WOODWRIGHT®
DOUBLE-HUNG WINDOWS

Andersen® 400 Series Woodwright® double-hung windows are designed with old-world character and modern performance. Exteriors use two different levels of protection. The frames are vinyl clad, the sash and the sills are made of Fibrex® material. On the inside you have a choice of natural pine, oak, maple or low-maintenance white finish. Both sash tilt for ease of cleaning. For added style there are historically accurate grille patterns, hardware and glass options.

DURABLE
• Virtually maintenance-free
• Perma-Shield® exteriors never need painting and won’t peel, blister, flake or corrode
• Frame exterior is protected by a tough vinyl cover that resists dents and repels water and provides long-lasting protection
• Sash members have a tough Fibrex® material exterior
• The sill is made with a solid wood core and are protected from the elements with Fibrex® cladding

ENERGY EFFICIENT
• Weather-resistant construction for greater comfort and energy efficiency
• Weatherstripping is designed to seal out drafts, wind and water
• A variety of Low-E® glass options are available to control heating and cooling costs in any climate
• Many 400 Series Woodwright® double-hung windows have options that achieve ENERGY STAR® version 6.0 certifications in all 50 states**

BEAUTIFUL
• Seven exterior color options
• Natural pine, maple, oak or white interiors
• Extensive hardware selection
• Add style with grilles, exterior trim or patterned glass

EXTERIOR COLORS

*Visit andersenwindows.com/warranty for details.
**Visit andersenwindows.com to verify that the product and glass type are ENERGY STAR certified in your area.

*See your Andersen dealer for availability. *ENERGY STAR* is a registered trademark of the U.S. Environmental Protection Agency.
400 SERIES WOODWRIGHT® DOUBLE-HUNG WINDOWS

GLASS OPTIONS
LOW-E4® GLASS
- Low-E4® glass
- Low-E4® SmartSun™ glass
- Low-E4® Sun glass
- Tempered glass and other glass options are available.
  Contact your Andersen dealer

PATTERNED GLASS
Ideal for letting light into the home while obscuring vision. Available in four attractive patterns.

INTERIOR OPTIONS
Maple Oak Pine White

Naturally occurring variations in grain, color and texture of wood make each window one-of-a-kind.
All wood interiors are unfinished unless prefinished white is specified.

HARDWARE FINISHES
Antique Brass Bright Brass Brushed Chrome Distressed Bronze Distressed Nickel
Oil Rubbed Bronze Polished Chrome Satin Nickel Stone White

*Distressed Bronze and Oil Rubbed Bronze are “living” finishes that will change with time and use.

HARDWARE
Stone finish is standard with wood interior units. White finish comes with prefinished interiors.

SHAPE OPTIONS
In addition to standard rectangles, the Woodwright® windows are available in elegant arched designs.

EXTERIOR TRIM
Available in 11 colors to complement your exterior.

GRILLES
Choose from dozens of popular designs or work with Andersen to create custom patterns.

ADDITIONAL FEATURES
- Natural wood sash interior with chamfer detailing and matching wood jamb liners for an authentic look.
- Sash joints simulate the look of traditional mortise-and-tenon construction inside and out.
- Available with Stormwatch® protection for coastal areas.

WINDOWS & DOORS

For more information, visit andersenwindows.com/entrydoors

*Actual wood species is either Sapeli or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.

**Hardware is sold separately.

Distressed bronze and oil rubbed bronze are "living" finishes that will change with time and use. Bright brass and satin nickel finishes on patio door hardware feature a 10-year limited warranty.

Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.

Specifications: LP® SmartSide® Lap Siding

CEDAR TEXTURE LAP

- The bold look of cedar without many of the worries
- One of the most durable lap siding options on the market today
- 16' length can result in faster installation
- May create fewer seams than traditional 12' siding
- Pre-primed for exceptional paint adhesion
- Self-aligning SmartLock® option eliminates the need to measure and set lap reveal; eliminating this step in the process is likely to speed up the installation process
- APA-certified lap siding
- Treated engineered wood strand substrate

TruDefinition™ Duration® Shingles are specially formulated to provide greater contrast and dimension to any roof. Through the use of multiple granule colors and shadowing, TruDefinition Duration Shingles offer a truly unique and dramatic effect. This exclusive combination of color and depth is what makes TruDefinition Duration Shingles like no other.

TruDefinition Duration Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty, 130-MPH Wind Resistance Limited Warranty, and an Algae Resistance Limited Warranty. Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

The SureNail® Difference—A technological breakthrough in roofing. The innovative features of Owens Corning™ TruDefinition Duration Shingles with patented SureNail Technology offer the following:

Breakthrough Design. Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.

Triple Layer Protection. A unique "triple layer" of reinforcement occurs when the fabric overlays the common bond of the single laminated strip that offers excellent fastener holding power.

Superior Adhesion. Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Exceptional Wind Resistance. The industry's first asphalt roofing shingle engineered to deliver 130-MPH wind warranty performance with only 4 nails. 33% fewer nails are required for maximum warranty protection, which can mean fewer deck penetrations.

FEATURES & SPECIFICATIONS

INTENDED USE — Recessed housing rated IC or Non-IC. For new construction only.
Approved for all ceiling and wiring types.
Approved for direct burial in insulation.

CONSTRUCTION — Air-tight standard. Tested to meet current energy codes.
Aluminum foam-gasketed housing with galvanized steel pan.
Galvanized bar hangers span up to 24" o.c. and feature stepped shank nail and positioning guide with integral T-bar locks. Two locking screws hold fixture in position.
Galvanized steel junction box with four built-in Romex clamps. Four 1/2" and two 3/4" knockouts with slots for pigtails. Rated for through branch wiring.
Maximum 4 (2 in, 2 out) No. 12 AWG conductors. Rated for 90°C.
Ground wire provided.
Removable J-box covers for easy access.

ELECTRICAL — Quick disconnect provided for power connection to the LED modules.
Paint overspray masked by disposable disconnect plug.
Housing and LED module combination is IC rated and thermally protected.

120 volt only.

INSTALLATION — Air-tight housing suitable for air-tight installations. Refer to energy codes for proper installations.
2x8 and 2x6 wood joist or T-bar installation.
Expandable bar hangers allow for off-center mounting in wood joist or T-bar ceilings. Length of 25-1/2" maximum 13-1/4" minimum or cut to fit 5-1/2" on center joist construction.
Vertical adjustment of housing allows for flush mounting with ceiling face.
Suitable for ceilings up to 1-1/2" thick.

LISTINGS — UL Listed to US and Canadian safety standards. Damp location listing (See trim selection for wet location listing).

WARRANTY — 1-year limited warranty. Complete warranty terms located at www.scotthybrands.com/customerresources/terms_and_conditions.aspx
Note: Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.
