Subject: RTT Water Line Flush 20 July 2016

On 20 July, 2016 PC Construction will be conducting a waterline flush of a new waterline to Royal Tyler Theater. Adjacent building occupants may experience discolored water due to the naturally occurring minerals and sediments that accumulate in the water mains and are disturbed via the flushing process. If this should happen, please let the cold water run for several minutes and this will help clear your water.

If anyone has any questions or comments please contact me.

Regards,
Bruce
