

## ADDENDUM #1: QUESTIONS AND RESPONSES re: CALAHAN PARK INFIELD FENCE REPLACEMENT

**Date:** May 2, 2019  
**To:** All Bidders  
**From:** Burlington Parks, Recreation & Waterfront  
**Re:** Responses to questions/comments

BPRW received the following questions in the manner and by the deadline outlined in the Bid Request of April, 26 2019:

1. The padding on the top of the fence is yellow, hard plastic, correct?
  - a. *Yes, the padding on top is yellow, corrugated, hard plastic.*
2. Are all posts to be set in concrete?
  - a. *Yes, all posts are to be set in concrete.*
3. Should bidders include labor to remove the brush over-growth, or is that something the city will be doing?
  - a. *Please include labor to remove the brush.*
4. Does the 7' chain link on the eastern side have the padding on the top?
  - a. *No, the 7' chain link on the east side does not have padding on top.*
5. Are both both gates to be replaced? Or would the replacement start from the easternmost post of the 4' gate and continue east?
  - a. *Just the 8' gate would be replaced. The new fence would start from the eastern post of the existing 4' gate.*
6. Pg. 4 of 7, Item #6 suggests realigning & adjusting 8' gate. However, same page, item g. requires replacement of 8'W gate? Please clarify.
  - a. *Item #6 (adjusting the gate) is only for Alternate#1 of repairing the existing fence. If the fence gets fully replaced, replacement of the gate should be included. If the fence is only repaired, the gate would not be replaced and would need some adjustment and servicing.*
7. Do you need the Bid Alt. for repair?
  - a. *While we won't reject a bid without it, we would like to have a quote for the bid alt for repair.*
