Management's Discussion and Analysis

As management of the City of Burlington, Vermont (The City), we offer readers of the City's financial statements this narrative overview and analysis of its financial activities for the fiscal year ended June 30, 2011.

Financial Highlights

Government-wide Statements (refer to statement of net assets)

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$318,883,717 (total net assets).
- The City's total net assets increased over what we reported last year by \$41,809,304. The Governmental activities increased \$3,148,500 and can be attributed in part to capital grants. The increase of \$38,660,804 in the business type activities can be attributed primarily to profits in the Airport fund, Burlington Electric and Burlington Telecom.
- The total net assets of a component unit of the City, the Burlington Community Development Corporation, amounted to \$2,124,195, an increase of \$176,143 for the year.

Fund Financial Statements (refer to Exhibit C and Exhibit K)

- As of the close of the fiscal year ending June 30, 2011, the City's governmental funds reported combined ending fund balances of \$10,577,346. This consists of a fund balance in the General Fund of \$13,534,618 and of \$1,491,274 in the School fund and a deficit of (4,448,543) in all other governmental funds.
- The reserve portion of the governmental fund balance includes \$584,988 for inventories and prepaid expenditures and \$9,992,358 set aside for other restricted purposes. In addition, because the repayment of amounts due to the General Fund from other operations cannot be determined, the total General Fund fund balance has been deemed "nonusable" and therefore unavailable for appropriation.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's financial statements are comprised of three components: 1) government-wide financial statement, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the finances of the City of Burlington, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all the Cities of Burlington's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activity* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish functions of the City of Burlington that are primarily supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Burlington include general government, safety services, public works, cultural and recreation activities, schools, traffic control and parking, the operation of an outdoor mall in the downtown area, and community and economic development. The business-type activities of the City include the operation of the Airport, the Electric, Water, and Wastewater Utilities, Telecommunications (including cable television, internet access, and telephone service) and the food services operation and vocational educational programs administered by the School Department.

The government-wide financial statements are designed to include not only the City of Burlington itself (known as the primary government), but also any legally separate entities for which it is financially accountable (known as component units). The City of Burlington has one such unit, the Burlington Community Development Corporation (BCDC) that is organized to promote and undertake industrial and economic development projects in the City and the Airport Industrial Park.

The government-wide financial statements can be found in Exhibits A and B of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Burlington, like other states and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The City of Burlington maintains 28 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the School Fund, which are considered to be major funds.

The City of Burlington adopts an annual appropriated budget for its General Fund. Similarly, the School Board adopts the School General Fund budget. A budgetary comparison statement has been provided for the General Fund and the School General Fund to demonstrate compliance with its budget.

The basic governmental fund financial statements can be found in Exhibits C through F of this report.

Proprietary Funds

The City of Burlington maintains one type of proprietary activities fund. Enterprise funds are used to report the same functions presented in business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its operation of the Airport Fund, the Electric Department, the Water Fund, the Wastewater Fund, Burlington Telecom, and the School Department's Food Services and Vocational Education Funds.

Proprietary funds provide the same type of information as the government-wide financial statements, however, in greater detail. The proprietary fund financial statements provide separate information for the Airport Fund, the Electric Fund, the Burlington Telecom Fund, and the Wastewater Fund. The School Enterprise Funds and the Water Fund are combined under Other Proprietary Funds.

The basic proprietary fund financial statements can be found in Proprietary Funds-Statement of Net Assets and Proprietary Funds- Statement of Revenues, Expenses and Changes in Fund Net Assets in this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found in this report called Statement of Fiduciary Net Assets and Statement of Changes in Fiduciary Net Assets in this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements in this report.

As noted earlier, net assets may serve over time to be a useful indicator of a government's financial position. In the case of the City of Burlington, assets exceeded liabilities by \$318,883,717 at the close of fiscal year 2011. This is an increase of \$41,809,304 from the amount reported at June 30, 2010.

By far, the largest portion of the City's net assets (86% or \$274,381,898) reflects its investments in capital assets (e.g., land buildings, and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (12.8%) or \$41,106,439 represents resources that are subject to external restrictions as to how they may be used.

At the end of fiscal year 2011, the City reports a negative balance in Government activities and positive balances in all three categories of net assets for the government activities, and for all of its separate business-type activities. The governmental activities' report indicates a positive balance of \$140,431,453 of investments in capital assets; net of related debt and a positive balance \$8,097,217 in net assets that are subject to external restrictions. There is a negative balance of (\$2,599,327) in the Governmental activities unrestricted net assets section. This is primarily due to reporting liabilities such as insurance reserves,

compensated absences, landfill post-closure costs, and non capital debt and pension and post employment benefits that have not been funded.

Governmental Activities

The net assets resulting from Government activities amounted to \$145,929,343 at the year end. The major factor contributing to this increase was the addition of capital assets, net of long-term liabilities during the fiscal year.

