ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:
(221 North Champlain)

Retaining its 2/2 sash in plain surrounds and the slate roof, this two story gable front vernacular structure is now covered in vinyl siding. The front porch that was rebuilt in 1942 has since been enclosed for additional living space. It was at this same time, that the one story wing addition/entrance on the southwest side was constructed that replaced a 1906 one story open wrap-around porch.

RELATED STRUCTURES: (Describe)
A. Garage: There is a two bay gable roof auto garage, with overhead doors behind the house. Built in 1926, it is sided to match the house.
B. Shed: c.1930. One story, gable front, one bay shed with asphalt siding and rolled roofing.

STATEMENT OF SIGNIFICANCE:
Records indicate that this was originally the home of Patrick Doyle, a Central Vermont Railroad employee. However by 1901 the house stood vacant, with Phildom Young moving in in 1903. For a short time around 1942, the same time the home experienced some additions and renovations, it became a duplex. Now a single family home again, the current owners purchased the property in 1959.
