as a result of the operation, use or maintenance of each panel; and
 - b. The City shall have the panel remain on the property as installed and DPW shall clean the panel and mounting system as needed with mild soap and water or non-abrasive cleanser or equivalent; and
 - c. In the event of damage to a panel and/or to the mounting system, the City, through CEDO, shall within 3 months, make every effort arrive at an agreement with VIC specifying how to secure sufficient funds for repair or restoration of the panel and/or mounting system. The City may use its discretion as to whether to file an insurance claim to help pay for this cost. Funds may be sought from a variety of sources including City funds, private contributions from individuals or entities and contributions from non-profit organizations such as local historical societies; and
 - d. In the event of "recurrent" (meaning 2 times in any six month period) but reparable vandalism to a panel, the City, through CEDO, and the Vermont Italian Club agree to meet to discuss and seek agreement on a strategy to try and reduce this vandalism, including possibly moving the panel to a new location for the installation of the panel and to share any re-installation costs equally; and
 - e. In the event of catastrophic irreparable damage to a panel or any other reasonable basis, including but not limited to the failure to come to an agreement on the

reduction of recurrent but repairable vandalism, the City reserves the right to remove the panel or to not replace it if it has been previously removed; and

- f. If alterations to landscaping or design at one or more of the above locations necessitate moving the location of the panel, the City, through CEDO, and the Vermont Italian Club agree that they shall meet to try to identify a suitable location for the panel to be reinstalled with the City agreeing to cover any re-installation costs. If agreement cannot be reached the City shall have the right to move it to an alternate location or remove it at its sole discretion.

This Agreement shall become effective as of the date of the last signature below.

Revised 10/7/13

Currently, Board members are receiving instruction on the National Incident Management System (NIMS) which is a nationally-implemented protocol for incident and disaster management. The Board is also currently overseeing the drafting of a city urban livestock and slaughtering ordinance for eventual consideration by the City Council. The Board is considering a number of projects addressing substance abuse prevention in the city such as supporting the Hub and Spoke Program for opiate addiction treatment, promoting safe medication prescribing practices, and promoting National Drug Take-Back Day. The Board of Health also produces Front Porch Forum postings each month to raise awareness of public health issues.

These newly-initiated projects represent only a part of the Board of Health's overall public health efforts. Within the past few months, the Board of Health provided guidance regarding health impacts in the form of a resolution sent to the City Council on the basing of the F-35 Joint Strike Fighter plane at the Burlington Air Guard Station. Because weed and insect killers are washed into our storm water and end up in Lake Champlain, our own source of drinking water, the Board of Health continues to work collaboratively with area organizations, businesses, and homeowners to reduce and eliminate the use of toxic chemicals on residential lawns and gardens.

The Burlington Board of Health is a member of the National Association of Local Boards of Health (NALBOH) and has sent its members to their annual conferences. This organization supports board of health/health officer leadership training and serves as a resource for practical solutions to public health concerns by providing information on public health governance functions, engaging citizens, and the role of effective leadership in healthy communities. The Burlington Board of Health public health resolutions have been cited in NALBOH publications on environmental health and the Healthy Lawns, Healthy Lives project was part of the program for the 20th Annual Conference in Atlanta, August, 2012.

The Board of Health met the second Thursday of every month at 3 different rotating locations. Meetings began at 5:30 pm and lasted between 2-3 hours and were open to the public. The Board of Health currently does not have vacancies but desired skill sets include an interest in public health and experience with law or interpreting regulations. Feel free to email us, or come to one of our monthly meetings. Help make Burlington become number one in health!

RE: My Resignation from the CAC

Dear Amber:

After nearly five years serving the CAC, it is with sadness and regret that I hereby submit my resignation from the CAC, effective immediately. I find that challenges with personal health issues together with the struggles I (and other members of the CAC) have been having with BT administration over the last year and a half, or so, make my continued work with the CAC untenable.

