RE: System Wide BPRW Wayfinding Signage

I. LOCATION

Following the completion of Burlington Parks, Recreation & Waterfront’s 2016 Wayfinding Guidelines, BPRW has undertaken a number of small wayfinding installations, including the sign package completed in time for the grand opening of the Andy A_Dog Skatepark in June of 2016. BPRW currently seeks shop drawings, fabrication and installation services for the continued rollout of newly branded wayfinding signage across the city parks system (see map and matrix below).
II. DESCRIPTION OF CURRENT CONDITIONS

With the exception of a few locations that have been upgraded to new BPRW Wayfinding Signage standards, most parks and facilities in the system contain insufficient wayfinding with inconsistent and deteriorating signage. BPRW seeks to unify our wayfinding signs and promote our new brand with a more expansive installation of park ID and bike path wayfinding signage in the fall of 2017.

III. SCOPE

Please provide costs for the following signs/locations. For a number of reasons, including minimizing costs and regulatory concerns associated with the excavation of contaminated urban soils at locations along the Burlington Greenway, BPRW is interested in the use of helical pilings in place of traditional poured concrete footings. Please include prices for both options in your proposal. Please complete the following bid form and submit with your proposal:

During any excavation for signage along the Burlington Greenway, which contains known contaminated urban soils, BPRW would retain the services of a Qualified Environmental Professional (QEP) to evaluate the existing data, oversee excavation, and direct the appropriate management of any contaminated material.

Management may include off-site disposal at a certified landfill and will likely require laboratory analysis. Reuse onsite is also an option, but all soil must be isolated under a QEP approved isolation barrier (i.e. 6-inches of clean topsoil overlain by geotextile fabric, asphalt, gravel, concrete) and any grade changes would require pre-approval by BPRW. Under the direction of the QEP, the contractor will be responsible for reestablishing any existing isolation barrier in areas disturbed by excavation in accordance with the corresponding Corrective Action Plan (CAP) for the area of excavation. All excavation and soil management activities will be appropriately documented by QEP in accordance with the relevant CAP(s).

BPRW’s wayfinding and signage guidelines, containing descriptions and technical specifications for varying signage types, can be found and downloaded from https://enjoyburlington.com/resources/brand-wayfinding-guidelines/.

Additionally, general locations for each of the proposed signs listed in the bid schedule above can be found using the webapp at: http://burlingtonvt.maps.arcgis.com/apps/webappviewer/index.html?id=91ed429d01304315a0f837f5a6d7eebc.

**Additional Scope Items:**

- Signage shall be resistant to fading, chipping, weathering, etc.
- Contractor shall clean up all debris and surplus soil and restore the site to previous conditions.
- Turf damage shall be minimized whenever possible. If Turf damage is unavoidable the contractor must apply seed and mulch to restore the site to its original condition. Any proposed seed mix must be submitted to the city for prior approval.
- BPRW Staff will obtain all municipal permits
- Precise location and orientation of new signs will be discussed between the awarded contractor and BPRW’s planning team.

**IV. ESTIMATED DESIGN/BUILD CONTRACT**

In compliance with City procurement and competitive bid requirements, please provide a quote for design/build services necessary to complete the scope as detailed in this request for bids.

It is understood, however, that such forms and samples may be modified, altered, and augmented from time to time by the Municipality as occasions may require. It is the responsibility of the Consultant to ensure
that they have the latest versions applicable to the Agreement.

EXTENSION OF TIME: The Consultant agrees to prosecute the work continuously and diligently and no charges or claims for damages shall be made by the Consultant for delays or hindrances, from any cause whatsoever, during the progress of any portion of services specified in the Agreement. Such delays or hindrances, if any, may be compensated for by an extension of time for such reasonable period as the Municipality may decide. Time extensions shall be granted by amendment, only for excusable delays, such as delays beyond the control of the Consultant and without the fault or negligence of the Consultant.

In the event that any such causes for delay are of such magnitude as to prevent the complete performance of the Agreement within two (2) years of the originally scheduled completion date, either party may by written notice request to amend or terminate the Agreement.

If the termination is for the Municipality's convenience, payment to the Consultant will be made promptly for the amount of any fees earned to the date of the notice of termination, less any payments previously made. However, if a notice of termination is given to a Consultant prior to completion of twenty (20) percent of the estimated services, as set forth in the approved Work Schedule and Progress Report, the Consultant will be reimbursed for that portion of any reasonable and necessary expenses incurred to date of the notice of termination, that are in excess of the amount earned under its approved fee to the date of said termination.
