MELANSON HEATH & COMPANY, PC

CERTIFIED PUBLIC ACCOUNTANTS
MANAGEMENT ADVISORS

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and City Council
City of Burlington, Vermont

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund (except the Burlington Telecom Enterprise Fund and the Burlington Electric Enterprise Fund), and the aggregate remaining fund information of the City of Burlington, Vermont, as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the City of Burlington's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the Burlington Electric Enterprise Fund, a major enterprise fund, which represents 40% and 60% of the assets and revenues, respectively, of the business-type activities. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the Burlington Electric Enterprise Fund and its effects on the business-type activities, is based on the report of the other auditors.

We were engaged to examine the Burlington Telecom Enterprise Fund as of and for the year ended June 30, 2012, however, as discussed on page 96 to the financial statements, the City is a defendant in a lawsuit related to the lease that provided the financing of the Telecom enterprise fund's assets. The lawsuit, among other things, seeks repayment of the original lease amount of \$33,500,000 or the return of the equipment, as well as rent from the City for the use of Telecom's assets. As a result of the lawsuit, material uncertainties exist relative to amounts that may be owed to the plaintiff for lease and/or rental payments as well as the reported value of the underlying assets. The effects of these uncertainties on the financial position, results of operation, and cash flows of the Burlington Telecom Enterprise Fund, are not reasonably determinable.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

Management was unable to provide an assessment of the collectability of the General Fund receivable of \$16,936,492 due from the Telecom Enterprise Fund. If the Telecom Enterprise Fund cannot repay all, or a portion of the advance, the City's General Fund would be required to transfer to the Telecom Enterprise Fund the amount that cannot be repaid. We are unable to form an opinion on the amount, if any, or the timing of when the advance from the General Fund will be repaid.

Because of the significance of the matters described in the second paragraph of this report, we were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the Telecom Enterprise Fund.

In our opinion, and based on the report of other auditors, except for the effects of insufficient audit evidence to provide a basis for an audit opinion on the Telecom Enterprise Fund as part of the business-type activities, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the City of Burlington, Vermont, as of June 30, 2012, and the changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In addition, in our opinion, except for the effects of adjustment to the General Fund and Governmental Activities, if any, referred to in the fourth paragraph of this report, the financial statements referred to above present fairly, in all material respects, the respective financial position of the General Fund, and the governmental activities of the City of Burlington, Vermont, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Finally, in our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the aggregate discretely presented component unit, the School major fund, the Electric Enterprise major fund, the Airport major fund, the wastewater major fund and the aggregate remaining fund information of the City of Burlington, Vermont, as of June 30, 2012 and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund and School Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The City has an accumulated unassigned deficit in the General Fund of \$14,982,331 as of June 30, 2012 which has resulted principally from the cash deficit in the Telecom Enterprise fund. Liquidity risks and management's plans are discussed in Note 2A on page 48.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedule of Funding Progress information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

In accordance with Government Auditing Standards, we have also issued a report dated January 24, 2013 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Melanson, Heath + Company P.C.

January 24, 2013

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Burlington, we offer readers this narrative overview and analysis of the financial activities of the City of Burlington for the fiscal year ended June 30, 2012. **Unless otherwise noted, all amounts are expressed in thousands.**

A. OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of our finances in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, public safety, education, public works, culture and recreation, and community development. The business-type activities include the operation of the Airport, the Electric, Water, and Wastewater Utilities, Telecommunications (including cable television, internet access, and telephone service) and the food services operation and vocational educational programs administered by the School Department.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike

the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

An annual appropriated budget is adopted for the general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. Proprietary funds are maintained as follows:

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Specifically, enterprise funds are used to account for Burlington Electric, Burlington Airport, Burlington Telecom, Wastewater, Water, School Lunch, and other operations.

Proprietary funds provide the same type of information as the business-type activities reported in the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Burlington Electric, Burlington Airport, Burlington Telecom and Wastewater all of which are considered to be major funds.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information which is required to be disclosed by accounting principles generally accepted in the United States of America.

B. FINANCIAL HIGHLIGHTS

- As of the close of the current fiscal year, the total of assets exceeded liabilities by \$306,693 (i.e., net assets), a change of \$(11,500) in comparison to the prior year.
- As of the close of the current fiscal year, governmental funds reported combined ending fund balances of \$20,695, a change of \$10,348 in comparison to the prior year.

- At the end of the current fiscal year, unassigned fund balance for the general fund was \$(14,982), a change of \$1,809 in comparison to the prior year.
- Total long-term liabilities (i.e., bonds payable) at the close of the current fiscal year was \$205,410, a change of \$27,353 in comparison to the prior year.
- Total net assets of the component unit of the City, the Burlington Community Development Corporation, amounted to \$2,286, an increase of \$162 for the year.
- The nonspendable portion of the governmental fund balance was \$24,261, which consists of inventories and prepaid assets, as well as general fund advances to other funds not expected to be repaid within a short period of time. \$7,740 is restricted for specific purposes. In addition, \$8,769 is committed for projects by a dedicated tax rate. The City also has assigned \$263 for specific projects. This leaves the City with an unassigned deficit of \$(20,338). The majority of this deficit is attributable to advances to other funds that will not be repaid in a short period of time, thus deemed not available to spend.

C. GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following is a summary of condensed government-wide financial data for the current and prior fiscal years.

	<u>Governmental</u>		<u>Business-Type</u>		<u>Total</u>	
	<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>

(continued)

	Governmental Activities		Business-Type Activities		Total	
	<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>	<u>2012</u>	<u>2011</u>
Additions to permanent fund principal	35	-	-	-	35	-
Special items	(29,251)	-	-	6,722	(29,251)	6,722
Transfers in (out)	<u>(55)</u>	<u>5</u>	<u>55</u>	<u>(5)</u>	<u>-</u>	<u>-</u>
Change in net assets	(20,539)	2,863	9,039	38,255	(11,500)	41,118
Net assets - beginning of year	<u>145,644</u>	<u>142,781</u>	<u>172,549</u>	<u>134,294</u>	<u>318,193</u>	<u>277,075</u>
Net assets - end of year	<u>\$ 125,105</u>	<u>\$ 145,644</u>	<u>\$ 181,588</u>	<u>\$ 172,549</u>	<u>\$ 306,693</u>	<u>\$ 318,193</u>

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, total net assets were \$306,693, a change of \$(11,500) from the prior year.

The largest portion of net assets \$250,414 reflects our investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of net assets \$49,793 represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets \$6,486 may be used to meet the government's ongoing obligations to citizens and creditors.

Governmental activities. Governmental activities for the year resulted in a change in net assets of \$(20,539). Key elements of this change are as follows:

Write off of impaired capital asset	\$ (29,251)
Collection of long-term CEDO receivable	4,803
Collection of past reimbursable costs	3,897
Capital grants and contributions	3,476
Depreciation in excess of principal debt service expense	(3,705)
Other	<u>241</u>
Total	<u>\$ (20,539)</u>

Business-type activities. Business-type activities for the year resulted in a change in net assets of \$9,039. Key elements of this change are as follows:

Electric	\$ 3,922
Airport	3,109
Telecom	619
Wastewater	698
Water	672
School lunch	16
Other	<u>3</u>
Total	<u>\$ 9,039</u>

D. FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

Such information is useful in assessing financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, governmental funds reported combined ending fund balances of \$20,695 (prior to any provision for the possible write down of the \$16,936 advanced to Telecom), a change of \$10,348 in comparison to the prior year. Key elements of this change are as follows:

City General fund expenditures and other financing uses in excess of revenues and transfers in	\$ 2,321
School General fund expenditures and transfers out in excess of revenues and transfers in	(2,003)
Special revenue fund revenue and transfer in excess of expenditures (mostly CEDO Receivable)	4,348
Permanent fund revenues over expenditures	23
Debt service fund transfer in	1,064
Excess of current year bond proceeds and revenues over current	<u>4,594</u>
Total	<u>\$ 10,348</u>

The general fund is the chief operating fund. At the end of the current fiscal year, unassigned fund balance of the general fund was \$(14,982), while total fund balance was \$15,626 (prior to any provision for the possible write down of the \$16,936 advanced to Telecom). As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Refer to the table below, and also Note # 2A.

<u>City General Fund</u>	<u>6/30/12</u>	<u>6/30/11</u>	<u>Change</u>	% of <u>Total General Fund Expenditures</u>
Unassigned fund balance	\$ (14,982)	\$ (16,791)	\$ 1,809	-27.6%
Total fund balance	15,626 ⁽¹⁾	13,305 ⁽¹⁾	2,321	28.8% ⁽¹⁾

⁽¹⁾ These balances do not include any provision for the possible write-off of the \$16,936 receivable from Burlington Telecom.

The total fund balance of the City's general fund changed by \$2,321 during the current fiscal year. Key factors in this change are as follows:

Actual revenues in excess of budgeted	\$ 2,397
Actual expenditures more than budgeted	(1,127)
Unspent dedicated taxes	1,425
Other	<u>(374)</u>
Total	<u>\$ 2,321</u>

<u>School General Fund</u>	<u>6/30/12</u>	<u>6/30/11</u>	<u>Change</u>	% of <u>Total School General Fund Expenditures</u>
Restricted fund balance	\$ 548	\$ 1,462	\$ (915)	0.8%
Total fund balance	(512)	1,491	(2,003)	-0.7%

The total fund balance of the School's general fund changed by \$(2,003) during the current fiscal year. Key factors in this change are as follows:

Revenues in excess of budget	\$ 385
Expenditures less than budget	(2,072)
Other	<u>(316)</u>
Total	<u>\$ (2,003)</u>

Proprietary funds. Proprietary funds provide the same type of information found in the business-type activities reported in the government-wide financial statements, but in more detail.

A comparison of the unrestricted net assets of each enterprise compared to the prior year is show below:

	<u>Unrestricted Net Assets</u>		
	<u>6/30/12</u>	<u>6/30/11</u>	<u>Change</u>
Burlington Electric	\$ 17,905	\$ 16,020	\$ 1,885
Burlington Airport	2,335	6,668	(4,333)
Burlington Telecom	(15,966)	(16,245)	279
Wastewater	(380)	(1,500)	1,120
Nonmajor funds:			
Water	(1,438)	(1,221)	(216)
School Lunch	1,037	1,048	(11)
School Other	33	30	3

Specific factors concerning the finances of each proprietary fund are discussed below:

- The Electric Department's net assets increased as a result of its profitable operations for the year ended June 30, 2012. However, income from operations declined during 2012 as a result of decreased sales to ultimate customers and increased power supply and transmission and distribution costs. For more information, please refer to the separate financial statements issued for the Department.
- The Airport's unrestricted net assets declined primarily as a result of an increase in depreciation expense of \$2 million resulting from the opening of the parking garage addition, increases in other operating costs of approximately \$471 thousand and increased interest expense of nearly \$700 thousand. In addition, the Airport increased transfers into restricted fund balance to fund debt service reserve funds. For additional information, please refer the separate financial statements issued for the Airport.
- Burlington Telecom's unrestricted net assets increased modestly during 2012 primarily as a result of cost controls implemented beginning in 2011, as well as the elimination of several employee positions.
- The net improvement in the Wastewater and Water funds, which are managed on a combined basis, is primarily the result of a 10% wastewater rate increase that was effective July 1, 2011. The Water fund will reflect improved operating performance in 2013 as a result of a 5% rate increase that was effective July 1, 2012.

E. GENERAL FUND BUDGETARY HIGHLIGHTS

There were no changes made to the originally approved budget and the final budget.

F. CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Total investment in capital assets for governmental activities at year-end amounted to \$162,178 (net of accumulated depreciation), a change of \$(28,101) from the prior year. Total investment in capital assets for business-type activities at year-end amounted to \$264,272 (net of accumulated depreciation), a change of \$6,221 from the prior year. This investment in capital assets includes land, buildings and system, improvements, and machinery and equipment.

Major capital asset events during the current fiscal year for Governmental Activities included the following:

Write-off of Southern Connector	\$ (29,251)
Infrastructure improvements	6,331
Vehicles	718
Other capital projects	1,783
Depreciation expense	<u>(7,682)</u>
Total	<u>\$ (28,101)</u>

Change in capital assets, net of Accumulated Depreciation for Business-Type Activities are as follows:

Electric	\$ 6,518
Airport	1,159
Telecom	339
Wastewater	(1,403)
Water	(419)
School Lunch	<u>27</u>
Total	<u>\$ 6,221</u>

Additional information on capital assets can be found in the notes to the financial statements.

Change in credit rating. On June 20, 2012, Moody’s Investor Service (Moody’s) lowered the City’s credit rating on the City’s general obligation debt from A3 to Baa3 with a negative outlook. The rating for the City’s certificates of participation was lowered to Baa2 to Ba1, also with a negative outlook.

Factors cited by Moody’s as the reason for the downgrade include the continuing exposure to loss related to the Burlington Telecom (BT) lawsuit, the lack of liquidity resulting from the \$16.9 million of City funds used for the build-out of BT, the long-term viability of BT, and the operating deficits in the Water and Wastewater funds.

As a result of the credit downgrade, the City has done the following:

- Obtained voter approval in November 2012 for the issuance of up to \$9 million in Fiscal Stability bonds to reduce reliance on Tax Anticipation notes used to fund general fund operations during the periods between property tax payment due dates;
- Continued its efforts to resolve the BT situation. For more detailed information about the BT situation, please refer to footnote 26 to the audited financial statements; and
- Raised the Water rate by 5% effective July 1, 2012.

The City will continue its efforts to address the concerns expressed by Moody’s, and will undergo another credit review in connection with the issuance of the Fiscal Stability bonds, which is anticipated to occur in March 2013.

Long-term debt. At the end of the current fiscal year, total outstanding bonds payable and long-term bond anticipation notes (excluding premiums and discounts) outstanding was \$191,346, all of which was backed by the full faith and credit of the government.

