Downtown, Birchcliff, Five Sisters, Hill Section, King Maple, Lakeside, Oakledge, Redstone Quarry, South Union, The Addition

Jul 2, 2019

Burlington Water Resources experienced an unplanned depressurization within a significant portion of our South End distribution system in the early morning hours of 7/2/19. Out of an abundance of caution and to remain in compliance with our permit to operate, we have issued a boil water notice effective immediately. This will remain in effect until we have resolved the issue and laboratory samples confirm water quality – which may be as early as tomorrow (July 3) around approximately 2PM. Residents can read the advisory notice, review the impact area and stay current with updates by visiting <http://www.burlingtonvt.gov/DPW/Boil-Water-Advisory>.
