

GREAT STREETS BTV

City of Burlington

Downtown Street Design & Construction Standards

Adopted April 16, 2018

CITY OF BURLINGTON, VT

The Great Streets Initiative is a joint project of the Community & Economic Development Office, the Department of Public Works, and the Department of Planning & Zoning.

Mayor of Burlington—Miro Weinberger

Acknowledgments

The development of these standards was a collaborative effort by all City Departments involved in the design, installation and maintenance of elements within the downtown public right-of-way. Thank you to the dozens of City staff from the following departments who contributed time, knowledge and insights into the development of this document, which will guide the reconstruction of Burlington's rights-of-way for generations.

City Departments

Burlington City Arts
Burlington Electric Department
Burlington Fire Department
Burlington Parks, Recreation & Waterfront
Burlington Police Department
Church Street Marketplace
Community & Economic Development Office
Department of Planning & Zoning
Department of Public Works

TABLE OF CONTENTS

1. Great Streets for Downtown Burlington	1	Standard Dimensions & Siting Considerations	96
What is a Great Street?	2	Roadway Zones	98
Why Great Streets for Burlington?	5	Pedestrian Zones	101
Using this Document	11	Grade Changes in Pedestrian Zone	104
How to Use this Document	12	Intersection Zones	106
Who Should Use This Document	13	Utilities	110
Applicability	14	Element Siting & Considerations	112
Relief from Standards	14	Public Placemaking	119
Pilot Materials & Elements	14	Public Placemaking & Gathering	120
Amendments & Updates	14	Frontage Zones (Private & Public)	122
2. Burlington’s Downtown Streets	17	Tree Belt/Furnishing Zone (Public)	125
Design Considerations for Project Development	18	Bumpouts	126
The Boundaries of Downtown	19	Parking Lane	127
Existing Conditions	20	Parklet Guidelines & Setbacks	128
Future Influences	30	Parklet Materials	133
Design Considerations for Street Corridors	34	Bike Corrals	134
Primary East–West Streets	36	Required Buffer Elements	135
Primary North–South Streets	43	Right-of-Way Encumbrances & Permits	136
Other Streets	50	Existing Encroachments	136
3. Building Great Streets	57	4. Bikeways	139
Modal Hierarchy	59	Bikeway Types	140
Balancing Right-of-Way Zones	60	General Bikeway Considerations	141
Public Right-of-Way	61	Shared Lane	141
Roadway and Pedestrian Zones	62	Conventional Lane Adjacent to Curb	142
Roadway & Pedestrian Zone Options	66	Buffered Lane Adjacent to Curb	143
Great Street Types	67	Buffered Lane Adjacent to Parking	144
Commercial Slow Street		Protected Bicycle Lane	145
(66’ ROW, 35’ Roadway)	68	Contra-Flow Lane	146
Commercial Slow Street with Transit		Advisory Lane	147
(66’ ROW, 36’ Roadway)	70	Intersections	148
Minimum Commercial Street		Bicycle Crossing Markings	149
(66’ ROW, 28’ Roadway)	72	Protected Intersections	152
Major Commercial Street		Bicycle Boxes	154
(66’ ROW, 38’ Roadway)	74	Two-Stage Left Turn Boxes	155
Special Commercial Street		Bicycle Signals	156
(99’ ROW, 38’ Roadway)	76	Bikeways at Bus Stops	158
Downtown Residential Street		Shared Bicycle and Bus Lanes	159
(66’ ROW, 30’ Roadway)	78	Curbside Bus Stop with Bike Lane Adjacent	
Street & Intersection Assemblies	80	to Parking Lane	160
Commercial Street within 66’ ROW	82	Curbside Bus Stop with Buffered Bike	
Midblock assemblies	82	Lane Adjacent to Curb	161
Cross intersection	84	Markings, Signage & Materials	163
“T” Intersection	86	Bikeway Markings	164
Commercial Street with 99’ ROW	88	Signage	164
Midblock	88	Colored Pavement Materials	166
Cross Intersection	90	5. Street Ecology	171
Residential Streets with 66’ ROW	92	Street Trees	172
Midblock	92	Tree Belts	173
Cross Intersection	94	Tree Belt & Green Belt Typologies	176
		Brick Tree Belt with Permeable Pavers	177
		Green Belt with Turf	180
		Tree Planting Details	182
		Tree Planting in Turf Green belts & Lawns	183

Tree Planting at Tree Grate	184	Drive Entrances	282
Tree Planting at Tree Well	185	Detectable Warnings/Truncated Domes	284
Tree Well Curb & Fence Details	186	Furnishings for Pedestrian Zones	286
Permeable Paver Installation	187	Benches	288
Tree Protection	189	Movable Chair	292
Soil & Subsurface	190	Movable Table	293
Tree & Plant Species	194	Bike Rack	294
Tree Species Under Consideration	195	High-Capacity Bike Parking	296
Canopy Trees	196	Bike Shelter	297
Medium Trees	206	Bicycle Repair Station	298
Small Trees	207	Parklet Elements	298
Other Plant Species	212	Bollard	300
Stormwater	215	Planters	301
Roadway Zone	218	Trash/Recycling	303
Stormwater Curb Extensions	218	Public Toilets	305
Green Gutters	222	Trench Grate	306
Rain Gardens	226	Tree Grate	307
Pervious Pavers in Parking Zone (PILOT)	228	Tree Guard	308
Pedestrian Zone	229	Soil Cells	309
Pervious Pavers in Treebelt Zone	229	Bus Shelter	310
Stormwater Planters	230	Parking Meters	311
Vegetated Swales	234	Traffic Control Signals	312
Tree Grate Stormwater Planters	236	Signage	313
Sediment Forebays	237	Wayfinding	315
Check Dams & Weirs	238	Public & Event Information	316
Capturing Street Runoff	240	8. Appendix	319
6. Lighting	245	Glossary & References	320
Street Lights	246	Key Terms	321
Lighting Strategy for Great Streets	250	References & Resources	322
Standard Lighting Assembly	250	Adoption & Amendments	323
Pole Layout & Spacing	252	Roadway Zone Details	A-1
Lighting Criteria	256	Pedestrian Zone Details	A-2
Lighting Quality	257	Intersection Zone Details	A-3
Light Sources	257	Utility Details	A-4
Luminaire Selection & Design Parameters	257	Bikeway Details	A-5
Techniques	258	Street Ecology Details	A-6
Adaptive Lighting Control (Dimming) (PILOT)	258	Lighting Details	A-7
Optional Seasonal Elements	260	Materials & Furnishings Details	A-8
Tree Lighting	260	Signage & Wayfinding	A-9
Lighting Elements	262		
Decorative Lighting Assembly	263		
Banner Arm & Bracket	266		
Standard Lighting Assembly	267		
7. Materials & Furnishings Palette	269		
Materials for Pedestrian & Roadway Zones	271		
Roadway Zone Material	272		
Painted Pavement Markings	274		
Parking Lane	275		
Curbs	276		
Tree Belt Permeable Pavers	277