Additional information on long-term debt can be found in the Notes to the Financial Statements.

G. ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

Listed below are some of the factors involved in formulating the budget for fiscal year 2012:

- The City Tax Rate was set at .728 cents per hundred dollars of value in FY 2012.
- Once again, wage increases are a major driver of the City’s overall FY 2012 Budget. The contracts for both the AFSCME and Police Unions, and Fire Union were still under negotiation, and have been settled.
- In January 2006, the City Council also created a "Super Committee" to study the City's financial needs and problems. The Committee recommendations were adopted by the City Council and include the following policy goals for future budgets:
 - a. Limit the growth of the operating budget to 3% a year;
 - b. Reduce the cost of personnel benefits as a percent of wages;
 - c. Reduce the costs of salaries, wages and benefits as a percent of the Budget; and,
 - d. Maintain the Fund Balance at 5% of annual operating expenses.

The achievement of these goals was a predominant theme of the FY 2012 budget.

Fiscal Year 2013 City Budget

The City of Burlington approved a General Fund Operating Budget for fiscal year 2013 in the amount of \$52,245. This represented an increase of 6.7% over the final budget of the previous fiscal year, with the majority of the increase resulting from higher salaries and wages required under our collective bargaining agreements with the Police, Fire, and AFSCME unions. In addition, the General Fund Capital Improvements budget of \$4,609 represented a decrease of 17.5% compared to the budget for fiscal year 2012. The third year of the street repaving program consumed the majority of the capital budget.

The budget for FY 2013 provided for full funding of the annual contribution to the Burlington Employees Retirement System. The changes in the tax rates are shown in the table below:

<u>Tax Rate Item</u>	<u>FY12 Tax Rate per \$100</u>	<u>FY13 Approved Tax Rate</u>	<u>Change</u>

Total	<u>\$ 0.72800</u>	<u>\$ 0.71533</u>	<u>\$ (0.01267)</u>

2013 School Budget

The budgeting process for FY 2013 led to the adoption of a budget of \$53,391 which represents an increase of \$1,458 or 2.81% over the FY 2012 budget of \$51,933. The FY 2013 local budget covered positions previously funded through grants for 16 FTE existing teacher positions, .5 FTE magnet coach, .5 FTE Student Assistance Counselor positions and a nurse position. The FY 2013 local budget reflected reductions in spending from several areas: savings from the prior year's retirement incentive plan, administrative costs, special education costs and a behavior specialist position. The actual homestead tax rate changed from \$1.3018 in FY 2012 to \$1.4302 in FY 2013. This is a \$0.1284 or 9.86% increase over the previous year. The income cap percentage for education property tax for eligible taxpayers changed from 2.38% to 2.55% in FY 2013 or an

increase of 7.14%. The district spending adjustment, a key factor in determining the homestead property tax rate, increased from 131.801% in FY 2012 to 141,390% in FY 2013. This is the amount of spending above the state wide base education amount which was \$3 per equalized pupil in FY 2012 and \$4 per equalized pupil FY 2013. The common level of appraisal was 88.08% in FY 2012 compared to 87.57% in FY 2013.

2013 Budget for Utility Funds

The wastewater rate remained unchanged in FY 2013; the water rate was increased in FY2013 by 5%. Effective June 26, 2009, the Electric Department rates were increased by 11.3%, primarily to cover the increased costs of purchased power and overhead. There were no other significant increases in charges and fees this year. The budget for FY 2013 also includes the operating and capital expense for Burlington Telecom.

Further information regarding the budget and operations for Burlington Electric can be found in the Management's Discussion and Analysis section of the Department's separate audit report. Questions concerning any information of the Electric Department may be directed to Daryl J. Santerre, Chief Financial Officer at 585 Pine Street, Burlington, Vermont, 05401.

This financial report is designed to provide a general overview of the City of Burlington, Vermont's financial condition. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Clerk/Treasurer, City of Burlington, City Hall, 149 Church Street, Burlington, VT 05401.

CITY OF BURLINGTON, VERMONT

RECONCILIATION OF THE STATEMENT OF REVENUES
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2012

NET CHANGES IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 10,347,533																										
<ul style="list-style-type: none"> • Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense: <table border="0" style="margin-left: 40px;"> <tr> <td>Capital outlay purchases</td> <td style="text-align: right;">8,884,089</td> </tr> <tr> <td>Depreciation</td> <td style="text-align: right;">(7,682,492)</td> </tr> <tr> <td>Loss on disposal of capital assets</td> <td style="text-align: right;">(51,709)</td> </tr> <tr> <td>Special item - impairment of a capital asset</td> <td style="text-align: right;">(29,251,302)</td> </tr> </table> • Revenues in the Statement of Activities that do not provide current financial resources are fully deferred in the Statement of Revenues, Expenditures and Changes in Fund Balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, etc.) differ between the two statements. This amount represents the net change in deferred revenue. <table border="0" style="margin-left: 40px;"> <tr> <td></td> <td style="text-align: right;">(1,755,198)</td> </tr> </table> • The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net assets: <table border="0" style="margin-left: 40px;"> <tr> <td>Issuance of debt</td> <td style="text-align: right;">(6,181,586)</td> </tr> <tr> <td>Repayments of debt</td> <td style="text-align: right;">3,976,551</td> </tr> <tr> <td>Bond premium, discount and deferred charges</td> <td style="text-align: right;">(68,868)</td> </tr> </table> • In the statement of activities, interest is accrued on outstanding long-term debt, whereas in governmental funds interest is not reported until due. <table border="0" style="margin-left: 40px;"> <tr> <td></td> <td style="text-align: right;">(34,456)</td> </tr> </table> • Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds. <table border="0" style="margin-left: 40px;"> <tr> <td>Compensated absences</td> <td style="text-align: right;">1,547,048</td> </tr> <tr> <td>Net pension obligation</td> <td style="text-align: right;">26,657</td> </tr> <tr> <td>Net OPEB obligation</td> <td style="text-align: right;">(320,033)</td> </tr> <tr> <td>Landfill liability</td> <td style="text-align: right;"><u>25,000</u></td> </tr> </table> 		Capital outlay purchases	8,884,089	Depreciation	(7,682,492)	Loss on disposal of capital assets	(51,709)	Special item - impairment of a capital asset	(29,251,302)		(1,755,198)	Issuance of debt	(6,181,586)	Repayments of debt	3,976,551	Bond premium, discount and deferred charges	(68,868)		(34,456)	Compensated absences	1,547,048	Net pension obligation	26,657	Net OPEB obligation	(320,033)	Landfill liability	<u>25,000</u>

CITY OF BURLINGTON, VERMONT

Notes to Financial Statements

Incorporated in 1865, the City of Burlington operates under a tripartite system of government with the Mayor serving as Chief Executive, the City Council as the legislative body and the Commissioners as the primary policy makers within their respective departments. The City Charter authorizes the provision for the following services for the residents of the City: general administration, public safety, public works, community development, culture and recreation, utilities and education.

1. Summary of Significant Accounting Policies

The accounting policies adopted by the City of Burlington (the “City”) conform to generally accepted accounting principles (GAAP) as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The following is a summary of the more significant accounting policies employed in the preparation of these financial statements.

A. The Financial Reporting Entity

This report includes all of the funds of the City of Burlington, Vermont. The reporting entity consists of the primary government; organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The primary government is financially accountable if it appoints a voting majority of the organization’s governing body and it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or burdens on the primary government. The primary government may be financially accountable if an organization is fiscally dependent on the primary government. The Burlington Community Development Corporation is the only entity that meets this definition and, as a discretely presented component unit, is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City. Excluded are organizations such as the Chittenden County Transportation Authority, Burlington Housing Authority, Chittenden County Government, the Winooski Valley Park District, the Friends of Fletcher Free Library, the Burlington City Arts Foundation, Burlington Schools Foundation, and the Chittenden Solid Waste District, since after considering all factors related to oversight responsibility, the City has concluded they are not part of the reporting entity.

The Burlington Community Development Corporation's primary purpose is to carry out the industrial and economic development of the City of Burlington, including specifically the development of businesses located, or to be located, on lands owned by the City of Burlington at the Burlington International Airport. As such, the purposes of the Corporation shall include fostering, encouraging and assisting the physical location of business enterprises in the Greater Burlington area and otherwise fulfilling the purposes of a "local development corporation". The Board of Directors of the Burlington Community Development Corporation must be members of the City of Burlington's Board of Finance.

B. Basis of Presentation

The accounts of the City are organized and operated on the basis of fund accounting. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts which comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are spent and the means by which spending activities are controlled.

The basic financial statements of the City include both government-wide statements and fund financial statements. The focus of the government-wide statements is on reporting the operating results and financial position of the City as a whole and present a longer term view of the City's finances. The focus of the fund financial statements is on reporting on the operating results and financial position of the most significant funds of the City and present a shorter term view of how operations were financed and what remains available for future spending.

Government-wide Statements: The statement of net assets and the statement of activities display information about the primary government, the City, and its component unit, the Burlington Community Development Corporation. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of activities between funds. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each segment of the City's business-type activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds, including fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating revenues consists of sales of electricity, rents of electric property, fees to transmit electricity of others, sales of renewable energy credits, operation of other utilities to run generation facilities, rent of airport terminal space and buildings, concessions, commissions, parking receipts, sales of water, wastewater user charges, telephone, cable and internet access, hot lunch sales and other miscellaneous fees for service. Nonoperating revenues result from certain nonexchange transactions or ancillary activities. Nonoperating revenues consist of investment earnings, electric services rendered to customers upon their request, passenger facility charges, grant income and building rents from buildings purchased for future expansion.

Operating expenses are defined as the ordinary costs and expenses for the operation, maintenance and repairs of the electric plant, airport, water facility, wastewater facility, telecommunications equipment and lines, and hot lunch programs. Operating expenses include the cost of production, purchased power, maintenance of transmission and distribution systems, administrative, and general expenses and depreciation and amortization. Operating expenses do not include the interest on bonds, notes or other evidences or indebtedness and related costs.

The City reports on the following major governmental funds:

General Fund - This is the City's main operating fund. It accounts for all financial resources of the City except those required to be accounted for in another fund.

School Fund - This Fund accounts for all of the governmental activity of the Burlington School Department.

The City reports on the following major Enterprise funds:

Electric Fund - This fund accounts for the operations of the Burlington Electric Department.

Airport Fund - This fund accounts for the operations of the Burlington International Airport.

Telecom Fund - This fund accounts for the operations of Burlington Telecom.

Wastewater Fund - This fund accounts for the operations of the Department of Public Works-Wastewater Division.

Additionally, the City reports the following fund types:

Private-Purpose Trust Funds - These funds are used to report trust arrangements under which resources are to be used for the benefit of firemen injured in the line of duty, Christmas gifts for servicemen overseas, Christmas dinners for the destitute and student educational expenses and scholarships. All investment earnings, and in some cases, the principal of these funds may be used to support these activities.

Pension Trust Fund - This fund accounts for monies contributed by the City and its employees and the income on investments less amounts expended for the pensions of retired City employees. This fund is supported by a dedicated tax rate from the General Fund and charges to Non-general Fund funds based on a percentage of payroll. This Fund also pays for the FICA costs for the City's employer's share of FICA.

Agency Fund - This fund accounts for monies maintained for various student groups at the Burlington High School and at the elementary and middle schools.

C. Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Government-wide and proprietary fund financial statements are reported using the economic resources measurement focus. This means that all assets and liabilities associated with the operation of these funds (whether current or noncurrent) are included on the balance sheet (or statement of net assets). Equity (i.e., net total assets) is segregated into invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. Operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Governmental fund financial statements are reported using the current financial resources measurement focus. This means that only current assets and current liabilities are generally reported on their balance sheets. Their reported fund balances (net current assets) are considered a measure of available spendable resources, and are segregated into nonspendable; restricted; committed; assigned and unassigned amounts. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. “Measurable” means the amount of the transaction can be determined, and “available” means the amount is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers all revenues reported in governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, certain compensated absences, self-insured health and dental benefits, reserves for property and casualty and workers’ compensation claims, landfill post-closure costs, net pension obligation, post-employment benefits and other long-term liabilities which are recognized when the obligations are expected to be liquidated or are funded with expendable available financial resources.

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the City’s policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and other grant requirements have been met.

Recognition of revenues on funds received in connection with loan programs are recognized when loans are awarded and expenses incurred in excess of current grants and program income. An offsetting deferred revenue is recognized for all loans receivable. Loan repayment revenue is recognized as the loans are repaid.

The government-wide and proprietary fund financial statements follow Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions; and Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with GASB pronouncements.

The Burlington Electric Department (the Department) is an enterprise fund of the City of Burlington, Vermont (the City). The City has overall financial accountability for the Department; its Council appoints the Commissioners of the Department which oversee its operations, and the City collateralizes the Department's general obligation debt. The Department is also subject as to rates, accounting, and other matters, to the regulatory authority of the State of Vermont Public Service Board (VPSB) and the Federal Energy Regulatory Commission (FERC). In accordance with FASB ASC Topic 980, *Regulated Operations*, the Department records certain assets and liabilities in accordance with the economic effects of the rate making process.

As permitted under Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and other Governmental entities that use Proprietary Fund Accounting* (GASB Codification Section P80, *Proprietary Fund Accounting and Financial Reporting*), the Department has elected not to apply Statements of Financial Accounting Standards issued after November 30, 1989.

E. Cash and Short-Term Investments

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash balances are invested to the extent available, and interest earnings are recognized in the general fund. Certain special revenue, proprietary, and fiduciary funds segregate cash, and investment earnings become a part of those funds.

Deposits with financial institutions consist primarily of demand deposits, certificates of deposits, and savings accounts. A cash and investment pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and short-term investments". The interest earnings attributable to each fund type are included under investment income.