Sincerely,

JK/tim

RE: My Resignation from the CAC

Dear Amber:

After almost three years serving the BT CAC, it is with sadness, regret & deep frustration that I hereby submit my resignation from the CAC, effective immediately. With the departures of both Lenore Broughton and Dr. Jeffrey Kaufman, both of whom I find to be very respectable and fully contributing members of the CAC, I cannot see a future for me any longer in service to the CAC. With the untoward experiences of this last year it has been very difficult to serve as a volunteer community member on the CAC, to serve in good faith and in keeping with the intentions set forth in the job description. After all is said and done, I feel unwanted, unneeded and simply a figurehead. By BT's CPG you have a requirement to fill the role, but it seems nobody really wanted that job properly done in the first place.

Sincerely,

Michael F. McGarghan, Jr.

Oct. 2013

I am one of many
who proudly wish
to keep F35 Basing.
They fly to protect us.
Think about it - - -

Don't stop basing - protect it - it's a need
for protecting these 8,000 residents -

When these 8,000 residents
bought their homes, they
knew that ^{they would} be near an
airport and there is noise from planes.
My thoughts are (for) the F35 Basing.
The brave men that fly these
planes should be praised for their
service - they are protecting our
country. If we were at war here -
the same people objecting would
need their service. When they
go out, yes a little noise but
know that you ^{the 8,000} are being protected.
Say a prayer for the brave men
and tell myself not everyone
could do what they are doing.
It is not "people before planes"
it is "these planes will protect
people".

Cheers for the F35 Basing - "God Bless America"

BUILDING CLERK
TREASURERS OFFICE

Stop the F-35 Basing

We need your help to make a difference!

- WHAT:** Burlington City Council Public Hearing and Vote on Prohibiting the F-35 Basing
- WHEN:** Monday, October 7 @ 6:00 PM (People Before Planes Rally at 5:30)
- WHERE:** Burlington City Hall, corner of Church and Main
- WHY:** This is our best chance to stop the F-35 basing

On Monday, **October 7th**, the Burlington City Council will vote on a binding resolution to bar the basing of the F-35. **This is our best chance to stop the basing.**

The public hearing on the resolution begins at **6:00 pm** at Burlington City Hall.

The Stop the F-35 Coalition will hold a rally for *People Before Planes* at **5:30 pm** before the City Council meeting on the steps of City Hall with councilors sponsoring the resolution.

A large attendance of people opposed to the F-35 basing from Burlington, Chittenden County, and beyond will make a difference. Bring friends, neighbors, and anyone else you can to stand up for people before planes.

Contact Burlington City Councilors now - Ask the City Council to vote for the resolution to bar the basing and take a stand against sacrificing over 8,000 residents in airport neighborhoods.

Go to www.stopthef35.com for more information.

RECEIVED
2013 OCT -7 P 2:31
BURLINGTON CLERK
TREASURER'S OFFICE

Dear Councilor:

As you know, the Redistricting Committee has forwarded a recommendation to you for adoption of one of three plans for the reapportionment of Burlington. All three plans have supporters and detractors, and enough disagreement surrounds each that your decision will be likely be met with opposition once again. I propose an alternative to the current impasse that you could separately adopt, or choose to return to the Redistricting Committee for their acceptance.

I am one of the Ward 4 NPA representatives on the Redistricting Committee. I worked extensively with the mapping process on BTVVotes.org and reviewed each of the three plans. From the beginning I was open to all three approaches. I used the mapping program to try to create balanced redistricting throughout the city and have been critical of the plans that I feel do not produce that equality and balance. In the end, I do not believe the Thirteen Councilor Plan alone achieves that critical threshold.

The Ward 4 and Ward 7 NPA's have strongly supported an **Eight Ward – Sixteen Councilor Plan** by adding a ward and increasing the number of City Councilors to sixteen in order to retain four Councilors from the New North End. The two additional Councilors in the eight ward approach would be based in the area around Fletcher Allen Health Care and the University of Vermont; the section of the city that has experienced much growth in the recent past and will continue to be subject to future population increases with at least one significant residential development already in the early stages of Planning and Zoning Approval.

