Subject: a few details

Hi Amy,

I'm getting into the details of the map and because I started with a Google map before I got yours I noticed a few things for correction.

1. A bunch of missing (existing) buildings in the Briggs/Batchelder region
2. An extra street below Central Ave in the Lakeside region (as if Proctor connects with Wright) and a missing road down to Harbor Watch
3. Myer's bagels has no additional e.

Everything else jives with the Google map as far as I can tell. Great job... this isn't easy!

Thank again.

Here are a couple of screen shots.

If you look at the page 61 map you will see the extra street below Central.

Onward!

Amey