For purpose of the statement of cash flows, the proprietary funds consider investments with original maturities of three months or less to be short-term investments.

F. Investments

State and local statutes place certain limitations on the nature of deposits and investments available. Deposits in any financial institution may not exceed certain levels within the financial institution. Non-fiduciary fund investments can be made in securities issued by or unconditionally guaranteed by the U.S. Government or agencies that have a maturity of one year or less from the date of purchase and repurchase agreements guaranteed by such securities with maturity dates of no more than 90 days from the date of purchase.

Investments for the Trust Funds consist of marketable securities, bonds, and short-term money market investments. Investments are carried at fair value.

G. Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due from/to other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans).

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate the portion not available for appropriation and not available as expendable financial resources.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

H. Jointly Owned Facilities

The Burlington Electric Department has recorded its ownership interest in jointly owned facilities as capital assets. The Department’s ownership interest in each of the jointly owned facilities is as follows:

McNeil Station	50.0%
Highgate Station	7.7%

The Department is responsible for its proportionate share of the operating expenses of the jointly owned facilities which are billed to the Department on a monthly basis. The associated operating costs allocated to the Department are classified in their respective expense categories in the statement of operations. Separate financial statements are available from the Department for these jointly owned facilities.

I. Investments in Associated Companies

The Electric Department follows the cost method of accounting for its 6.38% Class B common stock, 1.97% Class C common stock, and 7.69% Class C preferred stock ownership interest in Vermont Electric Power Company, Inc. (VELCO), and its 4.34% ownership interest in Vermont Transco LLC (Transco). Transco is an affiliated entity of VELCO. VELCO owns and operates a transmission system in the State of Vermont over which bulk power is delivered to all electric utilities in the State of Vermont. Under a Power Transmission Contract with the State of Vermont, VELCO bills all costs, including amortization of its debt and a fixed return on equity, to the State of Vermont and others using the system.

On December 28, 2011, the Department purchased 50,600 Class A units and 64,400 Class B units in VT Transco LLC for a cost of \$1,150,000.

During the year ended June 30, 2011, there were no additional purchases of Vermont Transco LLC Class A or Class B units.

J. Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed. No significant inventory balances were on hand in governmental funds.

K. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, (for enterprise funds only) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an estimated useful life of five years or greater. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

	<u>Capitalization Threshold</u>	<u>Estimated Service Life</u>
Land	\$ 25,000	N/A
Antiques and Works of Art	5,000	N/A
Land Improvements	25,000	5-30 years
Buildings and Building Improvements	20,000	25-150 years
Vehicles, Machinery, Equipment and Furniture	5,000	5-15 years
Book Collections	1,000	5 years
Infrastructure	25,000	10-40 years
Distribution, Production and Collection Systems	10,000	10-100 years

The Electric Department has recorded its ownership in jointly owned facilities as capital assets. The associated operating costs allocated to the Electric Department are classified in their respective expense categories.

Capital assets reported in the government-wide and proprietary fund financial statements are depreciated in order that the cost of these assets will be charged to expenses over their estimated service lives, generally using the straight line method of calculating depreciation. The Electric Department depreciates the McNeil & Highgate Converter Stations using the straight-line method. However, only a portion of the current depreciation is recoverable through future rates. The difference is included in deferred depreciation and will be recovered through future rates.

L. Nonutility Property

In 1986, land along the Winooski River was purchased at a cost of \$775,600 from a neighboring utility for the development of the Chace Mill hydroelectric project. Although the Department incurred various engineering and other related costs in investigating the feasibility of pursuing this project, the Department declined to move forward. In 1991, under a long-term agreement, the land and land rights were leased to the Winooski One Partnership for the construction of the Winooski One hydroelectric facility.

M. Renewable Energy Credit Sales

In 2008, the McNeil Generating Station (McNeil) installed a Regenerative Selective Catalytic Reduction (RSCR) unit. The RSCR unit significantly reduces McNeil's Nitrous Oxide (NOx) emission levels which allow the station to qualify to sell Connecticut Class 1 Renewable Energy Certificates (RECs). The McNeil RECs are determined to be qualified for sale based on a review of emissions outputs by McNeil. At the end of every quarter, an affidavit is signed stating whether or not McNeil's emissions out met the requirements needed to sell the RECs. McNeil receives a certification from the State of Connecticut indicating that they met the standards for the quarter based on the statistics provided by

McNeil. Connecticut Class 1 RECs are one of the more valuable REC products in New England and REC sales from McNeil are expected to continue to be a significant revenue source for the Department. Sales are recorded as revenue upon delivery of the RECs to the customer.

In addition, beginning in FY 2012, the Department receives RECs from the Vermont Wind Project in Sheffield. These RECs are qualified for participation in most of the New England REC markets, making revenue for the sale of these RECs a significant source of revenue as well (though not as large a source as the McNeil RECs previously discussed).

The Department planning staff monitors McNeil and Vermont Wind output levels, REC commitments made, and the markets for these RECs and periodically sells RECs either through an auction structure, through broker-initiated transactions, or through direct placement with entities who need the RECs to comply with various New England statutes. The Department enters into agreements to sell these RECs for both the current year's generation and future years' production.

N. Pollution Remediation Obligations

The Electric Department faces possible liability as a potentially responsible party (PRP) with respect to the cleanup of certain hazardous waste sites. The City is currently a PRP as a landowner of a hazardous waste superfund site in Burlington, Vermont that is the subject of a remediation investigation by the Environmental Protection Agency (the EPA). The Department has agreed to share on an equal basis all past and future costs incurred in connection with any and all settlements or actions resulting from the designation of the City as a PRP at this site. In light of a recent agreement between the City and the EPA concerning the remediation plan at the site, the Department believes that the likelihood of any liability material to the financial position of the Department is remote and as such, no liability has been accrued as of June 30, 2012 or 2011.

O. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vested sick and vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

P. Liabilities to be Paid from Restricted Assets

The balance in these liabilities represents accrued interest payable on the revenue bonds and construction invoices which will be paid from restricted assets. The restricted assets will also be used for additional construction of certain assets, including certain costs in accounts and contracts payable.

Q. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

R. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance”. Fund equity for all other reporting is classified as “net assets”.

Fund Balance - Fund balance represents the difference between the current assets and current liabilities. The City reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

The City’s fund balance classification policies and procedures are as follows:

- 1) Nonspendable funds are either unspendable in the current form (i.e. inventory or prepaid items) or can never be spent (i.e., perpetual care).
- 2) Restricted funds are used solely for the purpose in which the fund was established. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be expended.
- 3) Committed funds are reported and expended as a result of motions passed by the highest decision making authority in the government (i.e., the City Council).
- 4) Assigned funds are used for specific purposes as established by management. These funds, which include encumbrances, have been assigned for specific goods and services ordered but not yet paid for. This account also includes fund balance voted to be used in the subsequent fiscal year.
- 5) Unassigned funds are available to be spent in future periods.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the City uses the following order to liquidate liabilities: restricted, committed, assigned, and unassigned.

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external

restrictions imposed by creditors, grantors, or laws or regulations of other governments. All other net assets are reported as unrestricted.

S. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

2. Stewardship, Compliance, and Accountability

A. Liquidity Risk

Liquidity risk is the risk of not having sufficient liquid financial resources to meet obligations when they fall due, or having to incur excessive costs to do so. Primarily as a result of the Burlington Telecom deficit and various capital project and enterprise funds deficits, the City has relied on short-term borrowing to obtain cash to pay operating expenditures. Continued reliance on short-period borrowing for cash purposes places the City in a vulnerable position. In order to reduce this vulnerability, a plan that identifies the recapture of the Burlington Telecom deficit needs to be realized. The City is working on an out-of-court settlement with Citibank. Until this occurs, however, the City will likely continue to experience cash flow pressures in the near-term. The City also faces a further deterioration of its financial status and credit worthiness if a long-term plan cannot be developed and realized for the Burlington Telecom deficit.

The accumulated unassigned fund balance deficit in the General Fund could potentially affect the City's ability to access credit markets and could potentially increase the costs of borrowing. Continued liquidity improvement is dependent upon eliminating the City's accumulated deficits. It is the City's intent to arrange its financial affairs and manage its budget to eliminate its current deficit and provide for future balanced financial operations.

The City's current plans include:

- Adhere to policy with financing first, and spending second.
- Continue to monitor cash position daily, and update forecast weekly.
- Improve the collection rate on outstanding receivables.
- Issuance of a \$9m Fiscal Stability bond.
- Increase water and wastewater rates.
- Refinance short-term debt with attractive rates, and issue long-term debt approved by the voters.

- Utilize lines of credit instead of anticipation notes.
- Ensure Enterprise and Special Funds operate at a profit, and are cash positive reducing reliance on General Fund pooled cash.
- The City is negotiating with potential private investors to address the deficits at Burlington Telecom.

B. Budgetary Information

The City follows these procedures in establishing the budgetary data reflected in the financial statements for the General Fund:

1. Departments, and departments with commission approval, prepare detailed recommendations to the Mayor on the budget. Prior to June 15, the Mayor, with the assistance of the other members of the Board of Finance, prepares and submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and estimated revenues.
2. Prior to July 1, the budget is legally enacted through passage of a resolution of the City Council.
3. The Mayor may propose, with the advice of the Board of Finance, amendments to the budget. Such proposed amendments require a majority approval of the City Council. The amount of such proposed amendments may be decreased by a simple majority vote of the City Council. Such proposed amendments may be increased above the level proposed by the Mayor only with a two-thirds vote of the City Council.
4. The Board of Finance is authorized to transfer budgeted amounts between line items within an appropriation account or within accounts of a department. Any revisions which increase the total expenditures of any department function or fund above the original appropriation must be approved by resolution of the City Council.
5. That portion of the designated fund balance that consists of operating and capital improvement carry-overs, represents unexpended appropriations which are allowed to be carried over to later years as provided for by City Charter or by resolution of the City Council. All other unexpended appropriations lapse at the close of the fiscal year. The City Charter specifically prohibits expenditures in excess of appropriations except on an emergency basis for health, police, fire and public welfare.
6. The City of Burlington tax rate can change each year by the cost of CCTA, Retirement, County and Debt Service without voter approval. However, any rate change on the tax rate for other purposes, above the maximum approved tax rate previously approved by voters, must be approved by City voters.

The City follows these procedures in establishing the budgetary data reflected in the financial statements for the School Department General Fund:

1. In December, the Superintendent submits recommendations based upon the budget prioritization team spending priority list to the School Board. The operating budget includes proposed expenditures and estimated revenues.
2. In December, public hearings are conducted to obtain taxpayer comments and the budget is formally approved by the School Board in January.
3. Any tax increase requested by the School Board must be submitted to the City Council during the first week of January so that they can put it on the March ballot.
4. The School Board is authorized to transfer budgeted amounts between line items, however, any revisions that alter the total expenditures in excess of total revenues plus budgeted fund balance designated for subsequent years' expenditures must be authorized by the legal voters of the City.
5. The budget that is adopted is only for the School's "General Fund". Budgets for the School's other funds were not formally adopted for the year ended June 30, 2012.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed as an extension of formal budgetary integration in any fund in the City.

C. Budgetary Basis

The general fund final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund transfers and supplemental appropriations.

D. Budget/GAAP Reconciliation

The budgetary data for the general fund is based upon accounting principles that differ from generally accepted accounting principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations of the general fund are presented in accordance with budgetary accounting principles to provide a meaningful comparison to budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

	<u>Revenues and Other Financing Sources</u>	<u>Expenditures and Other Financing Uses</u>
<u>City General Fund</u>		
Revenues/Expenditures (GAAP Basis)	\$ 54,860,286	\$ 54,315,020
Other financing sources/uses (GAAP Basis)	<u>3,364,929</u>	<u>1,589,225</u>
Subtotal (GAAP Basis)	58,225,215	55,904,245
Reverse non-budget grant revenues	(520,656)	-
Reverse non-budgeted grant expenditures	-	(720,164)
Include effect of unspent dedicated tax revenues	-	1,425,408
Recognize other timing issues	<u>(1,007,518)</u>	<u>(1,149,611)</u>
Budgetary Basis	<u>\$ 56,697,041</u>	<u>\$ 55,459,878</u>
	<u>Revenues and Other Financing Sources</u>	<u>Expenditures and Other Financing Uses</u>
<u>School General Fund</u>		
Revenues/Expenditures (GAAP Basis)	\$ 56,778,409	\$ 57,697,947
Other financing sources/uses (GAAP Basis)	<u>12,064</u>	<u>1,063,888</u>
Subtotal (GAAP Basis)	56,790,473	58,761,835
To reverse the effect of nonbudgeted State contributions for teachers retirement	(2,293,316)	(2,293,316)
Reclassify preschool charges	(721,500)	(721,500)
Adjust for transfers to City for sinking fund	<u>-</u>	<u>(348,563)</u>
Budgetary Basis	<u>\$ 53,775,657</u>	<u>\$ 55,398,456</u>

E. Excess of Expenditures Over Appropriations

Departments with expenditures exceeding appropriations during the current fiscal year were as follows:

Mayor	\$ 19,157
Voter registration	2,671
Clerk Treasurer	670,904
Attorney	8,217
Planning and zoning	26,842
Fire	488,885
Police	552,979
Library	61,054
Parks and rec	140,550
BCA	16,829
Debt service	155,848
School	<u>2,007,427</u>
Total	<u>\$ 4,151,363</u>

F. Deficit Fund Equity

The following funds had deficits as of June 30, 2012:

General fund (Unassigned)	\$ (14,982,331)
School fund (Unassigned)	(1,078,493)
Telecom fund	(15,965,723)
Wastewater fund	(380,480)
Non-major Governmental funds:	
Community and Economic Development Office	(1,134,270)
Church St.	(204,081)
Southern Connector	(923,679)
South End & Downtown Transit Centers	(17,944)
Street improvements	(977,624)
Riverside Ave. & North St.	(23,069)
Barge Canal	(16,133)
Moran Plant	(31,693)
Stormwater	(432,132)
Westlake	(11,132)
Capital software replacement	(419,060)
Other	(86,429)
Non-major Enterprise funds:	
Water	<u>(1,437,539)</u>
Total	<u>\$ (38,121,812)</u>

The City is working on a plan to address the general fund unassigned deficit and the deficit in the Telecom fund. The deficits in the other funds will be eliminated

through future departmental revenues, bond proceeds, and transfers from other funds.

