An Ordinance in Relation to

COMPREHENSIVE DEVELOPMENT ORDINANCE—
Downtown Parking Standards
ZA #13-06

It is hereby Ordained by the City Council of the City of Burlington, as follows:

That Appendix A, Comprehensive Development Ordinance, of the Code of Ordinances of the City of Burlington be and hereby is amended by amending Article 8, Parking, Part 1: General Requirements, thereof to read as follows and by deleting the column "Downtown Districts from the Table on Minimum Off-Street Parking Requirements, as follows:

Sec. 8.1.1 Purpose As written.

Sec. 8.1.2 Applicability As written.

Sec. 8.1.3 Parking Districts

The demand for parking is highly dependent on the context within which a given use or structure is located. Factors such as proximity to other related uses, availability of public transportation, the density of land uses, and the ability to share parking with nearby uses are all factors which influence the demand for individual and dedicated off-site parking. For the purposes of this Article, the following three (3) Parking districts as illustrated in Map 8.1.3-1 are hereby created:

(a) and (b) As written.

(c) Downtown Parking District:

This parking district ~~further reduces~~ eliminates the requirements from the baseline standards recognizing that extensive sharing of parking demand between nearby land use occurs; that a majority of travel to and between land uses is independent from an automobile; and that an array of public parking facilities and frequent transit service greatly reduces the need for independent parking for individual land uses.

A waiver may be requested pursuant to the provisions of Sec. 8.1.145.

~~**Sec. 8.1.6 Existing Structures: Exemption in Downtown District**~~

~~Any nonresidential use within a structure lawfully in existence prior to January 1, 2007 in any Downtown Parking District shall be exempt from the requirements of this Article when applying for a change to any other nonresidential use.~~

Sec. 8.1.76 Non-conforming Residential Structure

Where additions or conversions to existing residential structures within a Neighborhood or Shared Use Parking District add living space but do not add dwelling units, and such sites do not currently meet the parking standards of Sec. 8.1.87, one (1) parking space shall be provided for each additional room. Single detached dwellings shall be exempt from this requirement.

Sec. 8.1.87 Minimum Off-Street Parking Requirements

Parking for all uses and structures shall be provided in accordance with Table 8.1.87-1.

- (a) ~~Where no requirement is designated and the~~ use is not comparable to any of the listed uses, parking requirements shall be determined by the DRB upon recommendation by the administrative officer based upon the capacity of the facility and its associated ~~uses~~ and a comparison of other listed uses that are substantially equivalent in nature and impact with regard to their parking demand and usage. This procedure shall not apply where a listed use has a "0" minimum off-street parking requirement.

Dear Members of the Planning Commission:

Please accept this letter as a request for a zoning amendment to expand Neighborhood Activity Centers to allow Animal Boarding, specifically the property located at 1125 North Avenue, which had been previously occupied by a cinema in the Ethan Allen Shopping Center. This request is in order to allow Play Dog Play, LLC to open a second facility in Burlington that would include space for dog daycare, boarding, and training as well as a retail pet supply store.

Since opening five years ago on Pine Street, Play Dog Play has become a vital member of the community in the South End and Burlington as a whole. Our clients come from all over Chittenden County to provide their pet dogs with a clean, safe, and fun environment in which to train, play, and board. Almost 300 households in the New North End alone have already entrusted their dogs' care to Play Dog Play at our South End location and surely that number would increase should a more geographically convenient location become an option; not to mention the households from the surrounding communities of Colchester and Winooski that would also make use of a second Play Dog Play location in the North End. There is a demonstrated demand for these types of services in the North End as currently Play Dog Play is Burlington's only dog care facility of this nature with all other facilities of comparable size choosing the outskirts of South Burlington and Williston to the south of our existing location. Furthermore, giving our North End clients access to a location closer to home will allow our current location to more efficiently and effectively service our friends and neighbors in the South End as well as ease the traffic across town created by our clientele.

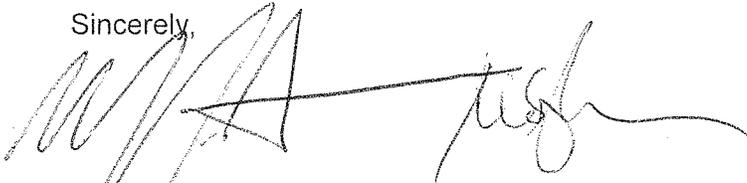

The 1125 North Avenue site has sat unused for several years in a shopping complex that has otherwise been revitalized; adding a business that will bring more people into the shopping center by way of picking-up or dropping-off their animals can only help existing businesses to grow as they will be more conveniently located for consumers who might have otherwise chosen nearby shops (i.e. Colchester Shopping Plaza in Mallett's Bay). The prospects of traffic and noise concerns are quite limited due to the design of the existing parking lot and traffic patterns and with the property adjacent to Leddy Park with no residential neighbors and few commercial neighbors open beyond traditional business hours.

FILM 100 4011
DEPARTMENT OF
PLANNING & ZONING

Due to the necessity of picking-up & dropping-off of animals, situating a dog daycare in both the South and North Ends will help to draw people into the commercial centers of Burlington rather than forcing them to travel to the outskirts of neighboring communities to acquire a service that is in extremely high demand, benefitting the residents of Burlington, those who commute to Burlington for employment, and the nearby businesses that would be positioned to take advantage of proximity of additional consumers. We understand that there might be concerns about various nuisances arising from this type of use in a Neighborhood Activity Center, so we believe that making these uses Conditional Uses would allow the Commission a great deal of control and allow any issue that should arise to be easily addressed.

We look forward to discussing this issue with all of you, and thank you for your time and consideration of this request.

Sincerely,

Mr. White, please see below. This is what we are hoping for George St. Thanks, Beck Love

Clarify footnote 2 to Table 4.4.1 as follows: "Structures shall be setback along any property line that abuts a residential zoning district pursuant to the requirements of (d)6 below where the zoning district boundary follows the property line. The requirements of (d)(6) shall not apply where the zoning district boundary runs through a Lot or Lots as the result of Lot Merger.

Clarify (d)(6):

Structures shall be setback a minimum of 15-feet from any property line that abuts a residential zoning district. This provision shall not apply where the zoning district boundary runs through a Lot rather than following the property line.

The applicant is requesting approval for the installation and operation of a 2.5 megawatt solar array located along Sunset Cliff Road, Burlington, Vermont. The proposed project will impact approximately 0.50 acres of Class II wetland and 0.90 acres of buffer zone from vegetation mowing; and 84 sq ft of wetland and 6 sq ft of buffer zone from support posts of the arrays. This wetland is proposed to be re-classified as a significant (Class II) wetland under the Vermont Wetland Rules.

Copies of the application are available for review at the Vermont Wetlands Office in Montpelier, the City Clerk's Office in Burlington, the Regional Planning Commission office in Winooski, and the Agency of Natural Resources website:
