How to Access Your Drug Program

Your prescription drug benefit can be used nationwide to obtain prescriptions from any participating pharmacy.

- 1) **Take your new prescription drug card to any participating retail pharmacy in the MaxorPlus pharmacy network.**
- 2) **Present your drug card to the pharmacist and confirm that they have accurate information about you and your family.**
- 3) **Participating network pharmacies will submit your claim electronically to MaxorPlus.**
- 4) **You will pay the required co-pay amount and sign the signature log for your prescription.**

About Your Medications

Days Supply

RETAIL: Medications dispensed at MaxorPlus participating retail pharmacies are limited to a 90-day supply.

MAIL: Maxor Mail Order Pharmacy offers a convenient, cost effective way to order prescribed long-term, maintenance medications for direct delivery to your home. Medications obtained through mail order are limited to a 90-day supply. In order to maximize your savings, please ask your doctor to write your prescription for a 90-day supply with refills up to one year. An order form, return envelope and frequently asked questions about mail order are enclosed. Please complete the order form when requesting a new prescription through Maxor Mail Order Pharmacy. Once Maxor Mail Order has your original prescription, refills can easily be obtained by mail, by calling 1-800-687-8629, or via the internet at www.maxorplus.com.

Refills

If your physician has authorized refills, you may refill your prescription once 75% of the medication has been used from a Retail pharmacy or 60% from Mail Order. For example, for a 30-day supply prescription, you may refill the prescription when you have 7 days left and for a 90-day supply prescription, you may refill the prescription when you have 36 days left.

Generic Medications

Generic medications help save money. Generics usually cost 30% to 50% less than brand name medications. The U.S. Food and Drug Administration (FDA) has established strict guidelines to determine if the generic product is therapeutically equivalent to the brand name product. A generic considered therapeutically equivalent to the brand name is given an "A" rating by the FDA. This means the generic drug contains the same active ingredient in the same strength and dosage form as its brand name equivalent and is expected to have the same clinical effect and safety profile. A brand name drug is usually known by its trade name, (example "ADVIL") rather than its chemical or generic name (example "ibuprofen"). Ask your doctor if a generic medication would be right for you.

Specialty Medications

These medications are restricted to be filled at Maxor Specialty Pharmacy. For information on obtaining specialty medications, please see the Maxor Specialty Pharmacy insert. Fills are limited to a 30-day supply.

Using A Non-Participating Pharmacy

This program requires eligible members to use a MaxorPlus participating pharmacy. (Refer to the pharmacy network list). Prescriptions purchased at "non-participating pharmacies" are covered only in emergency situations, for example, you're out-of-town and unable to locate a MaxorPlus participating pharmacy or you need an emergency prescription filled late at night. You will need to pay 100% of the prescription drug cost and obtain a receipt. Then you must submit a paper claim along with the receipt for reimbursement to GIS. You can request this form from your employee benefits office or GIS. When an out-of-network pharmacy is used, you may be responsible for paying more than just the required co-pay.

PLEASE NOTE: You should find a MaxorPlus participating pharmacy within most cities across the United States. Please call 806-324-5430 or 1-800-687-0707 or go to www.maxorplus.com for help in locating one near you.

Prescription Co-Pay Amounts

DRUG	RETAIL CO-PAYS (up to a 90-day supply)	MAIL CO-PAYS (90-day supply)
Split Pill Incentive	n/a	\$0.00
Generic	\$15.00	\$20.00
Brand*	\$15.00	\$30.00
Diabetic Meds & Supplies	\$0.00	\$0.00
Smoking Cessation, Vaccines, Contraceptives & PPACA Preventive Medications	\$0.00	\$0.00

*If a patient requests a brand name drug when a generic equivalent exists, the patient will pay the difference between the brand and the generic medication in addition to the applicable brand co-pay.

About Your Benefits Coverage

Covered Drugs, Limitations and Exclusions

Most prescription drugs that require a "written" prescription by a licensed physician are covered. Cosmetic agents, hair growth stimulants, multi-vitamins, nutritional supplements, medical supplies, devices or blood products, allergy serums, fertility agents, contraceptive devices, implants, injectables, experimental medicines and any charges for the administration or injection of a drug are generally not covered under your drug benefit. In addition, certain restrictions, quantity limits or prior authorization requirements may apply.* To obtain additional information about these restrictions, or for more coverage information, contact your HR Department or a MaxorPlus customer service representative.

* **This is not intended to be a full explanation of benefits, limitations, or exclusions.**