3. Cash and Cash Equivalents

A. Custodial Credit Risk - Deposits

The custodial credit risk for current operating deposits is the risk that in the event of a bank failure, the City's deposits may not be recovered. The deposits in the bank in excess of the insured amount are uninsured and uncollateralized. The deposits with TD Bank at June 30, 2012 totaled \$36,611,448, of which \$34,318,948 were insured by the FDIC and FHLB Pittsburgh letter of credit for \$35,000,000. At June 30, 2012, \$2,292,501 remains uncollateralized and exposed to custodial credit risk.

4. Investments

Burlington Electric Department

A. Investments

The Department has a formal investment policy and is authorized per Article 1, Section 1.1 of the General Bond Resolution to invest in obligations as follows:

- (1) Direct obligations of the United States of America or obligations guaranteed by the United States of America.
- (2) Bonds, notes or other evidence of indebtedness issued or guaranteed by the CoBank, Federal Intermediate Credit Banks, FHLB, FNMA, GNMA, Export-Import Bank of the United States, Federal Land Banks, U.S. Postal Service, Federal Financing Bank, or any agency or instrumentality of or corporation wholly-owned by the United States of America.
- (3) New Housing Authority Bonds issued by public agencies or municipalities and fully secured by a pledge of annual contributions under annual contribution contracts with the United States or America, or Project Notes issued by public agencies or municipalities and fully secured by a requisition or payment agreement with the United States of America.
- (4) Obligations of any state, commonwealth or territory of the United States of America, or the District of Columbia, or any political subdivision of the foregoing, with an investment grade rating not lower than the three highest categories by at least one nationally recognized debt rating service.
- (5) Certificates of deposit and bankers acceptances issued by banks which are members of the FDIC and each of which has a combined capital and surplus of not less than ten million dollars, provided that the time deposits in and

acceptances of any bank under the Resolution (a) do not exceed at any time twenty-five percent of the combined capital and surplus of the bank or (b) are fully secured by obligations described in items 1, 2, 3, and 4 of this paragraph.

- (6) Repurchase contracts with banks which are described in item 5 or this paragraph, or with recognized primary dealers in government bonds, fully secured by obligations described in items 1, 2, 3, and 4 or this paragraph.

B. Concentration of Credit Risk - Investments

Concentration of credit risk of investments is the risk of loss attributable to the magnitude of a government’s investment in a single issuer. The Electric Department invests its current operating cash in three money market accounts with TD Bank and its restricted noncurrent funds in several money market accounts with its bond trustees (US Bank and Peoples United), which exceed 28% of the total investment balance at June 30, 2012. The invested balance of current money market funds at June 30, 2012 was \$9,236,286. The invested balance on noncurrent money market funds at June 30, 2012 was \$15,570,312.

C. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments that will adversely affect the fair value of an investment. The Electric Department has minimized its risk exposure as its investments are limited to government securities and other conservative investments as outlined in the investment policy.

The Electric Department’s investments as of June 30, 2012 (all of which are restricted by Bond resolution) are presented below by investment type, and debt securities are presented by maturity.

<u>Investment Type</u>	<u>Fair Value</u>
Money market	\$ 15,570,312
Certificates of deposit	<u>9,515,000</u>
Total investments	<u><u>\$ 25,085,312</u></u>

The Department is required by its bond indenture to make monthly deposits into the renewal and replacement fund equal to 10% of the monthly revenue bond debt service funding requirements. Funds on deposit may be withdrawn from the renewal and replacement fund for expenses allowed by the bond covenant. Amounts in excess of \$867,000 at June 30 may be returned to the revenue fund. A summary of deposits with bond trustees is as follows:

	<u>6/30/12</u>
Bond funds:	
Renewal and replacement fund	\$ 871,386
Debt service fund	14,662,201
Debt service reserve fund	<u>9,551,725</u>
	25,085,312
Accrued interest receivable	<u>166,408</u>
Total	<u>\$ 25,251,720</u>

Burlington Employees Retirement System

A. Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment.

Presented below is the actual rating as of year-end of the System (in thousands):

<u>Investment Type</u>	<u>Fair Value</u>
State investment pool*	\$ 124,988
Private equities	3,518
Mutual funds	3,180
Other external investment pool	<u>3,067</u>
Total investments	<u>\$ 134,753</u>

*Fair value is the same as the value of the pool share. The Vermont Pension Investment Committee (VPIC) was established by Act of the Vermont Legislature (Acts 2005, No. 215 (Adj. Sess.), as amended by Acts of 2007, No. 100 (Adj. Sess.)) to combine the assets of the State Teachers' Retirement System of Vermont, the Vermont State Employees' Retirement System, and the Vermont Municipal Employees' Retirement System for the purpose of (i) investment in a manner that is more cost and resource efficient; (ii) improving the effectiveness of the oversight and management of the assets of the Retirement Systems; and (iii) maintaining the actuarial accounting, and asset allocation integrity of the Retirement systems. Subsequent legislation (Acts of 2005, No. 50) authorized the VPIC to enter into agreements with municipalities administering their own retirement systems to invest retirement funds for those municipal plans. The VPIC is operated under contract with professional investment managers. All external investment managers shall be retained pursuant to written contracts that delineate their respective responsibilities and performance expectation and include a formal set of investment guidelines and administrative requirements for management of each portfolio. The VPIC shall retain one or more custodian bank or trust institutions to hold the VPIC portfolio. The custodian bank accounts for and assists in the settlement of all transactions executed by VPIC's investment managers and reports to the VPIC and to staff on holdings and transactions of the VPIC portfolio.

B. Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The City and System do not have policies for custodial credit risk.

Of the System's investment in Mutual Funds of \$3,180,165, Private Equities of \$3,518,200 and Pooled Funds of \$128,054,669, the System has a custodial credit risk exposure of \$134,753,034 because the related securities are uninsured, unregistered, and held by VPIC. The System manages the risk with SIPC, Excess SIPC and because the assets are held in separately identifiable trust accounts. Of the System's total exposure, \$124,988,198 is invested in the State Investment Pool.

C. Concentration of Credit Risk

The System does not have an investment in one issuer greater than 5% of total investments, with the exception of VPIC Fund.

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The System does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

E. Foreign Currency Risk

Foreign currency risk is the risk that changes in foreign exchange rates will adversely affect the fair value of an investment. The City and System do not have any such investments, or policies for foreign currency risk.

5. Taxes Receivable

The City is responsible for assessing and collecting its own property taxes as well as education property taxes for the State. Property taxes are assessed based on property valuations as of April 1, annually. Taxes are due four times per year on August 12, November 12, March 12, and June 12. Taxes unpaid after each due date are considered to be late and are subject to 1% interest added on the next day; an additional 4% interest is added after the tenth day late and an additional 1% per month thereafter. Taxes which remain unpaid ten days after the June 12 due date are delinquent and are subject to an 8% penalty and interest calculated at 12%. Unpaid

taxes become an enforceable lien on the property and such properties are subject to tax sale.

Taxes receivable at June 30, 2012 consist of the following (in thousands):

Property Taxes - 2012	\$ 532,656
Property Taxes - 2011	172,279
Property Taxes - 2010	80,586
Property Taxes - 1986-2009	793,183
Gross Receipts Taxes	403,598
Allowance for Doubtful Taxes	<u>(960,620)</u>
Total	<u>\$ 1,021,682</u>

6. User Fees Receivable

User fees receivable include amounts due from customers for electric service, rent and passenger facility charges at the airport, cable, internet and phone services, and water and sewer usage. User fees receivable are reported net of an allowance for doubtful accounts estimated at up to 30% of accounts receivable depending on the aging of the receivables. Water and sewer delinquent receivables are liened in a similar manner as property taxes, described in Note 5.

User fees receivable and related allowance for doubtful accounts at June 30, 2012 consist of the following:

	<u>Electric</u>	<u>Airport</u>	<u>Telecom</u>	<u>Wastewater</u>	Nonmajor Fund - <u>Water</u>	<u>Total</u>
Billed Service Fees	\$ 5,856,325	\$ 2,208,788	\$ 536,106	\$ 698,681	\$ 501,947	\$ 9,801,847
Allowance for Doubtful Fees	<u>(260,788)</u>	<u>(988,251)</u>	<u>(186,301)</u>	<u>(3,000)</u>	<u>(3,000)</u>	<u>(1,441,340)</u>
Total	<u>\$ 5,595,537</u>	<u>\$ 1,220,537</u>	<u>\$ 349,805</u>	<u>\$ 695,681</u>	<u>\$ 498,947</u>	<u>\$ 8,360,507</u>

7. Departmental and Other Receivables

Departmental and other receivables, as reported in the governmental funds, represent ambulance, police tickets, local option sales tax, community and economic development office receivables, and other reimbursements.

	<u>Ambulance</u>	<u>Police</u>	<u>Local Option Sales Tax</u>	<u>CEDO</u>	<u>Other</u>	<u>Total</u>
Gross	\$ 859,128	\$ 2,190,925	\$ 547,032	\$ 979,340	\$ 858,543	\$ 5,434,968
Less: Allowance for doubtful accounts	<u>(497,875)</u>	<u>(1,600,000)</u>	<u>-</u>	<u>-</u>	<u>(71,099)</u>	<u>(2,168,974)</u>
Total	<u>\$ 361,253</u>	<u>\$ 590,925</u>	<u>\$ 547,032</u>	<u>\$ 979,340</u>	<u>\$ 787,444</u>	<u>\$ 3,265,994</u>

8. Intergovernmental Receivables

This balance represents reimbursements requested from Federal and State agencies for expenditures incurred in fiscal 2012.

	<u>Governmental Funds</u>	<u>Enterprise Funds</u>	<u>Total</u>
School Tuition	\$ 204,433	\$ -	\$ 204,433
School Grants	279,280	-	279,280
School Other	3,335	-	3,335
Stormwater Grants	80,143	-	80,143
Capital Project Grants	1,048,522	-	1,048,522
Other	320	-	320
Airport Improvements	-	3,347,650	3,347,650
School Food Service	-	<u>303,179</u>	<u>303,179</u>

9. Notes and Loans Receivables

The City, through various state and federal grant programs, has extended loans for the development or rehabilitation of residential and commercial properties within the City and small business loans for new Burlington businesses. The repayment terms of these loans and interest rates all vary and are contingent on numerous factors outside of the control of the City, such as the financial viability of the projects. It is the City's policy to recognize the grant revenues when the loans are repaid.

The following is a summary of the major components of notes, loans, and accrued interest receivables at June 30, 2012:

	Governmental <u>Funds</u>	Enterprise <u>Funds</u>
Interest free HODAG loan receivable for Riverside Avenue and Salmon Run dated October 16, 2009 maturing on October 16, 2039.	\$ 2,750,000	\$ -
Less: allowance for doubtful accounts	(2,750,000)	-
CEDO loans receivable represent loans under Housing and Urban Development programs.	8,225,490	-
Less: allowance for doubtful accounts	(4,684,650)	-
Burlington Electric Department notes receivable from Winooski One Partnership.	<u>-</u>	<u>1,203,183</u>
Total notes and loans receivable	<u>\$ 3,540,840</u>	<u>\$ 1,203,183</u>

10. Capital Lease Receivable - BCDC

The Burlington Community Development Corporation (BCDC) has various receivables on outstanding development or rehabilitation of properties within the City from new businesses. The repayment terms vary and are contingent on numerous factors outside the control of the City.

