OVERVIEW

Casement windows are hinged on the side and open outward to the left or right, allowing you to catch breezes and direct the flow of fresh air into your home. Usually taller than they are wide, their entire sash opens to provide top-to-bottom ventilation. This also makes them a frequent choice for use as egress windows—ones that can be used as an emergency exit.

Andersen® 400 Series casement windows start with a design that is extremely energy efficient. Add to that a solid-wood sash covered inside and out by low maintenance Perma-Shield® cladding to protect against water damage. Then give them rich, natural pine interiors that create a perfect frame for art glass or grille patterns. It's easy to see why they have become our best-selling casement window of all time.

- Maximizes unobstructed view
- Seven exterior colors
- Natural pine or white interiors
- Energy efficient
- Dual-layer, compressible bulb weatherstripping seals out dust, wind and water
- Extensive hardware selection
- Single-actuation handle releases or secures all locking points with one easy motion
- Custom sizing available

Door Details

Get the look of fine painted wood and the strength of steel with a front door from the Smooth-Star® Entry Door Collection. It's an excellent value in a fiberglass entry door, made of rugged compression-molded fiberglass with deep detailed panels. This design creates beautiful shadows and contours on your door's surface.

This perfectly stylish yet rugged fiberglass front door resists the dents and dings from day-to-day traffic, and will never rust or corrode.

Fiberglass Entry Door Systems: Smooth-Star

About this entry door system

This entry door system is available with different features. The table below breaks down the various product options by size and available features. You should work with an authorized Thermo-Tru dealer and/or your builder to determine the best option for your home based on environment and region of the country.

Door

Craftsman Lite 2 Panel Style IDs	Available Sizes	Available Options
S601	2'8" x 6'8" 2'10" x 6'8" 3'0" x 6'8"

Clear Features
Our insulated clear glass doorlites are tempered and double-paned.

Grille:

Privacy Scale Rating *

Simulated Divided Lites

*Note: Glass privacy ratings are determined by the 1/2 lite size glass. As a result, the amount of privacy/glass transparency may be more or less than indicated by the privacy rating, based on glass design and the size of the glass that's inserted into the door, sidelite or transom. Glass design may differ from depiction due to size of glass. Please consult your Therma-Tru dealer for more details.

OVERVIEW

Double-hung windows have two sash in a single frame which slide up or down to provide ventilation. Because their sash remain flush with the wall while the window is open, they are a good choice for placement adjacent to patios, decks and walkways.

Our best-selling double-hung window, the Andersen® 400 Series tilt-wash double-hung window is extremely energy efficient and gives you a wide array of decorative and performance options, including Stormwatch® protection.

- Seven exterior colors
- Natural pine or white interiors
- Energy efficient
- Dual-layer, compressible bulb weatherstripping seals out dust, wind and water
- Variety of hardware styles and finishes
- Custom sizing available on replacement versions
- Tilting sash allows for easy cleaning
