# BTV MALL COMMUNITY PLANNING WORKSHOP

FEBRUARY 18 – 21, 2015

JUST PAST L.L. BEAN IN THE BURLINGTON TOWN CENTER MALL  
(UPPER LEVEL)

Downtown & Waterfront

BURLINGTON  
TOWN CENTER

The prospective re-development of the Burlington Town Center (BTC) property represents an historic opportunity to grow a healthier, more walkable and prosperous downtown aligned with the vision of the *planBTV: Downtown and Waterfront Master Plan* unanimously adopted by the City Council in June 2013.

The proposed investment of more than \$200 million in new retail, office space, housing, and public spaces would create new jobs, grow state and local revenues, restore public north-south pedestrian and bike connections through the mall along the St. Paul Street and Pine Street corridors, create a dramatic new roof-top park between Church Street and Macy's, revitalize Bank and Cherry streets and the surrounding downtown, and complement the City's new multi-modal transit center with one of Vermont's first transit-supportive developments.

In order to help turn this vision into reality, the City is creating a public-private partnership with the new owner of the mall to implement the community goals outlined in *planBTV* and to provide a predictable path forward for the Burlington Town Center redevelopment project.

We need your input! In order for this process to work, the public's voice needs to be front and center in the planning process.