The following is a summary of the major components of capital lease receivables for BCDC at June 30, 2012:

	Component <u>Unit</u>
BCDC capital lease receivable from Westlake Parking, LLC dated 7/26/2007. The annual lease payment is \$72,000, including interest at 7% annually, maturing on 7/26/2026 with a lump sum payment of \$448,000. The lease requires an annual contribution of \$6,000 to a capital reserve fund.	\$ 818,146
BCDC 1993 relief bond receivables (3) from Champlain Housing Trust Corporation, offset by bond payable. The total quarterly payments are \$21,588 including interest rates between 3.25% - 4.00%, maturing in February 2022.	838,274
BCDC Multi-generational bond receivable from Champlain Housing Trust Corporation, offset by bond payable. The monthly payment is \$1,879, maturing on June 1, 2015.	<u>251,292</u>
Total capital leases receivable	1,907,712
Less: amount due within one year	<u>(82,922)</u>
Capital leases receivable, net of current portion	<u>\$ 1,824,790</u>

Expected future receipts of BCDC's lease receivables are as follows:

<u>Fiscal</u> <u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 82,922	\$ 97,969	\$ 180,891
2014	86,522	94,371	180,893
2015	309,354	90,599	399,953
2016	82,382	75,963	158,345
2017	85,920	72,427	158,347
2018-2022	645,980	301,328	947,308
2023-2027	<u>614,632</u>	<u>193,368</u>	<u>808,000</u>
Total	\$ <u>1,907,712</u>	\$ <u>926,025</u>	\$ <u>2,833,737</u>

11. Interfund Fund Receivables/Payables

Although self-balancing funds are maintained, most transactions flow through the general fund. In order to obtain accountability for each fund, interfund receivable and payable accounts must be utilized. The following is an analysis of the June 30, 2012 balances in interfund receivable and payable accounts:

<u>Fund</u>	<u>Due From</u> <u>Other Funds</u>	<u>Due To</u> <u>Other Funds</u>
General Fund	\$ -	\$ 9,925,987
School Fund	6,708,961	-
Airport Fund	52,908	1,112,299
Telecom Fund	302,716	-
Wastewater Fund	-	50,858
Pension Trust Fund	1,131,045	-
Private Purpose Trust Funds	32,076	-
Other Nonmajor Funds:		
Traffic Fund	267,443	52,908
Community and Economic Development Office Fund	-	941,548
Housing Trust Fund	270,287	-
Tax Increment Financing Fund	923,736	-
Stormwater Fund	162,297	-
Church Street Marketplace Fund	-	158,455
Mary E. Waddell Fund	13,886	-
Southend/Downtown Transit Center Funds	-	6,281
Fuel Depot Fund	24,038	-
Street Improvements Fund	56,819	687,598

(continued)

(continued)

<u>Fund</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
Riverside Ave. & North Street Fund	25,000	23,069
Barge Canal Pond Fund	-	56,126
Moran Plant Fund	-	6,701
Capital Software Replacement	-	376,658
School Capital Fund	1,531,984	-
City Other Capital Fund	15,732	14,950
Cemetery Trust Fund	1,024,307	-
Loomis Library Fund	10,948	-
Lolita Deming	11,217	-
WEZF 93 FS DARE Fund	2,236	-
School Food Service Fund	812,589	-
School Other Enterprise Funds	33,213	-
Total	<u>\$ 13,413,438</u>	<u>\$ 13,413,438</u>

The composition of Advances To/From Other Funds (amounts considered to be long-term) as of June 30, 2012 is as follows:

<u>Fund</u>	<u>Advances to Other Funds</u>	<u>Advances from Other Funds</u>
General Fund	\$ 22,763,234	\$ -
Telecom Fund	-	16,936,492
Wastewater Fund	-	1,318,620
Water Fund	-	2,245,679
Southern Connector Fund	-	628,364
Stormwater Upgrade fund	-	432,132
Westlake Fund	-	564,808
Community and Economic Development Office Fund	-	550,000
City Other Capital Fund	-	87,139
Total	<u>\$ 22,763,234</u>	<u>\$ 22,763,234</u>

The City reports interfund transfers between many of its funds. The sum of all transfers presented in the table agrees with the sum of interfund transfers presented in the governmental and proprietary fund financial statements. The following is an analysis of interfund transfers made in fiscal year 2012:

<u>Governmental Funds:</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Major Funds:		
General Fund	\$ 272,226	\$ 1,589,225
School	62,926	1,067,281
Nonmajor Funds:		
Special Revenue Funds:		
Traffic commission	310,000	-
Community and economic development	325,054	-
Housing trust	191,888	-
Capital Project Funds:		
Southern connector	13,618	-
Street improvements	380,523	-
Other capital projects	10,213	-
Debt Service Fund	1,064,339	-
Permanent Funds:		
Cemetery	-	28,987
Loomis library	-	22
	<hr/>	<hr/>
Subtotal Nonmajor Governmental Funds	2,295,635	29,009
<u>Business-Type Funds:</u>		
Wastewater fund	-	30,072
Nonmajor Funds:		
Water fund	-	14,700
School food service	99,500	-
	<hr/>	<hr/>
Subtotal Nonmajor Business-Type Funds	99,500	14,700
Grand Total	\$ <u><u>2,730,287</u></u>	\$ <u><u>2,730,287</u></u>

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs and accounted for in other funds in accordance with budgetary authorizations.

12. Capital Assets

Capital asset activity for the City's Governmental and Business-Type Activities, as well as each enterprise fund, for the year ended June 30, 2012 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 15,932,130	\$ -	\$ -	\$ 15,932,130

Certain amounts in the beginning balance column have been reclassified from amounts reported in the 2011 financial statements.

At June 30, 2012, approximately \$451,200 and \$0 in assets were acquired through existing capital leases for governmental and business type activities, respectively. These assets are included in vehicles, machinery, equipment and furniture. The amortization on these assets is included with depreciation.

Depreciation expense was charged to functions of the City as follows:

Governmental Activities:	
General government	\$ 277,644
Public safety	933,370
Public works	3,962,246
Community Development	4,275
Culture and recreation	1,194,189
Education	<u>1,310,768</u>
Total depreciation expense - governmental activities	<u>\$ 7,682,492</u>

13. Deferred Charges

Deferred Charges represent unamortized bond issue costs and various other Burlington Electric Department's accounts. Amounts deferred at June 30, 2012 are comprised of the following:

	<u>Governmental Activities</u>	<u>Electric Fund</u>	<u>Airport Fund</u>	<u>Total Enterprise Funds</u>
Unamortized bond issue costs	\$ 620,250	\$ 1,476,514	\$ 1,034,334	\$ 3,131,098 ^(A)
Deferred depreciation expense to be recovered in future years	-	2,328,993	-	2,328,993
Unamortized costs of demand side management (DSM)	-	1,856,490	-	1,856,490
Loss on transfer of Moran Station	-	410,928	-	410,928
Costs associated with Chace Hydro	-	894,311	-	894,311
Deferred VPSB accounting orders	-	801,397	-	801,397
Deferred prepayments	-	20,788	-	20,788
Total	\$ 620,250	\$ 7,789,421	\$ 1,034,334	\$ 9,444,005

^(A) Considered current as the City will implement GASB 63 in fiscal year 2013.

A. Unamortized Bond Issue Costs

The City has deferred charges resulting from the cost of issuing new debt. Consistent with the rate-making treatment, such deferred charges are being amortized using the sinking fund method as they are recovered through rates over the terms of the related debt. In 2012, the City incurred additional bond issuance costs in the amount of \$38,308, while Burlington Electric Department incurred additional costs of \$454,411. Amortization of debt issuance costs was \$156,593 and \$146,946 for the years ended June 30, 2012 and 2011, respectively.

B. Unamortized Costs of Demand Side Management (DSM)

In March 1990, the voters of the City of Burlington approved an \$11,300,000 bond issue to fund DSM programs. In October 1992, the Department issued revenue bonds of \$40,900,000, of which \$11,300,000 was designated to finance the costs of these programs.

The costs of these programs have been deferred. Consistent with the rate-making treatment, the Department is amortizing and recovering these costs through rates over the life of the long-term bonds and the related debt service. Amortization was \$156,593 and \$250,546 for the years ending June 30, 2012 and 2011, respectively. On December 31, 2002, the Department discontinued its deferral of new costs incurred for its demand side management programs as a statewide energy efficiency charge (EEC), billable to Department customers, went into effect January 1, 2003. Accordingly, future program costs incurred are charged directly to expense. The Department is allowed reimbursement for these program costs from the EEC up to 100% of the aggregate amount billed to its customers.

C. Loss on Transfer of Moran Station

The Moran Station was deactivated in 1986. The undepreciated costs of the plant are being amortized and recovered through rates over the remaining life of the outstanding bonds that were issued to finance improvements to the Station. Amortization was \$471,226 and \$443,968 for the years ending June 30, 2012 and 2011, respectively.

D. Costs Associated with Chace Hydro

In December 1991, the Electric Department entered into an agreement with Winooski One Partnership (WIP), a Vermont General Partnership, whereby WIP constructed and maintains Chace Hydro, a hydroelectric generating station built on Department-owned land on the Winooski River. The costs associated with Chace Hydro are being amortized and recovered through rates over the life of the outstanding bonds which were issued to finance the Department's interest in the project. Amortization was \$127,499 and \$120,693 for the years ending June 30, 2012 and 2011, respectively.

E. Deferred-VPSB Accounting Orders

In 2012, the Electric Department obtained an accounting order from the VPSB approving the deferral of its 50% joint ownership share of the costs incurred related to the 2011 McNeil Station turbine overhaul. The total deferred cost was \$934,044 and will be amortized over 84 months beginning July 2011. Amortization expense related to the deferred overhaul charges was \$133,647 for 2012, and has been reported as a component of production expense.

During 2005, the Electric Department obtained two accounting orders from the VPSB enabling the Department to defer certain costs incurred during the period in which the cost will be recovered through future rates. The first order approved by the VPS was for the deferral of rate design expenses incurred by the Department and the second accounting order approved the deferral of the Department's 50% joint ownership share of the costs incurred related to the McNeil Station turbine overhaul. At June 30, 2012, both amounts have been fully amortized. Amortization expense related to these deferred costs was \$0 and \$246,546 for the years ending June 30, 2012 and 2011, respectively.

14. Accounts Payable and Accrued Expenses

Accounts payable represent 2012 expenditures paid on or after July 1, 2012.

15. Deferred Revenue

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

The balance of the General Fund *deferred revenues* account is equal to the total of all June 30, 2012 receivable balances, except certain receipts that were received within 60 days of the end of the year.

16. Anticipation Notes Payable

The City had the following notes outstanding at June 30, 2012:

	<u>Interest Rate</u>	<u>Date of Issue</u>	<u>Date of Maturity</u>	<u>Balance at 6/30/12</u>
Bond anticipation notes:				
General fund capital	variable	6/25/2012	11/30/2012	\$ 1,000,000 ^(A)
Electric fund capital	variable	6/25/2012	11/30/2012	2,000,000 ^(A)
Airport fund - garage	6.50%	6/27/2011	12/1/2012	<u>12,000,000</u>
Total bond anticipation notes				<u>15,000,000</u>
Revenue anticipation notes:				
Electric fund	variable	2/1/2012	1/30/2013	<u>3,500,000</u>
Total revenue anticipation notes				<u>3,500,000</u>
Grant anticipation notes:				
Airport fund - AIP	variable	8/18/2011	12/31/2012	<u>819,000</u>
Total grant anticipation notes				<u>819,000</u>
Total notes outstanding				<u>\$ 19,319,000</u>

^(A) The City recognizes these as long-term notes as they were permanently financed in October 2012.

The following summarizes activity in bond anticipation notes (BANS) and lines of credit (LOC) during fiscal year 2012:

<u>Note</u>	<u>Balance Beginning of Year</u>	<u>New Issues</u>	<u>Maturities</u>	<u>Balance End of Year</u>
BAN - General fund	\$ 5,015,000	\$ -	\$ (5,015,000)	\$ -

GAN - Airport (LOC)	-	2,494,021	(1,675,021)	819,000
BAN - General fund	-	1,000,000	-	1,000,000
BAN - BED	-	2,000,000	-	2,000,000
Total	<u>\$ 28,015,000</u>	<u>\$ 56,576,747</u>	<u>\$ (65,272,747)</u>	<u>\$ 19,319,000</u>

17. Long-Term Obligations – City of Burlington

A. Types of Long-Term Obligations

General Obligation Bonds. The City issues general obligation bonds to provide resources for the acquisition and construction of major capital facilities and to refund prior bond issues. General obligation bonds have been issued for both governmental and proprietary activities. Bonds are reported in governmental activities if the debt is expected to be repaid from governmental fund revenues and in business-type activities if the debt is expected to be repaid from proprietary fund revenues.

General obligation bonds are direct obligations and pledge the full faith and credit of the City.

No-Interest Revolving Loans. The State of Vermont offers a number of no-interest revolving loan programs to utilize for predetermined purposes. Two of the five no-interest loans do charge a 2% administration fee. The City has borrowed money from the Vermont Special Environmental Revolving Fund for sewer stormwater projects. These bonds are both general obligation and revenue supported bonds.

Revenue Bonds - The City issues bonds where the City pledges income to pay the debt service. Revenue bonds are reported in business type activities only because the debt is expected to be repaid from proprietary fund revenues.

Certificates of Participation - The City enters into agreements for the purpose of financing the acquisition and/or renovation of land and buildings. These agreements qualify as long-term debt obligations for accounting purposes (even though they include clauses that allow for cancellation of the certificate of participation in the event the City does not appropriate funds in future years). The Certificates of Participation are reported in governmental activities because all of the debt is expected to be repaid from general governmental revenues.

Other Notes Payable - The City has other notes payable to finance various capital projects through local banks and U.S. Government agencies.

Capital Lease Obligations. The City enters into lease agreements as the lessee for the purpose of financing the acquisition of major pieces of equipment. These lease agreements qualify as capital lease obligations for accounting purposes (even though they include clauses that allow for cancellation of the lease in the event the City does not appropriate funds in future years) and, therefore, have been recorded at the present value of the future minimum lease payments as of the inception date of the leases. Leases are reported in governmental activities if the debt is expected to be repaid from general governmental revenue and in business-type activities if the debt is expected to be repaid from proprietary fund revenues.

Compensated Absences - It is the policy of the City to permit certain employees to accumulate earned but unused benefits. The City, excluding the School Fund, allows employees to carryover up to 360 hours of vested vacation time to the next fiscal year. The City also allows all employees hired prior to July 1, 2000 to carryover the lesser of 25% of their sick leave balance or 120 hours. City employees hired after July 1, 2000 may carryover earned sick leave balances; however, it is not a vested benefit upon termination. The School Fund allows certain employees to carryover up to 80 hours vested vacation time. The School Fund also allows sick leave to be vested upon reaching certain plateaus, depending on the individual contract. The School has made the assumption that the employee will likely reach the eligibility threshold once they are within three (3) years of the actual vesting date. The accrual for unused compensated absences time, based on current pay rates, is recorded in the government-wide financial statements and proprietary fund financial statements.

Unamortized Premiums, Discounts, Issue Costs, and Refunding Losses

Debt premiums, discounts, issue costs, and refunding losses incurred in connection with the sale of bonds are amortized over the terms of the related debt. Unamortized balances are included as a component of long-term debt.

Other Post-employment Benefits

The City has recorded a liability for the governmental activities in the government-wide financial statements and in the individual enterprise funds and for the business-type activities in the government-wide financial statements which represent their actuarially determined costs for post-employment benefits. These costs relate to subsidized health care and life insurance for retirees during the period from retirement to the date of eligibility for social security benefits.

