## FREE PARKING PROMOTION DURING GREAT STREETS - ST. PAUL PROJECT

*BUSINESSES OPEN, PEDESTRIANS ALWAYS WELCOME, RATES REDUCED*

**Burlington, VT** - The City of Burlington, Champlain College and Park Burlington are excited to announce a free parking promotion through August during the Great Streets project on Saint Paul St. Beginning on April 1st, the new covered lots at 194 St. Paul St - with entrances on King or Maple - will offer a first hour of free parking and a rate reduction to \$1/Hr for every hour thereafter. See the attached map for the location of the parking lots. **You must still use Parkmobile or the kiosk machine to set up your parking session, even for the hour of free parking.**

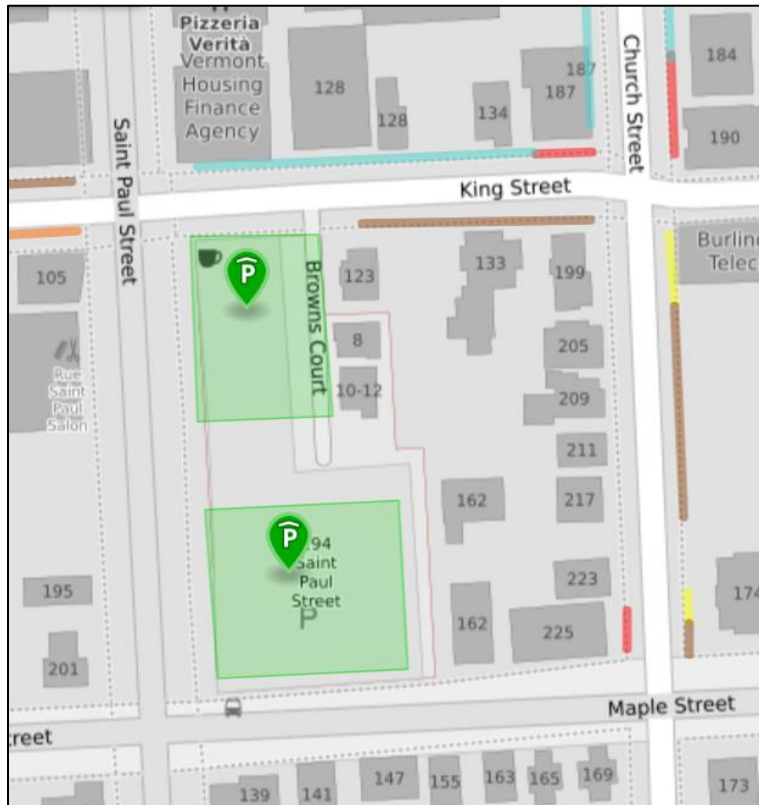

### Details About Great Streets

Burlington's first Great Streets project will resume full construction efforts again on April 1, depending on frost-depth, and last through the final weeks of August. This project will transform the St. Paul corridor -- enhancing the resiliency of our city's infrastructure and the commercial vibrancy of these blocks. Sidewalks will be rebuilt and widened, roads repaved, tree canopies improved, rain gardens/benches/bike racks/welcoming-street lighting installed, and overhead utilities buried.

While St. Paul - between Main & Maple - will close to vehicular traffic, businesses remain open, side streets will usually be open and pedestrians are always welcome! Please note, there will be occasional short-term local traffic only patterns established on King or Maple -- often between Pine and Church. The covered lots are still accessible during this work.