The above graph illustrates the revenues that are directly associated with or generated by the governmental activities. Operating Grants are by far the largest portion of our revenue or 53% at \$72,053,237, Property Taxes generate 21% at \$28,488,306 and Charges for Services generates 17% or \$23,450,208.

The chart below illustrates the components of the revenue sources and expense areas of the government-wide Statement of Activities.

The table below shows the percentages of expenses for Governmental Funds by each department for governmental activities. The largest sources of expense are Education at 51%; Public Safety at 16%, Public Works at 10% and General Government at 10%.

Business-type activity

Net assets for business-type activities amounted to \$172,954,374. Key factors which contribute to this amount are as follows:

- Total Income for Business-type activities amounted to \$93,799,922 with the major operating revenue source being charges for services at \$83,829,221. Operating expenses amounted to \$86,548,246. Burlington Electric produced operating revenue of \$57,378,914; Wastewater produced operating revenue of \$7,176,316; The Airport produced operating revenue of \$14,096,677; Telecom produced operating revenue of \$7,199,476. All other proprietary funds, consisting of Water Resources and School funds, generated operating revenue \$7,948,539.
- Included in the operating expenses is depreciation and amortization in the amount of \$10,184,685 for all business-type activities.
- The changes in net assets for all proprietary funds are shown below.

<u>Fund</u>	<u>Change in Net Assets</u>
Electric Utility	4,509,147
Airport	25,604,551
Telecom	7,228,940
Wastewater	590,962
Other Proprietary Funds	<u>727,204</u>
Total	\$38,660,804

Program revenues for business-type activities amounted to \$126,356,502 for the year. A large share (78%) of the program revenues for business-type activities comes from charges for services. \$98,693,399 comes from capital grants and contributions for the business activities.

Financial Analysis of the Government's Funds

As noted earlier, the City of Burlington uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, an unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

- At the end of the current fiscal year, the City's total governmental funds reported combined ending fund balances of \$10,577,346, an increase of \$4,601,933 from the previous fiscal year.
- A portion of the governmental fund balance includes \$584,988 for inventories and prepaid expenditures and \$2,949,504 set aside for restricted purposes such as capital and grant-funded projects, as well as Cemetery endowments.
- The City has committed and assigned \$5,466,115 of the General Fund balance for various purposes. The General Fund designated portion of the governmental fund balance including Conservation Legacy Tax of \$683,531, Parks dedicated tax of \$147,782; Pennies for Parks dedicated tax of \$419,910; Capital Street Program of \$1,241,682; non-major governmental committed funds of \$1,414,446 and several others amounting to \$1,538,764.

The fund balance of the City's General Fund was \$13,534,618 and increased \$3,618,852 or 36% during this reporting period. Reasons for this increase are further discussed in the budgetary highlights of this discussion.

The School's Fund balance increased \$1,481,113 this year to \$1,491,271 from \$10,158 in the prior year.

The Other Special Governmental Funds (Traffic, Church St. Marketplace, Trust Funds and Capitals fund balance decreased by (\$498,032). For a negative Fund Balance of (\$4,448,543)

Proprietary Funds

The City of Burlington's proprietary funds provides the same type of information found in the government-wide financial statements, but in greater detail.

Net assets for the Electric Utility fund amounted to \$52,871,404. Those for the Airport fund amounted to \$109,457,814. Those for the Wastewater fund amounted to \$12,422,540. Those for the Special Funds amounted to \$11,374,343, and those for the Telecom Fund amounted to a deficit of (\$13,171,727). The Telecom deficit is due to costs associated with the development, start-up and operation of the municipal network. The net assets of the Electric Utility Fund increased by \$4,509,147, the Airport increased by \$25,604,551, Special Funds increased by \$727,207, the net assets of the Telecom Fund increased by \$7,228,940 and Wastewater increased by \$560,962. The Airport increase is again due to grants for construction projects. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

Differences between budgeted amounts and actual amounts can be briefly summarized as follows:

Revenues

Fiscal year 2011 revenues generated \$4,767,739 over approved budget. There were several sources that exceeded expectations this year. The Clerk/Treasurer's Office exceeded budgeted revenue by \$949,040 due to Taxes, Gross Receipts, PILOTS, Franchise Fees, and Fees for Services. Planning & Zoning revenues generated \$289,281 over budget due to planning permit fees. Police Grants, Inspection Service Permits and Code Enforcement Permit fees generated \$1,309,421 in additional revenue over budget, and additional money was received for Capital Projects because of bonding in the amount of \$2,792,484.

Expenditures

FY 2011 expenditures exceeded the budget by \$111,206., which was offset by additional revenues.

Fiduciary Funds

The net assets of the Retirement Fund increased \$22,291,055 to \$134,081,074, primarily due to favorable outcomes from the stock market and investments. At June 30, 2011, the actuarial value of accrued assets is \$135,097,458; the accrued liabilities were \$190,196,691. Thus, the unfunded liability as of June 30, 2011 was \$55,099,233. This represented an increase in unfunded liability of \$6,370,429 compared to the unfunded liability on June 30, 2010 of \$48,728,804.

