MEMORANDUM

To: Development Review Board
From: Mary O’Neil, AICP, Principal Planner
Date: March 8, 2022

RE: ZP22-50, 83 Central Avenue

Note: These are staff comments only. Decisions on projects are made by the Development Review Board, which may approve, deny, table or modify any project. THE APPLICANT OR REPRESENTATIVE MUST ATTEND THE MEETING.

File Number: ZP22-50
Zone: RL-W Ward: 5S
Date application accepted: January 21, 2022
Applicant/Owner: Andrea Noonan
Request: Change of to use 1 bedroom Bed and Breakfast

Background:

- Zoning Permit 96-346: Cover existing single family home (double wide) with vinyl siding. February 1996.
- Zoning Permit 91-362; Construction of 10'X 12' Single story storage shed in rear yard of existing single family home. Structure to be painted t1-11 to match house. 5' Minimum side yard setback. May 1991.

Overview: This application seeks approval for a one room Bed and Breakfast rental.

Recommended motion: Conditional Use approval per the following findings and conditions:

I. Findings

Article 3: Applications, Permits and Project Reviews
Part 5, Conditional Use & Major Impact Review
Section 3.5.6 (a) Conditional Use Review Standards
Approval shall be granted only if the DRB, after public notice and public hearing, determines that the proposed conditional use and associated development shall not result in an undue adverse effect on each of the following general standards:
1. *Existing or planned public utilities, facilities or services are capable of supporting the proposed use in addition to the existing uses in the area;* 

The addition of a one-room Bed and Breakfast rental would not appreciably alter the current impacts of the single family home. **Affirmative finding.**

2. *The character of the area affected as defined by the purpose or purposes of the zoning district within which the project is located, and specifically stated policies and standards of the municipal development plan;* 

The property is located within the Residential – Waterfront Low density zone. The neighborhood consists largely of single family and duplexes intermingled; characteristic of the neighborhood. Structures are rhythmically arranged; buildings range in scale. A majority of the homes follow patterns established by the Queen City Cotton Company in developing worker housing, but this home is a double wide manufactured home. The Assessor places the house’s date of construction as 1985. The lot is unusual, as this property fronts on Central Avenue but connects through to Proctor Place. The character of the area will be unchanged. **Affirmative finding.**

3. *The proposed use will not have nuisance impacts from noise, odor, dust, heat, and vibrations greater than typically generated by other permitted uses in the same zoning district;* 

There is nothing within the application that includes a change to the existing residential structure. There is an existing driveway (approved on a 1991 site plan as 20’w x 25’ long) that has been reduced to a single lane with the addition of a handicap access ramp. At present, the single lane driveway meets the required 2 space parking for the existing single family home. However this lot is unusual, in that it is a through-lot connecting directly to Procter Place. The continued lot area connecting to Proctor Place would allow an opportunity for the additional parking space, as long as easement holders on the lane will limit their parking to tandem. Those easement owners will require notice of the changed parking arrangement. The less-than-30 day room rental is would not typically generate nuisance impacts from noise, odor, dust, or similar. **Affirmative finding as conditioned.**
4. The transportation system is capable of supporting the proposed use in addition to the existing uses in the area. Evaluation factors include street designations and capacity; level of service and other performance measures; access to arterial roadways; connectivity; transit availability; parking and access; impacts on pedestrian, bicycle and transit circulation; safety for all modes; and adequate transportation demand management strategies; A short-term rental will bring a rotation of vehicles at differing intervals. With linear access to Central Avenue and Lakeside Avenue, both capacity and acceptable level of service are assured. Short term guests will arrive and depart within established timeframes to minimize any disruption to area uses. Guests will be within reasonable bike or walking distance to area amenities, the downtown and area attractions. **Affirmative finding.**

5. **The utilization of renewable energy resources**
Nothing in this application would preclude the use of wind, water, solar, geothermal, or other renewable energy resource. **Affirmative finding.**

6. **Any standards set forth in existing City bylaws and city and state ordinances:**
The bed and breakfast must adhere to applicable life safety standards and provide payment of rooms and meals taxes as per the State of Vermont relative to short term rentals. **Affirmative finding as conditioned.**

(b) **Major Impact Review Standards**
(c) Conditions of Approval
In addition to imposing conditions of approval necessary to satisfy the General Standards specified in (a) and (b) above, the DRB may also impose additional conditions of approval relative to any of the following:
1. Mitigation measures, including but not limited to screening, landscaping, where necessary to reduce noise and glare and to maintain the property in a character in keeping with the surrounding area.
   Typically a bed and breakfast is not expected to produce adverse effects in need of mitigation. The use will remain residential. **Affirmative finding.**

