

Burlington Stormwater Program

Post-Construction Stormwater Management Compliance

Designer's Statement of Initial Compliance

This form shall be filed with the City of Burlington Stormwater Program within 30 days of completion of construction. Please scan and email to mmoir@burlingtonvt.gov or return to DPW-Stormwater at 234 Penny Lane (at Water Plant) or P.O. Box 878, Burlington, VT 05402)

Property Owner: _____

Property Address: _____

Description/Name of Project: _____

Please check the applicable boxes:

I hereby certify to the best of my knowledge and in the exercise of my reasonable professional judgment that the stormwater collection, treatment and control system approved in accordance with Chapter 26, Article III of the City of Burlington Code of Ordinances :

Part I:

Was built in accordance with the plans, details, calculations and all other information reviewed and approved by the Burlington Stormwater Program. This includes final landscaping related to the stormwater management plan (trees, stormwater treatment system plantings etc.) If required by the approval letter (N/A), **please submit as-built plans and GIS feature data showing the location of the stormwater features on the property and the point of connection** (if any) to the City collection system or waters of the State.

Was NOT built in accordance with the plans, details, calculations and all other information reviewed and accepted by the Burlington Stormwater Program. If checked, please attach supporting information documenting why the system was not built in accordance with the plans, a narrative, revised plan sheets and supporting calculations documenting the equivalency of the system that was built to the system that was originally approved. If required by the approval letter (N/A), please submit as-built plans and GIS feature data showing the location of the stormwater features on the property and the point of connection (if any) to the City collection system or waters of the State.

Part II:

The stormwater collection, treatment and control system is currently operating and being maintained in compliance with Chapter 26 and any maintenance plan approved by the Burlington Stormwater Program. Please attach records of any inspections and maintenance performed in the last year.

The stormwater collection, treatment and control system is currently NOT operating and being maintained in compliance with Chapter 26 and any maintenance plan approved by the Burlington Stormwater Program. If so, please provide an attachment with a description of why and what steps will be taken to bring the stormwater system back into compliance with the approved system and a schedule for taking such actions.

The failure to properly construct, operate and maintain the stormwater collection, treatment and control system authorized in the original approval constitutes a violation of Chapter 26 and is subject to potential enforcement action by the City of Burlington. Please take immediate steps to correct all violations.