A second approach submitted to you is a **Four Ward Plan** with twelve City Councilors; three in each of the four wards. Opposition to this plan is that the wards would be too large and result in more expensive and time-consuming campaigns. It is felt that only well-financed candidates would be able to run for City Council and the School Board. Residents of Ward 4 and Ward 7 would lose one City Councilor but could support this approach on the basis of balance and equality across the entire city. It does not single out the New North End for the reduction of councilors.

The third plan offered is a **Thirteen Councilor Plan** which would partition the city into six wards; five of which would each have two councilors each and the sixth, located solely within the New North End, having three councilors. This plan is out of balance and is not supported in any way, shape or form by the Redistricting Committee members from Wards 4 and 7. We will also vigorously oppose it at the polls if it is put on the ballot next March.

The developers of the Four Ward Plan got the concept right; the city has four logical and identifiable quadrants. They are Central, East, South, and North. With the Four Ward Plan each quadrant receives equal representation. In contrast, the Thirteen Councilor Plan is unbalanced. If it was a four-legged stool it would have two 4' legs, one 3' leg, and one 2' leg. You could sit on it but would find yourself butt-first on the floor. Supporters of the Thirteen Councilor Plan proposed it primarily because it would avoid ties like the one we saw recently during the election of the Council President.

During the deliberations of the Redistricting Committee I presented a "hybrid" plan that included elements of both the four and eight ward plans. It would identify the four quadrants as "districts" with each one electing a City Councilor in the odd-numbered years. The four districts would be further subdivided into two wards each and they would elect one councilor in the even numbered

years. The result would be a twelve member City Council with every part of the city being in balance and having a meaningful election year after year.

I also believe we could consider adding a thirteenth "at-large" citywide councilor elected every two years in the odd numbered year concurrent with the district elections. Perhaps, if we wanted to expand the role of the 13th Councilor, we could have that person be the City Council President elected by popular vote of all of the voters of Burlington. This would enhance the position of the City Council President and strengthen the role of the City Council overall.

The plan I have outlined above takes into consideration all of the strengths of the three plans which have been presented to you. The negatives of each are also removed, and the obstacles ahead as we seek voter approval have been substantially negated because proponents of the three plans each get something they want with their individual plans.

One of the criticisms of the Eight Ward Plan is that it creates the need for additional ballots and possibly another polling place. This could be alleviated by establishing the District level as the polling place thus there would be four locations instead of the current seven. Once the ballot matrix has been created an ample supply of ballots would be available at each district polling place and voters could be directed to their proper ward for voting. (Where applicable, the city could choose to have the ward level be the location for voting if the size of the facility, limited parking, distance from voters, etc. were factors in the decision.)

If we adopted this plan at Town Meeting in March of 2014, and obtained the approval of the legislature for a Burlington Charter Change, we would implement the changes in 2015.

Below is how the next seven March Town Meeting Day elections would look, including the initial phase-in of the Districts and Wards in order to create two year terms on an alternating cycle. The thirteenth councilor option is also indicated in parenthesis.

2015	Four Districts – Two Year Terms for All (Thirteenth Councilor – Two Year Term) Eight Wards - One Year Term for All Mayoral Election – Three Year Term
2016	Eight Wards – Two Year Terms for All
2017	Four Districts – Two Year Terms for All (Thirteenth Councilor – Two Year Term)
2018	Eight Wards – Two Year Terms for All Mayoral Election – Three Year Term
2019	Four Districts – Two Year Terms for All (Thirteenth Councilor – Two Year Term)
2020	Eight Wards – Two Year Terms for All
2021	Four Districts – Two Year Term for All (Thirteenth Councilor – Two Year Term) Mayoral Election – Three Year Term

Consistent with the belief that Burlington is a vibrant political community, this plan would produce meaningful elections year after year. People who want to run for City Council would have multiple opportunities to serve from the ward level up to a citywide seat. It offers the potential for change to occur from time-to-time while also providing the opportunity for stability whether at the ward, district, or citywide level. As much as anything, this recommendation is a Leadership Initiative for Burlington that promotes the idea that the City Council members are both a partner and a counterbalance to the mayor's administration.

Thank you for your consideration. I look forward to speaking with you individually.

Sincerely,

George Gamache
