**Schedule:** June 22, 2016- July 1, 2016 – NIGHT WORK 7PM – 6AM

For more information on the pilot project or to sign up for email updates, visit the project website <https://www.burlingtonvt.gov/dpw/north-avenue-pilot-project>

Project: Wayfinding  
Description: Installation of new pedestrian and vehicular signage in the downtown.  
Schedule: July 2016- August 2016

Activities: Complete installation of signs in vicinity of City Parking Garages

Traffic: Localized traffic control immediately adjacent to work sites will be provided by the contractor, this will include lane reductions and no parking as necessary.

Project: Manhattan Drive & Champlain Street Recovery Project  
Description: Rebuild the slope that failed along Manhattan Drive across from N Champlain Street. The project consists of building a retaining structure at the bottom of the slope, installing new curb to replace the concrete barriers, installing new guardrail, and reconstructing the failed slope.  
Schedule: May through September, 2016

Activities: The contractor has completed installing the new drain pipe and has begun work erecting the retaining structure. Work will continue on the retaining structure then progress to repair of the slope and the curbing on Manhattan Drive.

Traffic: The bike path from Manhattan Drive to Ethan Allen Parkway will be closed to all bicycle and pedestrian traffic for the duration of this work due to its use by construction vehicles. Please follow posted detour routes. The bike path may reopen on weekends if the path is considered safe.

A lane shift will be implemented when shoulder work is completed on Manhattan Drive.

Project: Parking Garage Repair Project  
Description: Phase 1 of Repair work being done within the College Street and Marketplace Parking Garages.  
Schedule: April 11<sup>th</sup> through July 29<sup>th</sup>, 2016

Activities: Phase 1 work begun in the College St parking garage last year is scheduled to be completed June 2016. Contractor began work in the Marketplace parking garage in April consisting of concrete and electrical repairs.

Traffic: No expected delays to street traffic. Traffic within the garage may be altered to accommodate work. Please use caution and be aware of any workers or temporary signage within the garage.

Project: Department of Public Works  
Description: Other projects being completed by the Department of Public Works

<i>CNG Station:</i>	RFP sent out for CNG Station upgrade using new equipment. Anticipated summer installation.
<i>Sears Lane</i>	Contract drafted for Sears Lane sidewalk design and installation
<i>Sidewalk Improvements</i>	Ongoing sidewalk improvements at various locations around the city.
