

Moving Pods and Trailers in Burlington, VT

Moving to or from Burlington? This comprehensive guide provides insight to what is, and what is not allowed for moving trucks, trailers, or moving pods placed on city streets. This includes loading and unloading of personal goods.

General Guidelines

Pods and moving trailers should be placed on the property you are moving to/from whenever possible.

Moving containers are allowed to be placed in publicly designated on street parking locations with the following conditions.

Moving pods and trailers shall not exceed 8' in width. All pods, trucks, and trailers must be legally parked. At no point in time should moving pods/ trailers block:

- Fire Hydrants
- Sidewalks
- Driveways
- ADA Parking spots
- Designated loading zones
- Other time restricted spaces

No Permit Required

- Ideally, pods and trailers will be located in driveways or parking lots designated for the residence. No permits or authorizations are required from the City of Burlington to place a moving container.
- 3 days or less - Pods and trailers are allowed to be placed in designated public on-street parking stalls

Permit Required

- An Obstruction Permit is required for moving pods, trucks, and trailers IF the container will be parked on the street for more than 3 days.
- An Obstruction Permit is required to be submitted to request parking of a moving pod, trailer, or truck that will be located outside of designated on street public parking spaces.

Reserving Parking

- If reserving on street parking for loading/ unloading purposes in non-metered parking areas is required, the Burlington Department of Public Works(DPW) can issue No Parking Signs. (Please be sure to follow all instructions on posting no parking signs.)
- To reserve on street parking in locations with parking meters, DPW can issue meter bags at the rate of \$30 a day , per parking space.
- No Parking Signs are available for pickup at DPW customer service located at 645 Pine Street
