ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

The gable end faces the street. Gable is pedimented and embellished with angled boards. Below this is a door to the upper level which is embellished with criss-crossed boards and flanked by 2 windows. More stick work consisting of vertical boards between horizontal boards decorates the space above the main door. Curved wood pieces connect the small windows to the upper level door and give the building a tudor flavor which sets it apart from the usual stick work of the period.

RELATED STRUCTURES: (Describe)

STATEMENT OF SIGNIFICANCE:

This is one of the nicest barns on the street, and for that matter in the whole area. The tudor style stick work is not common and its appearance here is noteworthy.
