BPD SWORN OFFICER HEADCOUNT, 2015-2022

**TOTAL SWORN HEADCOUNT**, as of the first of each month, month-by-month

Sept 22, 2022 – all data preliminary & subject to change

Note: 64 was as of 09/01/22; as of 09/22/22, two officers have retired/resigned. Current headcount is 62.
As of today, the BPD has 62 total sworn officers, of whom 51 are available to be deployed. Historically, headcount has been in the high 90s; currently we are authorized for 87 officers.

62

minus 11 on leave, injury, VPA, etc. = 51
minus 13 supervisors = 38
minus 9 detectives = 29
minus 6 airport officers = 23
minus 3 special assignments = 20

As part of Chief Murad’s 2021 Public Safety Continuity Plan, we have hired:

- six **Community Service Officers** (CSOs),

These are unarmed, unsworn officers who answer quality-of-life calls for service. Historically, the BPD had two; Chief Murad’s plan expanded the role significantly. We currently have six employees in the role, and **our new FY23 budget allows us to have 12 CSOs**. We have new candidates in the hiring pipeline.

As part of the Public Safety Continuity Plan, we hired:

- three **Community Support Liaisons** (CSLs)

Chief Murad created this new position, which is unique to the BPD. CSLs are embedded social workers with expertise in mental health, substance use disorder, and houselessness who help address social service issues. Here, too, the FY23 budget allows for expansion. **We are hopeful to hire three more and have 6 CSLs by July 2023.**
Burlington is doing innovative things that most communities are not: some calls for service are being handled by our CSOs; and we’ve developed an in-house social-work capability in the form of the CSLs. For reference, the city’s various in-the-field mental health response can be analogized to the Police Department’s response types:

**PATROL**

Proactive police patrol is the key to public safety. Officers answer calls for service from neighbors and also intervene in situations they observe. CSOs perform similar functions for a more limited range of incidents.

**DETECTIVES**

Detectives primarily take cases that are referred by Patrol because handling those cases requires more time or additional resources.

**ERU**

The Emergency Response Unit has special equipment and training to tackle crisis incidents like barricaded persons, active shooters, and high-risk warrants.

**STREET OUTREACH**

The Howard Center’s Street Outreach team also answers calls for service, but it does much of its work proactively, walking the Marketplace.

**CSLs**

CSLs often work on cases referred by Patrol or Street Outreach, and do follow-up that requires more time and additional resources.

**CRISIS RESPONSE**

The City is working to implement a “Crisis Team,” after promulgating an RFP in April. When available, First Call also provides this kind of response.

REVISED PRIORITY RESPONSE PLAN

We originally implemented the Priority Response Plan in May 2021. In May 2022 Chief Murad made several revisions, shown in this chart. The categorization of incidents has not changed. (Our primary goal remains NEIGHBORS’ PHYSICAL SAFETY, so Priority 1 incidents are still Priority 1 incidents, etc.) But many Priority 3 incidents now receive a different response.

In the chart, incidents labeled “CSO” will initially receive a response from a CSO, rather than a police officer, unless the incident evolves in a way that changes its category or requires a sworn officer.

Incidents labeled “ONL” (for “Online Only”) will be diverted to an online reporting function. Unless extenuating circumstances apply, callers will be asked to make an online report. There are reporting mechanisms for callers who do not have Internet access.

Additionally, during daytime weekday hours when DSB detectives are available, DSB will handle untimely deaths.

From January 1 to September 15, 2022, there have been 17,726 total incidents. Of those, 2,798—or 16%—have been “stacked” according to the Priority Response Plan.
Unlike overall incident volume, the volume of Priority 1 incidents is up—and it’s pulling away from the past several years.

Year-to-date, Priority 1 for 2022 is highest it has been in six years.

Priority 1 incidents include assaults, crashes with injury, domestic incidents, overdoses, robberies, and homicides. Year over year, Priority 1 incidents comprise an increasingly large percentage of all incidents.

** = combines incidents categorized as “Larceny from a Person,” “Larceny – from a Building,” “Larceny – from Motor Vehicle,” and “Larceny – Other”

NOTE: All categories shown year-to-date, through September 15 of their respective year

NOTE: These data are derived from Valcour incidents (Valcour is a CAD/RMS, or computer-aided dispatch / records management system). Incidents are initially categorized by dispatch according to the information provided by a caller; the category may be changed by the officer who responds to the scene and/or the detective who takes the case. Offense data and/or NIBRS data may differ.

Since 2012, there have been 64 gunfire incidents in Burlington recorded by police. In these graphics, each box represents one incident.

The top graphic is sorted by date of occurrence, relative to the respective year; i.e., the left-most box is earliest of the year while the right-most box is last incident of the year (or most recent, for 2022).

The bottom graphic is sorted by incident type.

*In each graphic, 2022 is shown only through September 22, 2022, i.e., year to date.*
GUNFIRE SINCE 2020 and in 2022

Of the 49 incidents since 2020:
• 20 have been shootings, where a person was struck and injured or killed
• 29 have resulted in an arrest or closure
• 16 have nearly no solvability factors at this time
• 11 have taken place in or around the downtown core and in the five-hour span around bar closing
• Approximately 22 incidents have involved young Burlingtonians known to police for preexisting criminal associations. Those people may be involved as perpetrators, victims, suspects, or some combination thereof

Of the 23 incidents in 2022:
• 12 have involved a person being struck, and three of those have been murders
• Six do not currently have any solvability factors
• BPD has made arrests in 13 of these 23 cases, and in seven of the 12 cases where someone was struck

Since 2005, BPD has conducted dozens and dozens of training modules designed to identify and reduce bias and build cultural competency.

In 2021, BPD worked with Tresté Loving (from the Institute for Racial Equity). Rather than conducting one-off lectures, she provided a series of approximately 70-minute, customized training sessions over the course of six months, with modules such as: Becoming You; Let’s Talk; Bias?; Those Who Don’t Look Like You; Fearless; Why Are You in This Part of Town?

Chief Murad has had discussions with his former NYPD colleague Dr. Tracy Keesee about similarly iterative training for 2023.

This is an example of the anti-bias training BPD has been engaged in since 2005:

- 2005 Diversity, Cultural Awareness
- 2007 Arab & Muslim Cultural Awareness
- 2007 Bias-Free Policing
- 2007 Cultural Diversity
- 2007 Non-Bias Police Stops
- 2007 Racial Data Collection
- 2007 Transgender Issues
- 2007 White Privilege
- 2008 Community Engagement
- 2008 Cross-Cultural Communication
