

## **Survey – Preparation for President Garimella’s November attendance at the NPA**

NPAers: We are gathering thoughts to pass on to the President so he can address the things we think are most important. - Please consider this a ‘smorgasbord’ – answer as many or as few as you wish, or write in whatever is on your mind. Please provide details rather than simply answering “Yes”.

Return this tonight or call/send to any Steering Committee member.

- 1) Can you describe situations where UVM’s communication with the community has been successful? Unsuccessful? Any suggestions for improvements?
  
- 2) Are there ways you’ve observed the University acting as a good citizen? Are there ways you’d like it to act differently?
  
- 3) Are there any college towns you are aware of that have programs that have been successful for town/gown relations, which might be good for Burlington/UVM?
  
- 4) Is UVM appropriately including the community in its decision-making, related to issues relevant to the community?
  
- 5) Any experience, questions or comments about how conflicts between UVM and the community are handled? What has worked? What hasn’t worked?
  
- 6) Do you have any experience, concerns, questions, or suggestions about UVM’s policies and actions regarding town/gown issues, such as...alcohol, housing, parking, noise, other town/gown issues
  
- 7) Is there any information or data that you think the NPA should obtain/request that would help the NPA understand UVM-related issues?
