

The officer-involved shooting that occurred last night in our city will be investigated by the Vermont State Police and reviewed by two levels of government: the State's Attorney and the State Attorney General. We fully support this important exercise of democratic oversight of our use of deadly force. The VSP will be issuing a preliminary statement in the morning, and details will continue to emerge as the investigation continues. We expect the full disclosure of facts, identities and evidence as the process of law allows. Thank you for your patience.