Compensated Absences and Post-employment Benefits are paid by the applicable fund where the employee is charged. Insurance Reserves are generally liquidated by the General Fund. Landfill Post-Closure Liabilities have been liquidated by the Wastewater Fund.

A detailed listing of the general obligation bonds and other notes payable expected to be repaid by governmental funds are as follows:

<u>Governmental Activities:</u>	<u>Serial</u>	<u>Interest</u>	<u>Amount</u>	<u>Amount</u>

18. Capital Lease Obligations

The City is the lessee of certain equipment under capital and operating leases expiring in various years through 2020. Future minimum lease payments under the capital and operating leases consisted of the following as of June 30, 2012:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Capital lease for equipment. The rental payments are to be made in equal monthly installments of \$2,561 including interest at 3.69% annually, maturing on April 27, 2015.	\$ 82,561	\$ -
Capital lease for garage equipment. The rental payments are to be made in equal monthly installments of \$12,380 including interest at 4.3601% annually, maturing on June 29, 2017.	55,527	-
Capital lease for vehicles for the following departments: water, traffic, police, public works, parks and recreation, and wastewater. The rental payments are to be made in equal monthly installments of \$27,510 including interest at 3.83% annually, maturing on October 23, 2013.	367,180	61,276
Capital lease for various equipment for the following departments: water, traffic, airport, public works, police, parks and recreation, and human resources. The rental payments are to be made in equal monthly installments of \$27,008 including interest at 3.19% annually, maturing on July 6, 2014.	318,699	333,737
Capital lease for various equipment for the following departments: wastewater, traffic, airport, public works, information technology, police, parks and recreation, fire, and marketplace. The rental payments are to be made in equal semiannual installments of \$259,908 including interest at 2.29% annually, maturing on December 25, 2014.	612,879	639,969
Capital lease for airport equipment. The rental payments are to be made in equal semiannual installments of \$86,730 including interest at 3.214% annually, maturing on June 26, 2020.	-	1,213,771
Capital lease for accounting software, police cars, public works vehicles, office equipment, mowers, tractors, backhoe, and zamboni. The rental payments are to be made in equal semiannual installments of \$120,160 including interest at 1.96% annually, maturing on November 18, 2016.	959,001	71,301
Capital lease for recycling equipment. The rental payments are to be made in equal annual installments of \$96,147 including interest at 3.43% annually, maturing on March 9, 2016.	353,742	-
Total capital lease obligations	<u>2,749,589</u>	<u>2,320,054</u>
Less: amount due within one year	<u>(993,855)</u>	<u>(621,896)</u>

19. Long-Term Obligations – BCDC

A. Notes Payable

The Burlington Community Development Corporation (BCDC) has various loans outstanding as follows:

	Component <u>Unit</u>
TD Bank (Gilbane Property) Note secured by the mortgage on the property. The terms require annual payment of \$33,483 for 15 years with an interest rate of 6.25% maturing in October 2025.	\$ 300,818
People's United Bank notes offset by notes receivable from Champlain Housing Trust Corporation. The terms require annualized payment of \$27,639 for 10 years with an interest rate of 3.75% maturing in November 2020.	251,292
Union Bank Note (refinanced previous VEDA Loan) requiring annual payment of \$217,818 for 20 years with an interest rate of 4.09% maturing in November 2020. A balloon payment of \$1,803,380 is due at maturity.	2,804,681
BCDC 1993 Relief Bonds terms require annual payments of \$86,352 with an interest rate ranging between 3.25% - 4.00% maturing in February 2022.	838,274
Swap Terminator Fee Loan (related to above noted VEDA refinancing) terms require annual payment of \$38,333 for 10 years with an interest rate of 3.75% maturing in November 2020.	<u>531,731</u>
Total Notes Payable	<u>\$ 4,726,796</u>

B. Future Debt Service

The annual payments to retire BCDC's notes payable outstanding as of June 30, 2012 are as follows:

Fiscal Year	Principal	Interest	Total
2013	\$ 206,402	\$ 192,123	\$ 398,525
2014	215,014	183,512	398,526
2015	443,059	174,527	617,586
2016	221,195	154,787	375,982
2017	230,668	145,313	375,981
2018 - 2022	3,310,104	445,460	3,755,564
2023 - 2027	<u>100,354</u>	<u>10,942</u>	<u>111,296</u>
Total	\$ <u>4,726,796</u>	\$ <u>1,306,664</u>	\$ <u>6,033,460</u>

C. Due to Primary Government

	Component Unit
BCDC borrowed \$1,400,000 from the Airport Enterprise fund to assist in financing construction of the Aviation Support Hanger. The terms require annual payments of \$93,172 for 20 years with an interest rate of 3%, maturing in June 2026.	\$ 1,064,056
BCDC owes the City (the Primary Government) for its share of the Westlake Parking Garage. The terms requires annual payment of at least \$72,000 with an interest rate of 2.3%, maturing in December 2020.	<u>551,517</u>
Subtotal	1,615,573
Due to City for negative cash position	<u>34,075</u>
Total Due to Primary Government	\$ <u>1,649,648</u>

D. Future Debt Service

The annual payments to retire the amounts that BCDC owes to the City (the Primary government) are as follows:

Fiscal Year	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2013	\$ 121,479	\$ 43,693	\$ 165,172
2014	124,800	40,373	165,173
2015	128,213	36,959	165,172
2016	131,720	33,453	165,173
2017	135,324	29,848	165,172
2018-2022	623,252	93,202	716,454
2023-2027	<u>350,785</u>	<u>21,907</u>	<u>372,692</u>
Total	\$ <u>1,615,573</u>	\$ <u>299,435</u>	\$ <u>1,915,008</u>

20. **Governmental Funds - Balances**

Fund balances are segregated to account for resources that are either not available for expenditure in the future or are legally set aside for a specific future use.

The City has implemented GASB Statement No. 54 (GASB 54), *Fund Balance Reporting and Governmental Fund Type Definitions*, which enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying existing governmental fund type definitions.

The following types of fund balances are reported at June 30, 2012:

Nonspendable - Represents amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. This fund balance classification includes general fund reserves for prepaid expenditures and nonmajor governmental fund reserves for the principal portion of permanent trust funds.

Restricted - Represents amounts that are restricted to specific purposes by constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation. This fund balance classification includes general fund encumbrances funded by bond issuances, various special revenue funds, and the income portion of permanent trust funds.

Committed - Represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City's highest level of decision-making authority, the City Council. This fund balance classification includes general fund encumbrances for non-lapsing, special article appropriations approved at City Council meetings, capital reserve funds set aside by City Council vote for future capital acquisitions and improvements (now reported as part of the general fund per GASB 54), and various special revenue funds.

Assigned - Represents amounts that are constrained by the City's intent to use these resources for a specific purpose. This fund balance classification includes general fund encumbrances that have been established by various City departments for the expenditure of current year budgetary financial resources upon vendor performance in the subsequent budgetary period.

Unassigned - Represents amounts that are available to be spent in future periods.

Following is a breakdown of the City's fund balances at June 30, 2012:

	General <u>Fund</u>	School <u>Fund</u>	Nonmajor Governmental <u>Funds</u>	Total Governmental <u>Funds</u>
Nonspendable				
Inventory and prepaid expenditures	\$ 368,916	\$ 19,200	\$ 200,466	\$ 588,582

21. Restricted Net Assets

The accompanying entity-wide financial statements report restricted net assets when external constraints from grantors or contributors are placed on net assets.

Permanent fund restricted net assets are segregated between nonexpendable and expendable. The nonexpendable portion represents the original restricted principal contribution, and the expendable represents accumulated earnings which are available to be spent based on donor restrictions.

22. Subsequent Events

Debt

Subsequent to June 30, 2012, the City has incurred the following additional debt: In October 2012, the City issued \$11,250,000 in General Obligation Public Improvement Bonds for the purpose of (1) financing City street repairs and capital improvements, (2) financing certain capital improvements for the City's Electric Department, (3) and refunding the City's \$3,000,000 General Obligation Bond Anticipation Notes, Series 2010C due on August 10, 2012.

In November 2012, the City's Airport Enterprise Fund issued \$24,880,000 in Airport Revenue Refunding Bonds for the purpose of (1) currently refunding the City's \$12,000,000 Subordinate Airport Improvement Bond Anticipation Note, Series 2011, issued for the interim financing of the expansion of the Airport's parking garage, (2) currently refund all of the City's outstanding (i) Airport Revenue Bonds, Series 1997A, Series 1997B and Series 2000, (3) fund the Debt Service Reserve Funds with respect to the Series 2012 Bonds and (4) pay the cost of issuance associated with the Series 2012 Bonds.

In November 2012, the City Authorized a \$9,000,000 Fiscal Stability Bond. The City expects this bond to be issued in March 2013.

Since June 30, 2012, the City has re-authorized the following Revenue Anticipation Notes and Line of Credit:

- \$16,000,000 Tax anticipation note
- \$2,000,000 Airport general revenue anticipation note
- \$3,000,000 Airport grant anticipation note

23. Retirement System

The City follows the provisions of GASB Statement No. 27, *Accounting for Pensions for State and Local Government Employees*, (as amended by GASB 50) with respect to the employees' retirement funds.

A. Plan Description and Contribution Information

The City maintains a single employer defined benefit pension plan covering substantially all of its employees except elective officials, other than the mayor, and the majority of the public school teachers, who are eligible for the Vermont State Teacher's Retirement System. The plan is broken down into Class A participants and Class B participants. Class A participants are composed of firemen and policemen. Class B participants include all other covered City employees. The City's total covered payroll, except for school teachers, was \$43,865,945. The System does not issue a stand-alone financial report.

Class A participants vest 20 percent after three years of creditable service, and 20 percent for each year thereafter until they are 100 percent vested after 7 years of creditable service. The normal benefit is payable commencing at age 55 or with 25 years of service. Class A participants who retire at or after age 55 with 7 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2.75 percent of their average final compensation (AFC) during the highest three non-overlapping twelve-month periods (five years for certain non-union police employees) times creditable service not in excess of 25 years plus .5 percent of the AFC times years of creditable service between 25 and 35 years, prior to age 60 and a yearly COLA based on CPI. Class A retirees could alternatively elect to choose an accrual rate of 3.25% and one-half the yearly COLA, or an accrual rate of 3.8% (3.6% for service from July, 2006 forward) and no COLA. The half and no COLA options have been eliminated for new policemen hired after July 1, 2006 and new firemen hired after January 1, 2007. Also, these new hires have a 2.65 percent accrual rate only. Employees may retire prior to age 55 and receive reduced retirement benefits. Class A employees have unreduced benefits after 25 years of service, regardless of age.

Class A participants contribute 10.8 percent of earnable compensation for the first 35 years of creditable service and then none thereafter. Class A employees do not contribute to the social security retirement system.

All eligible City Class B employees vest 20 percent after three years of creditable service, and 20 percent for each year thereafter until they are 100 percent vested after 7 years of creditable service. Class B participants who retire at or after age 65 are entitled to a retirement benefit, payable monthly for life, equal to 1.60 percent of AFC (at age 65) during the highest three non-overlapping twelve-month periods times creditable service at age 65 not in excess of 25 years plus .5 percent of AFC times creditable service at age 65 in excess of 25 years and a yearly COLA based on the CPI. Class B retirees could alternatively elect to choose an accrual rate of 1.9% for service up to June 30, 2006 and 1.8% thereafter and one half the yearly COLA, or an accrual rate of 2.2% for service up to June 30, 2006 and 2.0% thereafter and no COLA. The half and no COLA options have been eliminated for new hires after January 1, 2006 and they are only entitled to a 1.4% accrual rate. Employees may retire prior to age 65 and receive reduced retirement benefits. Creditable service or an actuarial increase is used after age 65. Class B participants contribute 3% of earnable compensation until they reach 35 years of creditable service and none thereafter.

The system also provides accidental and line of duty death benefits for Class A participants, and disability and survivor income benefits for both Class A and Class B participants. The benefits are changed by negotiation and by the Retirement Board with budgetary approval by the City Council.

There are 172 active members and 151 retirees and beneficiaries in Class A and 672 active members and 366 retirees and beneficiaries in Class B. Additionally, there are 372 former Class A and Class B employees with vested rights.

It is the policy of the City of Burlington to fund, by actuarially determined periodic contributions, the normal cost of the Plan plus a provision for amortization of past service cost over a thirty (30) year period from date of establishment. The contribution rate for normal cost is determined using the projected unit credit cost method with costs allocated based on earnings of plan members. The City funded one-hundred percent (100%) of the annual required contribution in 2012. The cumulative net pension obligation as of June 30, 2012 is \$1,799,371 which is being amortized over thirty (30) years with interest at eight percent (8%). The City's Schedule of Employer Contributions is as follows:

Schedule of Employer Contributions:

<u>Year Ended June 30</u>	<u>Annual Required Contribution</u>	<u>Actual Contribution</u>	<u>Percentage Contributed</u>
2012	\$ 7,547,910	\$ 7,547,954	100%
2011	\$ 6,778,735	\$ 6,779,226	100%
2010	\$ 5,728,980	\$ 5,752,571	100%
2009	\$ 5,798,294	\$ 5,875,295	101%
2008	\$ 5,978,195	\$ 5,719,282	96%
2007	\$ 5,514,753	\$ 6,241,147	113%

B. Summary of Significant Accounting Policies

Basis of Accounting - Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments - Investments are reported at fair value.

