

Burlington Police Department

School Resource Officers

Since 1999, in partnership with the Burlington School District the Burlington Police Department has supported its Elementary, Middle and High Schools by providing dedicated School Resource Officers (SROs). In addition to providing primary police services to the community, SROs serve a dual role as a member of their assigned school's faculty & staff. SROs conduct routine patrols of their assigned school and they offer instruction to students in a wide range of disciplines. SROs assist in crisis intervention, crime prevention, and safety initiatives. Most importantly, our SROs build meaningful relationships with our youth.
