William Ward

I have served as Burlington’s Town Health Officer for three terms or a total of 9 years. My primary goal in this role has been to maintain safe and healthy rental housing conditions in Burlington. I am one of 7 trained housing inspectors in the department. During my time as the Director/Health Officer we have implemented numerous strategies to improve efficiency in our processes and inspected every rental unit in the city. Highlights of the progress made during my term includes implementation of a 1-5-year certification system for housing units based on compliance level, inspectors have been issued tablets for inspection data to be entered in real time, our joint noise reduction strategies resulted in a greater than 50 percent reduction repeat call volume and we initiated a web based complaint reporting system in 2012 called SeeClickFix that collected over 4,000 requests for service in the last year.