C. Funding Status and Funding Progress

The information presented below is from the Burlington Employee Retirement System's most recent valuation (in thousands):

<u>Actuarial Valuation Date</u>	<u>Actuarial Value of Assets (a)</u>	<u>Actuarial Accrued Liability (AAL) - Entry Age (b)</u>	<u>Unfunded AAL (UAAL) (b-a)</u>	<u>Funded Ratio (a/b)</u>	<u>Covered Payroll (c)</u>	<u>UAAL as a Percent- age of Covered Payroll [(b-a)/c]</u>
6/30/2012	\$ 137,838,546	\$ 196,445,981	\$ (58,607,435)	70.2%	\$ 43,865,945	133.6%

The Schedule of Funding Progress following the notes to the financial statements presents multi-year trend information about the actuarial value of plan assets relative to the actuarial accrued liability for benefits.

D. Actuarial Methods and Assumptions

The total annual required contribution (ARC) to the system for 2012 was \$7,547,910 which was computed through an actuarial valuation performed as of June 30, 2012. All funds contributed approximately 12.24% percent of current covered payroll. The Electric Department also pays additional amounts based on exposure and past service.

The system uses the level percentage of payroll method to amortize the unfunded accrued liability over a thirty (30) year period from date of establishment. The significant actuarial assumptions used to compute the actuarially determined contribution requirement are as follows:

Valuation Method	Five year expected average market value method
Actuarial Cost Method	Projected unit credit cost
Interest rate	8%
Salary increases	Range of 8.8% at age 25 to 3.89% at age 69
Inflation rate	3%

E. Teachers

All School Department employees with proof of certification are eligible for participation in the Vermont State Teacher's Retirement System, at either the Class A or Class C level. The system is funded 100 percent by the State of Vermont. Employees participating in the Class A level contribute 5.5 percent and Class C employees contribute 5.0 percent of the total gross wages through a payroll deduction plan. The School has no liability to the system. The premise of this plan is to provide a retirement plan covering teachers at a uniform state-wide contribution rate based upon an actuarial valuation of all State of Vermont teachers. Activity in these plans is done in the aggregate, not by school district. Due to the nature of these plans, net assets available for benefits as well as present value of vested and non-vested plan benefits by district are not determinable.

The State makes retirement contributions of approximately 7.74% of all eligible covered salaries on-behalf of the School District. The Schools' estimated eligible covered payroll was \$29,629,406 resulting in an estimated \$2,293,316 of on-behalf payments. This amount is included as revenue and as an expense. Additional information regarding the Vermont State Teacher's Retirement system can be obtained from the State of Vermont.

24. Post-Employment Healthcare and Life Insurance Benefits

Other Post-Employment Benefits

GASB Statement 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*, requires governments to account for other post-employment benefits (OPEB), primarily healthcare, on an accrual basis rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Assets over time.

A. Plan Description

In addition to providing the pension benefits described, the City provides post-employment healthcare and life insurance benefits for retired employees through the City and School's plan. The School Department pays for half of the cost of health benefits to retired educators with 15 years of service until they reach the age of 62. The School Department also pays for half of the cost of health benefits for administrative assistants who have 15 years of service with the Department and have reached the age of 55. There are 536 active members and 41 retirees and beneficiaries as of June 30, 2010, the date of the last actuarial valuation.

The City provides post-employment health benefits to all eligible unionized Class A employees. This amount is funded monthly by the Retirement Fund and is equal to 1% of each employee's gross pay. The expense for the year ended June 30, 2012 was \$359,232. Contributions prior to 1998 for current employees are being held in the Retirement Fund and shown as a liability. All other contributions after 1998 are being sent to and administered by Nationwide Retirement Solutions. As employees leave employment with the City, the Retirement Fund forwards the money to Nationwide Retirement Solutions. The Retirement Fund has guaranteed an earnings rate of 8% but assumes no other liability.

In addition, the City allows certain retired employees to purchase health insurance through the City at the City's group rates. GASB No. 45 recognizes this as an implied subsidy and requires accrual of this liability.

B. Benefits Provided

The City provides medical, prescription drug, mental health/substance abuse and life insurance to retirees and their covered dependents. All active employees who retire from the Town and meet the eligibility criteria may receive these benefits.

C. Funding Policy

Retirees contribute various amounts of the cost of the health plan, as determined by the City. The City contributes the remainder of the health plan costs on a pre-funded basis.

D. Annual OPEB Costs and Net OPEB Obligation

The City's fiscal 2012 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The City has elected not to pre-fund OPEB liabilities. The following table shows the components of the City's annual OPEB cost for the year ending June 30, 2012, the amount actually contributed to the plan, and the change in the

City's net OPEB obligation based on an actuarial valuation as of June 30, 2011 for the City and June 30, 2012 for the School District.

	<u>City</u>	<u>School Department</u>	<u>Total</u>
Annual Required Contribution (ARC)	\$ 359,232	\$ 231,880	\$ 591,112
Interest on net OPEB obligation	36,500	27,664	64,164
Adjustment to ARC	<u>(30,433)</u>	<u>(23,976)</u>	<u>(54,409)</u>
Annual OPEB cost	365,299	235,568	600,867
Contributions made	<u>(118,314)</u>	<u>(62,814)</u>	<u>(181,128)</u>
Increase in net OPEB obligation	246,985	172,754	419,739
Net OPEB obligation - beginning of year	<u>1,140,113</u>	<u>1,037,112</u>	<u>2,177,225</u>
Net OPEB obligation - end of year ⁽¹⁾	<u>\$ 1,387,098</u>	<u>\$ 1,209,866</u>	<u>\$ 2,596,964</u>

⁽¹⁾\$259,123 of the Net OPEB obligation relates to Burlington Electric Department, but is not recorded on their Statement of Net Assets as it is deemed immaterial.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

<u>Fiscal year ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
Combined City and School Plan:			
2012	\$ 600,887	30.1%	\$ 2,596,964
2011	580,995	31.2%	2,177,225
2010	560,368	11.7%	1,777,358
2009	689,360	3.7%	1,282,664
2008	666,054	5.1%	618,796
City Plan:			
2012	\$ 365,319	32.4%	\$ 1,387,098
2011	345,427	34.3%	1,140,113
2010	324,800	0.8%	913,000
2009	306,048	0.9%	591,000
2008	303,548	0.9%	287,452
School Department Plan:			
2012	\$ 235,568	26.7%	\$ 1,209,866
2011	235,568	26.7%	1,037,112
2010	235,568	26.7%	864,358
2009	383,312	6.0%	691,664
2008	362,506	8.6%	331,344

E. Funded Status and Funding Progress

The funded status of the plan as of the date of the most recent actuarial valuation (City’s valuation June 30, 2011, School’s valuation June 30, 2012) was as follows:

	<u>City</u>	<u>School Department</u>	<u>Total</u>
Actuarial accrued liability (AAL)	\$ 3,593,453	\$ 2,365,074	\$ 5,958,527
Actuarial value of plan assets	-	-	-
Unfunded actuarial accrued liability (UAAL)	<u>\$ 3,593,453</u>	<u>\$ 2,365,074</u>	<u>\$ 5,958,527</u>
Funded ratio (actuarial value of plan assets/AAL)	<u>0%</u>	<u>0%</u>	<u>0%</u>
Covered payroll (active plan members)	<u>\$ 34,624,868</u>	<u>\$ 30,358,375</u>	<u>\$ 64,983,243</u>
UAAL as a percentage of covered payroll	<u>10%</u>	<u>8%</u>	<u>9%</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the Notes to the Financial Statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the City and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the City and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2011 City actuarial valuation and June 30, 2012 School actuarial valuation, the projected unit credit cost method was used. The actuarial value of assets was not determined as the City has not advance funded its obligation. The actuarial assumptions included a 4% investment rate of return and an initial annual healthcare cost trend rate of 8%, which decreases to a 5% long-term rate for all healthcare benefits after six years for the City and an initial annual healthcare cost trend rate of 10%, which decreases to a 5% long-term rate for all

healthcare benefits after twenty years for the School. The amortization costs for the initial UAAL is a level percentage of payroll for a period of 30 years, on an open basis. This has been calculated assuming the amortization payment increases at a rate of 4%.

25. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

26. Commitments and Contingencies

A. Burlington Telecom

The City of Burlington previously entered into a Master State and Municipal Lease/Purchase Agreement dated August 15, 2007 (the "Lease") with Municipal Leasing Consultants, for certain equipment used in the Burlington Telecom system. The Lease was subsequently assigned by Municipal Leasing Consultants to CitiCapital Municipal Finance. The payments under the Lease were subject to annual appropriation. The City did not appropriate funds to make the payments due in fiscal year 2011 and, pursuant to the terms of the Lease, the Lease terminated.

On September 2, 2011, Citibank, N.A., as purported assignee of CitiCapital Municipal Finance ("Citibank"), filed a complaint in the United States District Court for the District of Vermont against the City with respect to the Lease. The complaint seeks monetary damages, including the return of the \$33,500,000 lease proceeds, punitive damages, and/or equitable relief, including the return of the equipment under the Lease and rescission of the Lease. On December 22, 2011, the City filed an answer, affirmative defenses and counterclaims in response to the lawsuit commenced by Citibank, N.A. On December 19, 2011, Citibank filed a Motion for Mandatory Preliminary Injunction and/or Preliminary Injunction against the City. The City filed an opposition thereto.

In March 2012, a hearing was held on Citibank's motion for a Mandatory Preliminary Injunction. The Court did not order the removal or de-installation of the equipment and indicated to the parties that it was unlikely to do so. The parties stipulated to entry of an order that would provide for the City of Burlington to set aside 60% of the net revenues of the Burlington Telecom Enterprise. Of such amount, the amount of interest due on the debt to the City of Burlington's cash pool on account of the approximate \$16.9 million due from Burlington Telecom to the City of Burlington's general fund will be paid into the US District Court. The balance is to be paid to Citibank on account of the

continued use of equipment by Burlington Telecom. The City of Burlington may seek relief from such stipulated order if necessary to comply with applicable court orders or orders of the Vermont Public Service Board or if the continued payment would prevent the City of Burlington from operating Burlington Telecom as a commercially viable enterprise.

The City's financial statements reflect the termination of the Lease by removing any future lease payments as a liability on the books of Burlington Telecom and by removing the depreciated leased assets from Burlington Telecom's fixed asset records. Whether the City has any obligation or liability to Citibank for the return, replacement or monetary compensation of the Burlington Telecom's assets or for use of Burlington Telecom's assets during fiscal 2012 and future years, costs or other demands made in the complaint, is subject to the pending proceeding described above and is not determinable at this time.

There is a pending proceeding before the State of Vermont Public Service Board (the "Public Service Board") regarding violations by Burlington Telecom of certain conditions of its "Certificate of Public Good" or "CPG" issued in connection with the operation of certain aspects of the Burlington Telecom system. The proceeding includes matters seeking to address the City's use of funds from sources other than the Burlington Telecom system for Burlington Telecom capital and operating expenses. On or about October 8, 2010, the Public Service Board issued a partial summary judgment on several motions related to non-compliance with several conditions and provisions of the CPG, including a condition restricting use of City funds and a condition requiring a build-out of the Burlington telecom system. The summary judgment provides the opportunity for Burlington Telecom to cure the violations effective on the date of the order.

Burlington Telecom has requested relief related to certain conditions of the CPG, including a determination that certain payments, primarily for legal services and to Dorman & Fawcett on behalf of the City, do not constitute a violation of condition 60 of the CPG. The Public Service Board ruled in favor of the City of Burlington on such payments and the Public Service Board requires monthly reports to be filed in connection with the October 8, 2010 order.

B. Burlington International Airport

The City is in receipt of communication from the Federal Aviation Administration (FAA) requesting additional information regarding taxes and fees paid by the City to the City of South Burlington and the payment's compliance with the Office of Management and Budget's Circular's A-87 and A-133 and the FAA's Revenue Use Policy. The communication also requests a meeting in Washington, DC to determine a final correction action plan. The City is unable to determine a liability, if any, at this time.

C. Electric Department Commitments and Contingencies

The Electric Department receives output from generation of the McNeil Station (of which the Department is the 50% owner and operator) and the Burlington Gas Turbine (which the Department wholly owns and operates).

In addition to energy provided by its owned generation, the Department purchases a portion of its electricity requirements pursuant to long-term (greater than one year in duration) contracts. During the fiscal year ended June 30, 2012, long-term sources of purchased power included:

- New York Power Authority (NYPA) power from hydro stations on the Niagara and St. Lawrence rivers under contracts through September 1, 2025 (Niagara) and through April 30, 2017 (St. Lawrence).
- Vermont Electric Power Producers, Inc. (VEPP) which is agent for 16 hydro facilities and one biomass facility located within Vermont (hydro facility contracts expire between 2013 and 2020 and the biomass facility contract expired in 2012).
- Deliveries pursuant to a long term contract with Vermont Wind commenced in September 2011 (for test energy), with the official ten year contract start date being October 19, 2011 when commercial energy production began. Under the contract, the Department receives 16 MW (40%) of Vermont Wind's wind farm in northeast Vermont (Sheffield). BED's 16 MW entitlement is expected to provide approximately 13% of BED's annual energy requirements.
- The output from a small landfill methane to electricity project located in the Burlington
- Interval (production of electricity at this facility ended in FY2012 due to decreased methane output).
- Long-term purchases from a number of small in-state resources under a state mandated feed-in tariff program (called SPEED resources).
- Purchase of the output from 5 small in-city solar projects under long term agreements.

Payments under these long-term power supply contracts were \$6,204,103 and \$3,607,751 for the years ended June 30, 2012 and 2011, respectively. Budgeted commitments under these long-term contracts and long-term contracts approved and executed for future delivery periods total approximately \$46,245,924 for the 5-year period from July 1, 2013 to June 30, 2017.

The remainder of the Department's energy requirement is satisfied through short-term purchases including:

- Short-term purchases from a number of market counterparties.
- Net exchange of energy through the Independent System Operator New England power markets.

- Green Mountain Power Corporation (GMP) power to serve the Burlington International Airport (physically located in GMP's service territory). Note the purchase of power under this agreement was terminated by BED effective May 1, 2011 at which time BED began to serve the airport from its own portfolio of resources.

