

## District: CHIT-3-NEW

Field	Value
District	CHIT-3-NEW
Population	3580
Deviation	-592
% Deviation	-14.19%
Formula Field	CHIT-3-NEW

\* This map is contingent on the potential addition of approximately 850 residents to the CHIT-3-NEW district, attributable to the University Heights area, which were mistakenly included in the adjacent block on the UVM campus in the CHIT-3-4 district. Efforts are underway to confirm and verify that the Census count in these blocks is inaccurate and it would be appropriate to make this shift.

If 850 additional residents are attributed to the proposed CHIT-3-NEW district and subtracted to the proposed 3-4 district, the population and deviation will change as follows:

**CHIT-3-NEW:**    Population    4430  
                           Deviation      6.18%

**CHIT-4:**            Population    8863  
                           Deviation      6.22%