2. **Time limits for construction.**
   No construction timeline or phasing is included in this proposal. **Affirmative finding.**

3. **Hours of operation and/or construction to reduce the impacts on surrounding properties.** Guest check-ins will be limited to 7:00 am – 10:00 pm to minimize noise, traffic, and neighborhood nuisances. **Affirmative finding as conditioned.**

4. **That any future enlargement or alteration of the use return for review to the DRB to permit the specifying of new conditions;**
   Any future enlargement or alteration will be reviewed under the zoning regulations in effect at that time. **Affirmative finding as conditioned.**
   and,

5. **Such additional reasonable performance standards, conditions and safeguards, as it may deem necessary to implement the purposes of this chapter and the zoning regulations.**
   This is at the discretion of the DRB.

**Article 4: Zoning Maps and Districts**
**Section 4.4.5 Residential Districts**
**(a) Purpose:**
The Residential Districts are intended to control development in residential districts in order to create a safe, livable, and pedestrian friendly environment. They are also intended to create an inviting streetscape for residents and visitors. Development that places emphasis on architectural details and form is encouraged, where primary buildings and entrances are oriented to the sidewalk, and historic development patterns are reinforced. Parking shall be placed either behind, within, or to the side of structures, as is consistent with the district and/or the neighborhood. Building facades designed for parking shall be secondary to the residential aspect of a structure.
2. The **Waterfront Residential Low Density (RL-W)** district is intended primarily for low-density residential development in the form of single detached dwellings and duplexes. This district is typically characterized by a compact and cohesive residential development pattern reflective of the respective neighborhoods’ development history. This district is distinguished from the Residential Low Density district by its proximity to Lake Champlain, and a greater consideration needed for views from the lake and stormwater runoff.

83 Central Avenue is an existing single story, single family home placed on an unusual lot with frontage on two streets: Central Avenue and Proctor Place. Lots are uniform in arrangement and buildings are placed in a regular pattern fronting the street. The addition of a one-room rental will not conflict with that existing residential character. Owner occupancy remains a condition. **Affirmative finding as conditioned.**

**(b) Dimensional Standards and Density**

**Table 4.4.5-3 Residential District Dimensional Standards**
No exterior changes or changes to lot coverage are included. The last approved site plan (ZP91-362) noted existing lot coverage at 35%. The subsequent installation of a handicap access ramp would not count toward lot coverage. **Affirmative finding.**

**(c) Permitted and Conditional Uses**
The “bed and breakfast” (short term rental) use is conditional in the RL-W zone. Owner occupancy is required, and up to 3 rooms may be let. A one-bedroom rental is requested. Owner occupancy is a prerequisite for consideration of a Bed and Breakfast. **Affirmative finding.**

**(d) District Specific Regulations**
Not applicable.

**Article 8: Parking**

**Section 8.1.8 Minimum Off-Street Parking Requirements**
The property is located within the Neighborhood Parking District. The existing single family home requires 2 parking spaces. “Bed & Breakfast” uses require 1 parking space per bedroom. With one rental room and the existing single family home, 3 parking spaces are required on-site. The existing driveway is a single lane that in length could accommodate the required parking but would be problematic for vehicular movement for individual uses. The portion of the lot that is accessed from Proctor Place may be employed to secure the additional parking space, as long as the easement holders are notified of the new parking arrangement that will require them to park in tandem. **Affirmative finding as conditioned.**

**Article 13: Definitions**

*Bed and Breakfast:* an owner-occupied residence, or portion thereof, in which short-term lodging rooms are rented and where only a morning meal is provided on-premises to guests.
The property owner’s address is 83 Central Avenue, sufficient for demonstrating owner occupancy. **Affirmative finding.**

**II. Conditions of Approval**

1. This approval is predicated on continued owner-occupancy of the property for the duration of the short term rental/Bed and Breakfast use.
2. Guest check-ins are limited to 7:00 am – 10:00 pm to minimize noise, traffic, and neighborhood nuisances.
3. The short term rental must adhere to required life safety standards and provide payment of applicable rooms and meals taxes as per the State of Vermont.
4. All guest parking shall be on-site and off-street. The access/easement holders of the lane connecting to Procter Place shall be notified that their parking must be in tandem as long as the Bed and Breakfast use remains in place.

**NOTE:** These are staff comments only. The Development Review Board, who may approve, table, modify, or deny projects, makes decisions.