The costs of power purchased under these contracts are accounted for as purchase power expenses in the statements of revenues, expenses, and changes in net assets. The percentages of the Department's total energy requirements were provided as follows:

	<u>2012</u>	<u>2011</u>
McNeil Generating Station and Gas Turbine	32.1%	32.3%
New York Power Authority	4.6%	4.1%
Vermont Electric Power Producers, Inc.	4.6%	6.4%
Landfill/SPEED	0.5%	0.4%
Vermont Wind	8.3%	-
Solar	0.1%	-
Other	49.8%	56.8%
Total	<u>100.0%</u>	<u>100.0%</u>

In 2008, the Department entered into a contract with Enernoc, Inc. This contract is not designed to meet energy needs, but rather allows Enernoc to assist the Department and its customers in managing their demand on peak days. The contract continues through December 31, 2012.

The Department is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Department manages these risks through a combination of commercial insurance packages purchased in the name of the Department, and through the City's risk management program. Insurance settlements have not exceeded insurance coverage for any of the past three fiscal years.

The City maintains, for itself and the Department, a self-insurance program for health, dental, and life insurance. The City has entered into commercial insurance contracts to administer these programs and the risk of loss has been transferred to re insurance carriers for amounts paid in excess of \$130,000 per person per year.

The Department also purchases commercial insurance to cover other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Long Term Contracts Approved and Executed for Future Delivery Periods

The Burlington City Council has approved, and the Vermont Public Service Board has likewise approved, a 25 year contract with Georgia Mountain Community Wind. The contract has been executed, construction has commenced, and commercial operations are expected in late 2012. Under the proposed contract, the Department will receive 11 MW (100%) of Georgia Mountain's permitted wind farm in Milton/Georgia Vermont. BED's 11 MW entitlement is expected to provide approximately 10% of BED's annual energy requirements.

The Burlington City Council, the Vermont Public Service Board, and the voters of Burlington have approved a 23 year energy-only contract with Hydro-Quebec. The contract has been executed and deliveries will begin (for BED) in 2015. Under the contract, the Department will receive 5 MW of contract energy for the period November 1, 2015 to October 31, 2020 and a second (additional) 4 MW of contract energy for the period November 1, 2020 to October 31, 2038. BED's entitlement is expected to provide approximately 6%-15% of BED's annual energy requirements depending on whether one, or both, contract entitlements are flowing in a particular year.

D. Other Funds' Commitments and Contingencies

1. Lake Champlain Barge Canal

The City has a continuing possible liability as a potentially responsible party ("PRP") with respect to a certain hazardous waste site known as the Lake Champlain Barge Canal. A settlement and containment plan has been implemented and the City does not anticipate additional costs as the Landowners Trust Fund contains adequate resources to cover foreseeable expenses.

2. North/South Connector Project

In the 1980's, the City undertook a major project to construct connector highways on the north and south boundaries of the City. The northern part was completed in 1987. However, due to the fact that the southern route was to go through a hazardous waste "superfund" site known as the Lake Champlain Barge Canal, construction in the south side has been delayed. The scope and route for the road has changed much over the years. The City, working with the State of Vermont, has redesigned the route of the highway and a plan is under consideration. Engineering and administrative fees in the amount of \$713,744 were expended in fiscal year 2012. Federal and State permitting and final design are ongoing and construction will not begin until sometime in the future.

3. Chittenden Solid Waste District

The City is a member of the Chittenden Solid Waste District with a membership share approximating 25%. There is a pending case at the Federal District Court level. The District expects that any liability will be covered by insurance. The City, as a member, could share in the costs of any unfavorable outcomes not covered by insurance.

4. Grant Programs

The City participates in a number of federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The audits of these programs for, or including, the year ended June 30, 2012 have not yet been conducted. Accordingly, the City's compliance with grant application requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

5. Construction Commitments

The Airport has a number of ongoing Airport Improvement Program (AIP) projects for construction and land acquisition as well as several Passenger Facility Program (PFC) projects for terminal improvements that are funded from restricted assets. AIP projects include taxiway reconstruction, stormwater treatment projects, building demolition related to previously acquired property and land acquisition. The PFC projects include energy projects, cargo apron reconstruction, escalator and baggage carousel projects and related work.

6. Letters of Credit

In June 2010, the Airport, through TD Bank, issued two irrevocable standby letters of credit for the benefit of the City of South Burlington totaling \$447,417. The purpose of the letters of credit were to ensure the Airport performed adequate landscaping and repairs on Airport Drive as agreed upon. One letter of credit totaling \$81,667 expired September 1, 2011 and the other one for \$365,750 expires September 1, 2014.

7. Development of the Land at the Corner of Cherry and Battery Streets

On May 19, 2003, the City entered into a development agreement with Westlake Development to provide for the construction of a hotel and parking facility on the southeast corner of Battery and Cherry Streets. The City exercised its right to purchase land and completed construction of a parking garage containing 200 public spaces known as the Westlake Garage. As part of the agreement, the City financed and added two decks to the existing

Lakeview Parking Garage adjacent to the hotel site in 2005. It is anticipated that repayment will come from additional property taxes that will accrue to the City within its tax increment financing (TIF) district.

The developer completed construction of a hotel on this site and residential condominiums on the land adjacent to the Lakeview Garage. The final phase of the project provided for the construction of a project with affordable housing on City property known as “site A”. The developer has not initiated construction of this phase and notified the City that the planned housing project was not viable. The City entered into an agreement effective December, 2008, with the hotel developer to lease the land and build a new hotel on Site A. The hotel developer has received local and State permits to build the new hotel on Site A and construction began in fiscal 2012.

8. Transportation Center

The City stopped the development of the Transportation Center in July, 2003 due to public concern about the location of the project. The Mayor then convened an ad hoc task force with representatives of the Chittenden County Metropolitan Planning Organization, the Chittenden County Transportation Authority, (CCTA) the Vermont Agency of Transportation, the Burlington Business Association, Burlington City Council, the Department of Public Works, and the Burlington Planning Commission to evaluate the City’s position and options relative to the project. This task force presented a plan that evaluated five locations for the Transportation Center. The City Council reviewed these alternatives and the City has proceeded with further evaluation of a preferred site on Pine Street between Pearl Street and Cherry Street. Subsequently, a Memorandum of Understanding, dated December 17, 2008, to that effect was executed by the City and CCTA.

The engineering and design costs for the Transportation Center were paid for with Federal Transportation Authority (FTA) funds. In the event that the Pine Street location is not used, the FTA may recall funds for the design and engineering of the project totaling approximately \$1,400,000. The City’s portion would be funded with tax increment funds to pay back the proceeds of a Certificate of Participation issued in June of 2005.

In 2011, the City entered into an agreement to transfer grant funding, project authority and liability for the project to the Chittenden County Transportation Authority.

9. Moran Project

The “Moran Center” is a public-private partnership involving the redevelopment of a defunct coal-fired electric generating plant on Burlington, Vermont’s waterfront. Built in 1954, decommissioned in 1986, the J.E. Moran plant has sat abandoned and blighted ever since. Nonetheless, the site

has long been recognized for its redevelopment potential because of the building's structural integrity and strategic location anchoring the north end of the downtown waterfront.

The building was then turned over to the City and, in 1993, the Public Service Board directed the City to repay Burlington Electric \$375,000 for the property. The purchase of the property and payment to BED has been completed.

Over the past four years, the City has actively engaged the community to create a viable redevelopment plan. The "Moran Center" will clean-up a significant brownfield on the shores of Lake Champlain, redevelop a blighted industrial property, create new public amenities, provide educational and recreational opportunities for residents and visitors, and have a significant economic impact.

Due to the fact that the Moran Building is a defunct coal-fired electric generating plant, the City has remediation costs associated with known environmental contamination. The City has currently estimated a remediation liability approximating \$265,000. However, this estimate is subject to change due to factors such as price increases and decreases, changes in technology, further environmental discoveries, or changes in applicable laws or regulations.

As currently planned, the redeveloped site will have a mix of free and fee-based uses, including year-round public access to an observation deck overlooking the lake, public rest rooms, a rebuilt skate boarding park, an improved bike path and new public park space. The site may be managed by the Department of Parks and Recreation, and the renovated building will be leased to prospective tenants.

The project is being led by a development team coordinated by the Community and Economic Development Office (CEDO). CEDO has been successfully implementing complex community, housing and economic development projects and programs for the past twenty-five years. CEDO administers several HUD programs, including the Community Development Block Grant, HOME Investment Partnership, and Lead Hazard Reduction programs, and has a strong track record of successfully utilizing Section 108 loan funds. CEDO has always met timely expenditure standards, has no unresolved audit or monitoring findings, and has been recognized for several best practices.

In addition to the proposed HUD Section 108 Guaranteed Loan, CEDO has assembled various resources to finance the project including a \$1 million HUD BEDI grant, several EPA grants, and local funds. The project is also being structured to benefit from Rehabilitation Investment Tax Credits (RITC) and New Markets Tax Credits (NMTC). The City is currently working with

three NMTC allocatees: Coastal Enterprises Inc., Vermont Rural Ventures, and Massachusetts Housing Investment Corporation (the City has also had discussions with National Development Council and Local Initiatives Support Corporation).

The Moran project enjoys wide community support: in March 2008, Burlington voters approved by a 2-1 margin an advisory referendum endorsing the proposal. It has been thoroughly vetted by the City Council's Board of Finance, the Parks Arts and Culture Committee, and by a citizen's advisory committee whose membership included local business leaders and residents from each of the City's wards.

E. General Commitments and Contingencies

The City has several claims for which the insurance carriers have issued a reservation of rights. The City is not able to assess the likelihood or the amount, if any, of an unfavorable outcome on these cases at this time.

1. Insurance Reserves

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City manages these risks through a combination of specific commercial insurance packages purchased in the name of the Electric, Airport, Telecom and School Funds, and through the City's risk management program.

On January 1, 2007, the City purchased commercial insurance to manage all of its risks except for workers' compensation claims. The City is self-insuring worker's compensation claims up to \$250,000 per occurrence and with an aggregate limit that changes each year. On January 1, 2010, the City increased the per occurrence limit to \$350,000 per claim. The aggregate limit for calendar years 2010 and 2011 was \$2,758,800. The City has hired a third-party administrator, the Travelers Indemnity Company, to process, pay and administer the claims after which they bill the City for reimbursement. The City has an irrevocable standby letter of credit with the Travelers Indemnity Company as beneficiary in the amount of \$1,500,000 to secure the payment of claims.

The City also self-insures for health insurance. The Plan is administered by a third-party administrator that is responsible for approval, processing and payment of claims, after which they bill the City for reimbursement. The City has reinsurance for individual claims in excess of \$130,000 and for aggregate stop loss of 125% of projected claims for the 2012 policy year. The School is a member of Vermont Educational Health Initiative (VEHI). VEHI is a nonprofit corporation formed to provide health insurance and wellness programs for Vermont school districts and is owned by the participating

members. The agreement does not permit VEHI to make additional assessments to its members.

The City also self-insures for dental insurance. This plan is administered by a third-party administrator that is responsible for approval, processing and payment of claims, after which they bill the City for reimbursement. Each covered employee is guaranteed \$1,500 of paid claims per year after which the employee must pick up any excess costs.

The costs associated with these self-insurance plans are budgeted in the General Fund and allocated to other funds based on the following:

<u>Type</u>	<u>Allocation Method</u>
Worker's Compensation	50% Experience and 50% Exposure
Health	Number of Employees and Levels of Coverage
Dental	Actual Claims and Administration Fees Paid
Liability	Adjusted Operating Budgets
Property	Insured Value of City Structures

At June 30, 2012, the City has recorded a liability of \$257,730 included in accounts payable which represents reported health, dental, property, liability and worker's compensation claims incurred on or before June 30, 2012, but were not paid by the City as of that date. A long-term reserve liability of \$1,619,000 is included for claims incurred but not reported. This consists of \$1,187,000 for property, liability and workers' compensation claims, \$414,000 for health claims and \$18,000 for dental claims. In addition to this long-term liability, a \$217,160 liability for insurance reserves is carried in the General Fund as it is funded by a working fund deposit. This amount was determined by the third-party administrators as described above for property, liability and workers' compensation and based on subsequent claims with a completion factor for health and dental.

Settled claims resulting from insured risks have not exceeded coverage in the past three fiscal years.

The City has elected to pay actual unemployment claims instead of enrolling in an unemployment insurance program. No liabilities have been accrued as the City is not able to make an estimate as to any future costs. The City and School paid \$105,333 and \$54,893, respectively, in unemployment claims during fiscal year 2012.

27. Deferred Compensation

The City's also offers its employees two deferred compensation plans in accordance with Internal Revenue Code Section 457 through the International City/County

Management Association's (ICMA) Retirement Corporation and Nationwide Retirement Solutions. The plans permit employees to defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, or death. The City has no liability for losses under the plans, but does have the duty of due care that would be required of an ordinary prudent inventor.

28. Implementation of New GASB Standards

- The GASB has issued Statement 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which are required to be implemented in fiscal year 2013 and 2014, respectively. Management's current assessment is that this pronouncement will have a significant impact on the City's basic financial statements by eliminating the deferred charges related to debt offerings. The City anticipates that by eliminating the deferred charges, its net assets will be reduced accordingly.
- The GASB has issued Statement 68, *Accounting and Financial Reporting for Pensions*, which is required to be implemented in fiscal year 2015. Management's current assessment is that this pronouncement will have a significant impact on the City's basic financial statements by recognizing as a liability and expense, the City's applicable portion of the Retirement System's actuarially accrued liability.

CITY OF BURLINGTON, VERMONT
SCHEDULE OF FUNDING PROGRESS
REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2012

(Unaudited)