The City recorded a Net Pension Obligation of \$1,596,290 in fiscal year 2005 and another Net Pension Obligation in fiscal year 2006 of \$756,403. However, it has been reduced to a cumulative amount of \$1,826,028 as of June 30, 2011.

The amount of the annual contribution by the City through the tax rate and utility fees has increased significantly over the past five years. The City is continuing its efforts to moderate the burden of the system. The City recently adopted several changes to the retirement benefits, and the City now requires all eligible employees to contribute to the plan. Please refer to the audit footnotes in the Financial Statement for additional information regarding this issue.

Capital Assets and Debt Administration

Capital Assets

The City of Burlington's investment in capital assets for its governmental and business-type activities as of June 30, 2011 amounted to \$448,735,479 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, vehicles and equipment, water and wastewater distribution systems, electric generating and transmissions capital assets and land, land improvements and buildings at the Burlington International Airport.

In the governmental area, the total amounted to \$190,279,434 and the capital assets of the City's business-type activities netted to \$258,456,045.

Expenditures in the Capital Projects funds were as follows:

The Burlington Electric Department issued \$5,000,000 in revenue anticipation notes during the year, which was paid in full by June 30, 2011. The Water and Wastewater departments issued \$1,000,000 each in revenue anticipation notes which were paid in full on June 30, 2011.

Additional information on the City of Burlington's long-term debt can be found in note IV.J. of the notes to the financial statements.

Economic Factors, Future Budgets and Rates

Listed below are some of the factors involved in formulating the budget for fiscal year 2011:

- The City Tax Rate was set at .72 cents per hundred dollars of value in FY 2011.
- Once again, wage increases are a major driver of the City's overall FY 11 Budget. The contracts for both the AFSCME and Police Unions, and Fire Union were still under negotiation, and have been settled.
- In January 2006, the City Council also created a "Super Committee" to study the City's financial needs and problems. The Committee recommendations were adopted by the City Council and include the following policy goals for future budgets:

- a. Limit the growth of the operating budget to 3% a year;
- b. Reduce the cost of personnel benefits as a percent of wages;
- c. Reduce the costs of salaries, wages and benefits as a percent of the Budget; and,
- d. Maintain the Fund Balance at 5% of annual operating expenses.

The achievement of these goals was a predominant theme of the FY 2011 budget.

Fiscal Year 2012 City Budget

The City of Burlington approved a General Fund Operating Budget for fiscal year 2012 in the amount of \$48,947,928. This represented an increase of 1.8% over the final budget of the previous fiscal year. In addition, the General Fund Capital Improvements budget of \$5,588,571 represented an increase of 3.39% over the budget for fiscal year 2011. The street repair and repaving program budget of \$3,934,859 comprised the entire capital budget.

The budget for FY 2012 provided for full funding of the annual contribution to the Burlington Employees Retirement System. The changes in the tax rates are shown in the table below:

2012 School Budget

The budgeting process for FY 2012 led to the adoption of a budget of \$53,391,029 which represents an increase of \$1,458,283 or 2.81% over the FY 2011 budget of 51,932,746. The FY 2012 local budget covered positions previously funded through grants for 3.5 FTE existing teacher positions, 1 FTE magnet coach, .5 FTE Student Assistance Counselor positions and a nurse position. The FY 2012 local budget reflected reductions in spending from several areas: savings from the prior year's retirement incentive plan, administrative costs, special education costs and a behavior specialist position. The actual homestead tax rate changed from \$1.2820 in FY 2011 to \$1.3018 in FY 2012. This is a \$0.0198 or 1.54% increase over the previous year. The income cap percentage for education property tax for eligible taxpayers changed from 2.35% to 2.38% in FY 2012 or an increase of 1.28%. The district spending adjustment, a key factor in determining the homestead property tax rate, increased from 130.771% in FY 2011 to 131.801% in FY 2012. This is the amount of spending above the state wide base education amount which was \$8,544 in both FY 2011 and FY 2012. The common level of appraisal was 87.72% in FY 2011 compared to 88.08% in FY 2012.

2012 Budget for Utility Funds

The wastewater rate was increased in FY 2012 by 10%. Effective June 26, 2009, the Electric Department rates were increased by 11.3%, primarily to cover the increased costs of purchased power and overhead. There were no other significant increases in charges and fees this year. The budget for FY 2012 also includes the operating and capital expense for Burlington Telecom.

Further information regarding the budget and operations for Burlington Electric can be found in the Management's Discussion and Analysis section of the Department's separate audit report. Questions concerning any information of the Electric Department may be directed to Daryl J. Santerre, Chief Financial Officer at 585 Pine Street, Burlington, Vermont, 05401.

This financial report is designed to provide a general overview of the City of Burlington, Vermont's financial condition.
